This compact and comprehensive book is a step-by-step practical guide to students, telling them how to prepare technical reports and how to acquire the basic communication skills—listening, speaking, reading and writing. The book deals with conversation, situational dialogues and role plays, and Group Discussions (GDs). It also gives detailed discussion about Interviews—step-by-step preparation, practical and psychological preparation, the dos and don'ts for interview—besides dealing with different kinds of interviews: telephonic, videoconferencing, and others. In addition, the text stresses the importance of researching the organization, and salary negotiations. Finally, the book shows the students how to make powerpoint presentations (PPTs), the structure of presentation and using audio visuals. This activity based, skill-oriented, learner centred book is designed according to the WBUT syllabus on Technical Report Writing and Language Laboratory Practice for the B.Tech. students. However, it would be equally useful for B.Tech./B.E. students across the country. **DISTINGUISHING FEATURES :** A practical and student friendly text, the stress being on the functional aspects of the language and various activities for acquiring the language. Gives the Methodology of conducting activities such as GDs, Interviews and Presentation. Provides model GD topics and the step-by-step process of making PPTs. **The Funeral Procession** Aneek Chatterjee,2015-08-11 He did not see the partition of India, but discovered that his mother was a refugee. He heard that India lost a war with China many years ago. He was growing up, and the Naxalite movement in India was also growing up with him. He read in newspapers and listened from the radio, Indian Army's victory over Pakistan in the 1971 war. But this victory, he felt, was achieved through huge tension in his poor family: his elder brother could have been sent to the war front and killed. As a boy he learned about Atom Bomb, Exigency, Lizards and Indian politics. The story revolved around the life of J, the young lad growing up in a small town in Bengal. As he grew up, J watched life and death unfolding in front of him. In death he saw life, and in life, he discovered hope, despair, magnanimity, deceit, hypocrisy and benevolence. J watched society and politics and their many faces. As a child he observed the Naxalite movement with chivalry and pride; later he watched the Centrist and the Left rules in Bengal and got to know from his teacher that political activists often changed jerseys to get the fruits of power. With ignorance of a child he saw the first funeral procession of his father, with excruciating pain he watched again, this time as a boy, another funeral procession, of his elder brother. Later he observed, as a young man, the funeral procession of a Head of Government. He felt that funeral processions were slowly expanding, from family to the state, and gradually engulfing his country. Built around ten chapters, the novel reflected the socio-political milieu of Bengal and India in the 1970s and 80s through the journey of J, its principal character, from childhood to adulthood. The journey also discovered the necessity of peace in times of war and peace.

*Be ingenious when life gives you strong imagination* Aneek Dey,2022-08-05 Be ingenious when life gives you strong imagination, the title of this book, is adventure-themed and contains up to thirty-eight amazing tales, each with its own moral to be derived from the story. Readers will be able to visualize 'what is being meant' in their minds by all the stories so as to boost their imaginative capabilities. As you can see, these stories can be very helpful when it comes to both imaginative and creative thinking. There is nothing more enjoyable than reading the stories within this book when it is taken seriously, as well as enjoyed by the reader. There is a high degree of efficacy in this book since it introduces readers to ideas and motivates them to try many new things, whether creatively or otherwise. In the absence of the adventurous tales that are included in this book, it would not be possible to say that it assists the readers in gaining some knowledge from it.

*Politics in Cinema* Aneek Chaudhuri,2020-05-03 For mainstream Political Science, 'popular culture' is still no longer considered worthy of serious investigation. Similarly, the concept of the use of films as a pedagogical device has remained on the margins. Nevertheless, movies may be a treasured way of teaching college students about politics and international politics especially. This paper identifies four wonderful ways of using movies as a teaching tool: the first approach uses movie to portray historical events along with the Cold War, and the second makes use of movie to debate unique problems in worldwide politics which includes terrorism or genocide.
