Review Questions and Answers for Veterinary Technicians - REVISED REPRINT - E-Book Thomas P. Colville,2014-10-01
With more than 5,000 practice questions in the book and online, Review Questions and Answers for Veterinary Technicians, 4th Edition - Revised Reprint prepares you for success on the Veterinary Technician National Exam (VTNE). Subject areas covered include: pharmacology, surgical preparation and assisting, dentistry, laboratory procedures, animal nursing, diagnostic imaging, and anesthesiology. A new Evolve website lets you answer questions in practice mode, or as a VTNE-style, 150-question practice exam with instant feedback. Written by veterinary technology educator Thomas Colville, this engaging review gives you the practice and the confidence you need to master the VTNE. More than 5,000 review questions in the book prepare you to pass the VTNE by testing factual knowledge, reasoning skills, and clinical judgment in the seven primary subject areas of veterinary technology. Multiple-choice question format mirrors the format used in the VTNE. Answers include rationales for correct and incorrect answers, and are provided at the back of the book. NEW! An Evolve companion website contains 5,000 questions and a practice exam that simulates the computer-based VTNE testing environment, and provides instant feedback and a test score.

The Ethnomusicologists' Cookbook Sean Williams,2013-10-31 Named one of New York Times Top-20 Cookbooks of 2006. Have you ever wanted to host a full evening of Indian food, culture, and music? How about preparing a traditional Balinese banquet? Or take a trip to Cairo and enjoy an Egyptian feast? The Ethnomusicologists' Cookbook takes you around the world on a culinary journey that is also a cultural and social odyssey. Many cookbooks offer a snapshot of individual recipes from different parts of the world, but do nothing to tell the reader how different foods are presented together, or how to relate these foods to other cultural practices. For years, ethnomusicologists have visited the four corners of the earth to collect the music and culture of native peoples, from Africa to the Azores, from Zanzibar to New Zealand. Along the way, they've observed how music is an integral part of social interaction, particularly when it's time for a lavish banquet or celebration. Foodways and cultural expression are not separate; this book emphasizes this connection through offering over thirty-five complete meals, from appetizers to entrees to side dishes to desserts and drinks. A list of recommended CDs fills out the culinary experience, along with hints on how to present each dish and to organize the overall meal. The Ethnomusicologists' Cookbook combines scholarship with a unique and fun approach to the study of the world's foods, musics, and cultures. More than just a cookbook, it is an excellent companion for anyone embarking on a cultural-culinary journey.

The Collected Dialogues of Plato Plato,1961-10-01 All the writings of Plato generally considered to be authentic are here presented in the only complete one-volume Plato available in English. The editors set out to choose the contents of this collected edition from the work of the best British and American translators of the last 100 years, ranging from Jowett (1871) to scholars of the present day. The volume contains prefatory notes to each dialogue, by Edith Hamilton; an introductory essay on Plato's philosophy and writings, by Huntington Cairns; and a comprehensive index which seeks, by means of cross references, to assist the reader with the philosophical vocabulary of the different translators.
