The Chinese of America Jack Chen,2019-08-15 “Before World War I, when Chinese contributed importantly to the building of America by constructing the transcontinental railroads and by digging gold and coal, three-fifths of them came from one small district of their homeland; until 1943, immigration laws fostered their concentrations in ‘Chinatowns’; only after World War II did they start integrating into American life. This is the best general account of their culture, contributions and problems.” — The New York Times “In this lucidly and beautifully written account of Chinese immigrants in America from the 19th century to the present, Jack Chen has done a superb job of casting history into a perspective of broad understanding of nation building combined with a sense of ethnic pride.” — William Liu, University of Illinois at Chicago, *American Journal of Sociology* “Most interesting and certainly much needed.” — John King Fairbank, Francis Lee Higginson Professor of History, Emeritus, Harvard University “Working with numerous excellent, recently published monographs, archival materials, and unpublished papers by young scholars, Chen has written a highly readable book, the most comprehensive and detailed account to date.” — S. F. Chung, *The Journal of Asian Studies*

Light Years from Home Mike Chen,2022-01-25 From the New York Times bestselling author of *Star Wars: Brotherhood* A Best Of pick and Most Anticipated Sci Fi and Fantasy novel, as selected by Goodreads • Buzzfeed • BookRiot • The Portalist • IO9 • BookBub • SheReads • BiblioLifestyle • Den of Geek • GeekDad “A rich backstory... a highly satisfying ending... All the stars for Chen's warmhearted space-travel story.” —Kirkus, starred review Every family has issues. Most can’t blame them on extraterrestrials. Evie Shao and her sister, Kass, aren’t on speaking terms. Fifteen years ago on a family camping trip, their father and brother vanished. Their dad turned up days later, dehydrated and confused—and convinced he’d been abducted by aliens. Their brother, Jakob, remained missing. The women dealt with it very differently. Kass, suspecting her college-dropout twin simply ran off, became the rock of the family. Evie traded academics to pursue alien conspiracy theories, always looking for Jakob. When Evie's UFO network uncovers a new event, she goes to investigate. And discovers Jakob is back. He's different—older, stranger, and talking of an intergalactic war—but the tensions between the siblings haven't changed at all. If the family is going to come together to help Jakob, then Kass and Evie are going to have to fix their issues, and fast. Because the FBI is after Jakob, and if their brother is telling the truth, possibly an entire space armada, too. The perfect combination of action, imagination and heart, *Light Years from Home* is a touching drama about a challenge as difficult as saving the galaxy: making peace with your family...and yourself. With heart and insight...Chen crosses the stakes and imagination of a space opera with the emotional depth and intricacy of a family drama. —Erika Swyler, bestselling author of *Light from Other Stars*

The Cold Start Problem Andrew Chen,2021-12-07 A startup executive and investor draws on expertise developed at the premier venture capital firm Andreessen Horowitz and as an executive at Uber to address how tech’s most successful products have solved the dreaded cold start problem”—by leveraging network effects to launch and scale toward billions of users. Although software has become easier to build, launching and scaling new products and services remains difficult. Startups face daunting challenges entering the technology ecosystem, including stiff competition, copycats, and ineffective marketing channels. Teams launching new products must consider the advantages of “the network effect,” where a product or service’s value increases as more users engage with it. Apple, Google, Microsoft, and other tech giants utilize network effects, and most tech products incorporate them, whether they’re messaging apps, workplace collaboration tools, or marketplaces. Network effects provide a path for fledgling products to break through, attracting new users

through viral growth and word of mouth. Yet most entrepreneurs lack the vocabulary and context to describe them—much less understand the fundamental principles that drive the effect. What exactly are network effects? How do teams create and build them into their products? How do products compete in a market where every player has them? Andrew Chen draws on his experience and on interviews with the CEOs and founding teams of LinkedIn, Twitch, Zoom, Dropbox, Tinder, Uber, Airbnb, and Pinterest to offer unique insights in answering these questions. Chen also provides practical frameworks and principles that can be applied across products and industries. The Cold Start Problem reveals what makes winning networks thrive, why some startups fail to successfully scale, and, most crucially, why products that create and compete using the network effect are vitally important today.

Powerful Patriots Jessica Chen Weiss,2014 What role do nationalism and popular protest play in China's foreign relations? Chinese authorities permitted anti-American demonstrations in 1999 but repressed them in 2001 during two crises in U.S.-China relations. Anti-Japanese protests were tolerated in 1985, 2005, and 2012 but banned in 1990 and 1996. Protests over Taiwan, the issue of greatest concern to Chinese nationalists, have never been allowed. To explain this variation, Powerful Patriots identifies the diplomatic as well as domestic factors that drive protest management in authoritarian states. Because nationalist protests are costly to repress and may turn against the government, allowing protests demonstrates resolve and makes compromise more costly in diplomatic relations. Repressing protests, by contrast, sends a credible signal of reassurance, facilitating diplomatic flexibility. Powerful Patriots traces China's management of dozens of nationalist protests and their consequences between 1985 and 2012. -- Provided by publisher
