**Alexander Theodore Shulgin, Wendy E. Perry**

**Annual Reports in Organic Synthesis 1995** Philip M.

Weintraub, 2013-10-22 This handy reference tool is an organized annual review of synthetically useful information. It abstracts synthetic reactions from the major chemistry journals of the past year and includes reactions and methods that are new and reasonably general. The reactions are presented in a convenient pictorial format designed for rapid visual retrieval of information. The Journal of the American Chemical Society has aptly described this publication as an aid to the harassed organic chemist who cannot keep up with the never-diminishing stream of new primary literature and hails it an outstandingly good buy. Clearly illustrated structures of compounds in every feasible synthetic pathway A general review of structure/activity information for each synthetic compound Extensive reference information provided on additional publications available for each reaction discussed The most comprehensive, reasonably priced compilation of its type

**Jerusalem on the Amur** Henry Felix Srebrnik, 2008-10-03

The Canadian Jewish Communist movement, an influential ideological voice within the Canadian left, played a major role in the politics of Jewish communities in cities such as Montreal, Toronto, and Winnipeg, as well as many smaller centres, between the 1920s and the 1950s. Jerusalem on the Amur looks at the interlocking group of left-wing Jewish organizations that shared the political views of the Canadian Communist Party and were vocal proponents of policies perceived as beneficial to the Jewish working class. Focusing on the Association for Jewish Colonization in Russia, known by its transliterated acronym as the ICOR, and the Canadian Ambijan Committee, Henry Srebrnik uses Yiddish-language books, newspapers, pamphlets, and other materials to trace the ideological and material support provided by the Canadian Jewish Communist movement to Birobidzhan.

**Children's Drawings of the Human Figure** Maureen V.

Cox,2013-05-24 The human figure is one of the earliest topics drawn by the young child and remains popular throughout childhood and into adolescence. When it first emerges, however, the human figure in the child's drawing is very bizarre: it appears to have no torso and its arms, if indeed it has any, are attached to its head. Even when the figure begins to look more conventional the child must still contend with a variety of problems: for instance, how to draw the head and body in the right proportions and how to draw the figure in action. In this book, Maureen Cox traces the development of the human form in children's drawings; she reviews the literature in the field, criticises a number of major theories which purport to explain the developing child's drawing skills and also presents new data.

**Globalizing Interests** Michael Zurn,2012-02-01 Globalizing Interests is an innovative study of globalization from inside, looking at the reaction of nationally constituted interest groups to challenges produced by the denationalization process. The contributors focus on business associations, trade unions, civil rights organizations, and right-wing populists from Canada, Germany, Great Britain, and the United States, and examine how they have responded to three extremely globalized issue areas: the Internet, migration, and climate change. What they find is that the politics of denationalization is a new game with new rules, new teams, and surprisingly broad support for governance beyond the nation state.

Recovering Canada John Borrows,2017-06-22 Canada is covered by a system of law and governance that largely obscures and ignores the presence of pre-existing Indigenous regimes. Indigenous law, however, has continuing relevance for both Aboriginal peoples and the Canadian state. In his in-depth examination of the continued existence and application of Indigenous legal values, John Borrows suggests how First Nations laws could be applied by Canadian courts, and tempers this by pointing out the many difficulties that would occur if the courts

attempted to follow such an approach. By contrasting and comparing Aboriginal stories and Canadian case law, and interweaving political commentary, Borrows argues that there is a better way to constitute Aboriginal / Crown relations in Canada. He suggests that the application of Indigenous legal perspectives to a broad spectrum of issues that confront us as humans will help Canada recover from its colonial past, and help Indigenous people recover their country. Borrows concludes by demonstrating how Indigenous peoples' law could be more fully and consciously integrated with Canadian law to produce a society where two world views can co-exist and a different vision of the Canadian constitution and citizenship can be created.
