The Medieval Foundations of International Law Dante Fedele,2021-04-26 Dante Fedele's new work of reference reveals the medieval foundations of international law through a comprehensive study of a key figure of late medieval legal scholarship: Baldus de Ubaldis (1327-1400).

Some Questions and Answers about God's Covenant and the Sacrament That Is a Seal of God's Covenant Robert Rollock,2016-06-17 Robert Rollock is best remembered today for the role he played

in the development of Reformed covenant theology, a role defined especially by the uniquely mature treatment of a pre-fall covenant of works discovered in his thought. However, scholarship on Rollock's covenant thought has until now been based almost entirely on an early modern English translation of Rollock's *Tractatus de vocatione efficaci* (1597), and has overlooked discussion of the covenant of works found both in Rollock's 1596 *Quaestiones et responsiones aliquot de Foedere Dei, deque Sacramento quod foederis Dei sigillum est* and his 1593 Romans commentary. This volume offers the first complete English translation of Rollock's 1596 catechism as well as English translations of relevant sections from his Romans commentary that deal with the subject of God's covenants with man. Thus this volume stands to offer students of Reformed covenant theology a better understanding of Rollock's thought and the contribution he made to the evolution of Reformed theology, particularly on the matter of God's covenant with humankind before the fall.

Ramus, Method, and the Decay of Dialogue Walter J. Ong,2004 Publisher Description

Jean Bodin, 'this Pre-eminent Man of France' Howell A. Lloyd,2017-06-02 Jean Bodin was a figure of great importance in European intellectual history, known as a jurist, associate of kings and courtiers in sixteenth-century France, and author of influential works in the fields of constitutional and social thought, historical writing, witchcraft, and a great deal else besides. Best known for his contribution to formulating the modern doctrine of sovereignty, Bodin was a scholar of exceptional range, whose works provoked controversy in his own time and have continued to do so down the centuries. Hugh Trevor-Roper described him as 'the Aristotle, the Montesquieu of the sixteenth century, the prophet of comparative history, of political theory, of the philosophy of law, of the quantitative theory of money, and of so much else'. Much has been written on Bodin and his ideas, but in this new intellectual biography, Howell A. Lloyd presents the first rounded treatment of the thinker and his times, his writings (major and minor), and his ideas in their contemporary context, as well as in that of broader intellectual traditions.
