User Comments and Moderation in Digital Journalism Thomas B. Ksiazek, Nina Springer, 2020-04-01 This book is an authoritative discussion of user comments and moderation in digital journalism, examining how user comments have disrupted the field of journalism and how a growing number of news organizations have abandoned commenting features altogether. Making a broad argument concerning user commentary as a manifestation of user engagement and public deliberation, *User Comments and Moderation in Digital Journalism: Disruptive Engagement* conceptualizes the act of commenting as interactive engagement and participation in a virtual public sphere. The book also explores the organizational policies that have the potential to disrupt - as well as improve - the quality of user discussions. Ultimately, strategies are proposed for managing and improving user comments and encouraging more productive public deliberation in digital journalism. This engaging discussion of a key development in digital journalism is a valuable resource for academics and researchers in the areas of journalism, media and communication studies.

**Journalism, Online Comments, and the Future of Public Discourse** Marie K. Shanahan, 2017-09-13 Comments on digital news stories and on social media play an increasingly important role in public discourse as more citizens communicate through online networks. The reasons for eliminating comments on news stories are plentiful. Off-topic posts and toxic commentary have been shown to undermine legitimate news reporting. Yet the proliferation of digital communication technology has revolutionized the setting for democratic participation. The digital exchange of ideas and opinions is now a vital component of the democratic landscape. Marie K. Shanahan's book argues that public digital discourse is crucial component of modern democracy—one that journalists must stop treating with indifference or detachment—and for news organizations to use journalistic rigor and better design to add value to citizens' comments above the social layer. Through original interviews, anecdotes, field observations and summaries of research literature, Shanahan explains the obstacles of digital discourse as well as its promises for journalists in the digital age.

**Participatory Journalism and Reader Comments in Croatia** Tamara Kunić, 2023-12-15 Online discussions in the form of readers' comments are a central part of many news sites and social media platforms. In this book, Tamara Kunić explores and interprets the ways in which digital technology has impacted the production and dissemination of content and the need to adapt in the age of a new audience, the prosumer--

**Antisemitism in Reader Comments** Matthias J. Becker, 2021-04-28 This book examines the most frequent form of Jew-hatred: Israel-related antisemitism. After defining this hate ideology in its various manifestations and the role the internet plays in it, the author explores the question of how Israel-related antisemitism is communicated and understood through the language used by readers in below-the-line comments. Drawing on a corpus of over 6,000 comments from traditionally left-wing news outlets *The Guardian* and *Die Zeit*, the author examines both implicit and explicit comparisons made between modern-day Israel and both colonial Britain and Nazi Germany. His analyses are placed within the context of resurgent neo-nationalism in both countries, and it is argued that these instances of antisemitism perform a multi-faceted role in absolving guilt, re-writing history, and reinforcing in-group status. This book will be of interest not only to linguistics scholars, but also to academics in fields such as internet studies, Jewish studies, hate speech and antisemitism.

**Just Here for the Comments** Gina Sipley, 2024-05-28 We all sometimes 'lurk' in online spaces without posting or engaging, just reading the posts and comments. But neither reading nor lurking are ever passive acts. In fact, readers of social media are making decisions and taking grassroots actions on multiple dimensions. Unpacking this understudied phenomenon, this book

challenges the conventional perspective of what counts as participatory online culture. Presenting lurking as a communication and literacy practice that resists dominant power structures, it offers an innovative approach to digital qualitative methods. Unique and original in its subject, this is a call for internet researchers to broaden their methods to include lurkers' participation and presence.

**Fireflies** Philippe Parreno, 2019 Generally known for his installation work encompassing sculpture, video and soundscapes, Fireflies focuses wholly on Parreno's lesser-known drawings. The drawings collected here showcase a delicate, personal touch, as they were created while Parreno was ill with cancer and were sent to his friends. In Parreno's drawings the fireflies' light is often created by an absence of darkness or pigment. This striking contrast perfectly encapsulates the bioluminescent glow emanating from the insect's abdomen. The book is edited by Hans Ulrich Obrist, artistic director of the Serpentine Galleries. An interview with the artist by Obrist and an essay by Belgian philosopher Vinciane Despret accompany the works.
