Manufacturing Phobias Hisham Ramadan, Jeff Shantz, 2016-05-12 Fear is a powerful emotion and a formidable spur to action, a source of worry and – when it is manipulated – a source of injustice. Manufacturing Phobias demonstrates how economic and political elites mobilize fears of terrorism, crime, migration, invasion, and infection to twist political and social policy and advance their own agendas. The contributors to the collection, experts in criminology, law, sociology, and politics, explain how and why social phobias are created by pundits, politicians, and the media, and how they target the most vulnerable in our society. Emphasizing how social phobias reflect the interests of those with political, economic, and cultural power, this work challenges the idea that society's anxieties are merely expressions of individual psychology. Manufacturing Phobias will be a clarion call for anyone concerned about the disturbing consequences of our culture of fear.

Radiocarbon Dates ,2014-06-30 This volume holds a datelist of radiocarbon determinations carried out between 1970 and 1982 on behalf of the Ancient Monuments Laboratory, now part of English Heritage. It also contains supporting information about the samples and the sites producing them, a comprehensive bibliography, and three indexes for reference and analysis. The datelist has been collated to give access to a large body of information which, although mostly published elsewhere, has never before been accessible in a consistent form. When these dates were produced, high-precision calibration was not possible; now that this is available all dates have been converted, thus giving archaeologists and others using radiocarbon dates the opportunity to review their dating results in the light of this calibration, and with hindsight. The indexes order the complex information contained in the datelist by HAR numbers and by true calendar dates.
