*Radiocarbon Dates* ,2014-06-30 This volume holds a datelist of radiocarbon determinations carried out between 1970 and 1982 on behalf of the Ancient Monuments Laboratory, now part of English Heritage. It also contains supporting information about the samples and the sites producing them, a comprehensive bibliography, and three indexes for reference and analysis. The datelist has been collated to give access to a large body of information which, although mostly published elsewhere, has never before been accessible in a consistent form. When these dates were produced, high-precision calibration was not possible; now that this is available all dates have been converted, thus giving archaeologists and others using radiocarbon dates the opportunity to review their dating results in the light of this calibration, and with hindsight. The indexes order the complex information contained in the datelist by HAR numbers and by true calendar dates.

Student Affairs Lesley Andres,Finola Finlay,2005-05 Who has access to higher education today? At what financial and personal cost? Based on what conditions and criteria? How do students describe and interpret their experiences? And how can institutions facilitate and constrain successful participation and completion? These research studies extend current understandings of what it is to be a student in higher education by embracing the dynamic relationship between students as agents and institutions as living structures which impact on their lives. Focusing on the diverse experiences of today's non-traditional and traditional students, researchers explore how and why institutional rhetoric of inclusion, engagement, gender, and access may or may not be reflected in the reality of students' experiences. Student Affairs moves from theory to application by suggesting realistic strategies for addressing the challenges surrounding the interrelation of students and institutions. Each essay analyzes issues of access and participation in programs ranging from community college development studies to graduate studies. As a whole, this collection is a testament to how much institutional change has occurred in the social organization of postsecondary

education, and how much more change is required to meet the challenge of equitable access and inclusion.
