Intellectual Property Law in Greece Dionysia Kallinikou,Lia I. Athanassiou,Christos Chrissanthis,2018-12-12 Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph provides a survey and analysis of the rules concerning intellectual property rights in Greece. It covers every type of intellectual property right in depth – copyright and neighbouring rights, patents, utility models, trademarks, trade names, industrial designs, plant variety protection, chip protection, trade secrets, and confidential information. Particular attention is paid throughout to recent developments and trends. The analysis approaches each right in terms of its sources in law and in legislation, and proceeds to such legal issues as subject matter of protection, conditions of protection, ownership, transfer of rights, licences, scope of exclusive rights, limitations, exemptions, duration of protection, infringement, available remedies, and overlapping with other intellectual property rights. The book provides a clear overview of intellectual property legislation and policy, and at the same time offers practical guidance on which sound preliminary decisions may be based. Lawyers representing parties with interests in Greece will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative intellectual property law.

The Fortress of the Raven Marcus Milwright,2008 In c.1142 work started on the construction of a major castle in the southern Jordanian town of Karak. The largest of a network of fortifications, Karak castle became the administrative centre of an important Crusader lordship. After 1188 Karak and its territories were incorporated into the Ayyubid, Mamluk and Ottoman sultanates. This book traces the history of Karak and the surrounding lands during the Middle Islamic period (c.1100-1650 CE). The book offers an innovative methodology, combining primary textual sources (in Latin and Arabic) with archaeological data (principally the ceramic record) as a means to reconstruct the fluctuating economic relations between Karak and other regions of the Middle East and eastern Mediterranean.
