**"The Shining Ones"** Helene E. Hagan, 2001-08-17

The Introduction of the book indicates the necessity to start with the archaeology of the early settlements of the West Bank of the Nile, a territory to be considered as the mother or matrix of all Egyptian civilization. It establishes the pioneer nature of this Etymological Essay in the English language, as most of the studies in keeping with its findings are to be found in the scholarly literature of Europe and North Africa.

1. Archaic Terminology: The chapter traces the origins of early settlements of the northwestern region of Egypt, the desert oases, the Fayum, the region of the Lakes, and the western portion of the delta of the Nile, by Saharan and Libyan archaic people, with specific emphasis on archaic topography which can be directly related to Modern Amazigh spoken today in North Africa (Tamazirt.) 2, The Pillar People: The review of a number of terms from the mythology and ceremonial procedures of dynastic Egypt shows the influence of those early settlers named The People of the Pillars (Intui) on the beliefs and practices perpetuated through centuries in Egypt, and the presence of an all pervasive worship of these early origins: (cult of ancestors.) 3. The Holy rulers of First Princes of Egypt: An intensive comparative review of ancient Egyptian and Modern Amazigh terms reveals that the first noble rulers of the area were of Amazigh origin. A series of families of terms link quite clearly a number of beliefs and practices to the North African cultural complex. 4. Tehuti, time and the Wisdom of the stars is a chapter delving a little more deeply into the cosmogony and cosmology of the early Egyptians, and the roots of that knowledge in archaic practices, which have parallel indicators in North Africa. 5. The Innermost Shrine from The Book of the Dead: The geography of the Land of the Beyond, Tu-at (Du-Ament), and a variety of

important indices throughout the Book of the Dead indicate quite clearly that the final return of the defunct to the Blessed Land of the Ancestors was also a step by step description of their claim of descent from these original beings. The rule of “Ma-aa-at,” the organizing principle of an entire civilization for centuries, or ‘NTR,” originated in the area of the Sacred lakes and the ancient settlements of the Fayum and oasis complex. Linguistic comparison with Modern Amazigh continues to indicate the kinship of those people with North African Imazighen (also known as Berbers.) 6. A Conclusion, Notes, and an Appendix, which is the reproduction of an article published in The Amazigh Voice, a publication of the Amazigh Cultural Association in America, indicate the pioneer aspect of such a work and the direction in which further linguistic studies could bring increasing light into areas of Egyptian scholarship heretofore deemed as obscure and/or of barbarous origin. .

**Tomb(e)** Hélène Cixous, 2020-03-05 In 1968-69 I wanted to die, that is to say, stop living, being killed, but it was blocked on all sides, wrote Hélène Cixous, esteemed French feminist, playwright, philosopher, literary critic, and novelist. Instead of suicide, she began to dream of writing a tomb for herself. This tomb became a work that is a testament to Cixous's life and spirit and a secret book, the first book she ever authored. Originally written in 1970, *Tombe* is a Homeric recasting of Shakespeare's *Venus and Adonis* in the thickets of Central Park, a book Cixous provocatively calls the all-powerful-other of all my books, it sparks them off, makes them run, it is their Messiah. Masterfully translated by Laurent Milesi, *Tombe* preserves the sonic complexities and intricate wordplay at the core of Cixous's writing, and reveals the struggles, ideas, and intents at the center of her work. With a new prologue by the author, this is a necessary document in the

development of Cixous's aesthetic as a writer and theorist, and will be eagerly welcomed by readers as a crucial building block in the foundation of her later work.

**Hélène Cixous: Live Theory** Ian Blyth, 2004-06-08

Hlne Cixous: live theory provides a clear and informative introduction to one of the most important and influential European writers working today. The book opens with an overview of the key features of Cixous theory of criture fminine (feminine writing). The various manifestations of criture fminine are then explored in chapters on Cixous fictional and theatrical writing, her philosophical essays, and her intensely personal approach to literary criticism. The book concludes with a new, lively and wide-ranging interview with Hlne Cixous in which she discusses her influences and inspirations, and her thoughts on the nature of writing and the need for an ethical relationship with the world. Also offering a survey of the many English translations of Cixous work, this book is an indispensable introduction to Cixous work for students of literature, philosophy, cultural and gender studies.

**Hélène Metzger, Historian and Historiographer of the Sciences** Cristina Chimisso, 2019-12-05

Is there something important to learn from the history of science about knowledge and the mind? Do habits and emotions play a significant role in science? To what extent do present concerns and knowledge distort our understanding of past texts and practices? These are crucial questions in current debates, but they are not new. This monograph evaluates

the answers to these and other questions that Hélène Metzger (1889-1944) provided. Metzger, who was the leading historian of chemistry of her generation, left us unparalleled reflections on the theory, practice and aims of history writing. Despite her influence on subsequent generations of thinkers, including Thomas Kuhn, this is the first full-length monograph on her. Beginning with an overview of her life, and the challenges faced by a Jewish woman working within academia, the book goes on to discuss the most important themes of her historiography, and her engagement with other disciplines, notably general history, philosophy, ethnology and religious studies. The book also explores both Metzger's immediate legacy and the relevance of her ideas for a host of current debates in science studies. The Appendices include four of her historiographical papers, translated into English for the first time.

**Helene Schweitzer** Patti M. Marxsen,2015-05-04 Born in Berlin, Helene Schweitzer came of age in Strasbourg during a time of great social, architectural, and historical developments. It was in this cultural milieu, as a history professor's daughter, that Helene met a young pastor named Albert Schweitzer (1875-1965) and developed a deep friendship that flourished for a decade before their marriage in 1912. During those years, she served as the first woman Inspector of City Orphanages in Strasbourg, a position she held for four years before becoming a certified nurse. She also edited and proofread a number of

Schweitzer's books in multiple fields as they worked together to realize their shared dream of devoting their lives to humanity. Together in 1913, Albert and Helene Schweitzer founded what is now the longest-running hospital established by Europeans in Africa, the Albert Schweitzer Hospital in current-day Gabon. With her quiet strength, clear sense of purpose, independent spirit, and wide range of skills and talents, Helene was a model for many other women who later served the Schweitzer Hospital. Drawing upon the couple's lifelong correspondence, as well as Helene's journals and professional writing, Marxsen reveals a modern woman of courage in dark times whose resilient, optimistic spirit allowed her to leave a lasting legacy that has yet to be fully understood. Helene Schweitzer's dramatic life reveals deeper questions of how memory is influenced by gender assumptions and how biography is shaped by place and history. By providing a counter-narrative to the traditional image of a frail woman who sacrificed her life to her husband's genius, this richly detailed chronicle of a little-known figure invites a larger discussion about the meaning of a woman's life obscured by a partner's fame.

**The Hélène Cixous Reader** Susan Sellers, 2003-08-01  
This is the first truly representative collection of texts by Helene Cixous. The substantial pieces range broadly across her entire oeuvre, and include essays, works of fiction, lectures and drama. Arranged helpfully in chronological order, the extracts span twenty years of intellectual thought and demonstrate clearly the development of one of the most creative and brilliant minds of the twentieth century. With a foreword by Jacques Derrida, a preface by Cixous herself, and first-class editorial material by Susan Sellers, The Helene Cixous Reader is destined to become a key text of feminist writing.
