The Dragon and the Eagle Alfred Owen Aldridge,1993 Previous scholarship held that the image of China did not penetrate North America until after trade was established between Canton and the East Coast in 1784. In *The Dragon and the Eagle*, A. Owen Aldridge reveals that a lively curiosity about oriental culture existed before the middle of the eighteenth century, and that a good deal of information about it was available even during the War for Independence. Aldridge surveys attitudes and opinions about all aspects of Chinese life and culture expressed in American fiction, history, travel accounts, sermons, poetry, essays, correspondence, memoirs, and references in periodicals. He indicates that between 1760 and 1825 several entire books about China were published in America, together with a host of short pieces in newspapers and magazines. By the end of the eighteenth century, practically every idea or element of concrete information about China in print in London or Paris had reappeared in some form or another in the United States. The history of these initial dealings shows in many ways a clash of contrasting cultures. This book uncovers some extraordinary instances of the relationship: Benjamin Franklin at the age of thirty-two publishing in his Philadelphia newspaper an analysis of the thought of Confucius; Thomas Jefferson including a Chinese novel on a reading list of 200 books for his brother-in-law; Thomas Paine comparing Confucius and Christ as great moral teachers; Philip Freneau composing a poem hailing the first voyage of an American vessel to the Far East; the American Philosophical Society enquiring into the contents of a Chinese book unearthed in the midst of a camp of American Indians in Pennsylvania; and a shocked American sea captain viewing the corpses of Eurasian babies floating down the river in Canton. Aldridge confines his remarks to literary and intellectual texts before the eighteenth century and emphasizes authors in English who have been previously neglected. A bibliography of American imprints referring to China, 1760 to 1826, appears in the appendix.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

The Dragon & the Eagle Delia Goetz,1944 An account of the relations between China and the United States--in industry, government, agriculture, health, education--from clipper ship days to Flying Tigers.--Booklist.

The Eagle and the Dragon Dennis L. Noble,1990 In 1900, US troops were part of an international force that helped crush the Boxer uprising in China. When the troops were withdrawn, one infantry regiment was left behind, marking the beginning of a sporadic build-up of all branches of the US military in China. This book examines the lives of the men who served in China from 1901 to 1937, and it marks the first effort to understand how the peace-time military lived on a foreign station.

The Eagle-Dragon Alliance Wesley Marvin Bagby,1992 This general history, based on archival and monographic sources, some of which were not available to earlier writers, is designed to be a balanced and comprehensive synthesis. Seldom does a historian come upon a richer mix of colorful personalities, dramatic action, Byzantine intrigue, and momentous historical issues. The impact of Americans on China during the war was enormous. Much of U.S. activity in China, because of inadequate knowledge of China's culture, government, and military capabilities, was harmful to China and Chiang's regime. Moreover, U.S. efforts to induce Chiang to make reforms designed to improve his regime's war effort and chances for post-war survival were ineffective. The sulfurous American General Joseph Stilwell, assigned to serve as Chiang's chief of staff, underestimating the fighting ability of the Japanese and disregarding Chiang's advice, followed a strategy in the first Burma campaign that contributed to the loss of Chiang's best divisions and the chance of holding north Burma. Stilwell's obsessive demand for a new Burma campaign involved him in bitter controversies with Chiang, the British, and U.S. Air Commander Claire Chennault. When the British demanded that Stilwell be removed from Burma, he, with Roosevelt's support, demanded that Chiang turn over to him the command of China's armed forces, which was equivalent to control of China. But Americans could not enforce this demand on Chiang, who expelled Stilwell from China. Ambassador Patrick Hurley then attempted to arrange a coalition government between Chiang and the Communists, a proposal Chiang rejected. At Roosevelt's insistence, Chiang allowed America to send U.S. personnel, the Dixie Mission, to the Communist headquarters at Yennan. Mao Tse-Tung convinced Foreign Service Officer John Service and others that he sought a cooperative relationship with America (in order, among other reasons, to reduce his dependence on Russia). Before Stilwell's dismissal Americans had decided to arm the Communists, but the removal of Stilwell defeated that purpose, and U.S. aid continued to go exclusively to Chiang. It appeared that the ideological preferences of Americans brought about a postponement of cooperation with the ultimately victorious Chinese Communists, despite an eventual common interest in keeping Soviet influence in East Asia in check. This comprehensive study is illustrated and includes a chronology, glossary, bibliography and index.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Dragon Versus Eagle Wei-Chiao Huang,2012

The Eagle and the Dragon Lewis F. McIntyre,2017-02-03 The Eagle and the Dragon takes the reader on an epic journey of thousands of miles by sea and land across three continents. When Senator Aulus Aemilius Galba is tapped to lead the first Roman mission to China, he anticipates an easy path to fame and fortune. Gaius Lucullus sees a bright military future, but his reluctant centurion Antonius Aristides would rather be somewhere else. Translators Marcia Lucia and her brother Marcus were taken from their village in China to serve the Han court, abused and despised, hiding a horrible secret. A notorious Arab pirate, with a Roman price on his head and crucifixion in his future, shadows the entourage, seeking the wealthy prize of their treasure-laden ships. But Fate has other plans for these unlikely companions, sending them together on a journey that will take them thousands of miles by sea and land across the tapestry of the mysterious worlds at the close of the first century. From the storm-tossed Indian Ocean to the opulent Hanaean court, from the wild grassy steppes north of China to the forbidding peaks of the Pamir Mountains

of Bactria, they fight for their lives, hoping to find the road that will lead them back to Rome.

The Eagle and the Dragon Serge Gruzinski, 2015-01-13 In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

The Eagle and the Dragon Don Lawson, 1985 Traces the history of the relationship between the United States and China from the China trade in the eighteenth century to the reopening of official relations in the early 1970's.

作者 : 丹尼斯·韦特利, 2008 Written side-by-side in English and Chinese, *The Dragon and The Eagle* is a provocative allegory featuring imagined conversations between two world superpowers: China and America. From the new global economy to philosophical, cultural and ethical issues, every chapter illuminates the critical concerns confronting China and America today and their respective visions for the future. This fictional narrative shows how East and West can - and must - work together to survive and thrive in today's international marketplace. The Eagle, perched on a mountaintop in the West, notices a huge shape looming in the East, and flies over for a closer look. It turns out to be a potential enemy, The Dragon, who invites The Eagle to join him, thus triggering frank discussions about business, philosophy, ethics, culture, and education. It turns out that despite their many differences, these perceived enemies share much in common.

The Dragon and the Eagle Sunny Auyang, 2014-12-18 This stimulating, uniquely organized, and wonderfully readable comparison of ancient Rome and China offers provocative insights to students and general readers of world history. The book's narrative is clear, completely jargon-free, strikingly independent, and addresses the complete cycles of two world empires. The topics explored include nation formation, state building, empire building, arts of government, strategies of superpowers, and decline and fall.

Out Flying the Eagle Naval Postgraduate School, 2014-12-02 In 2006, the People's Republic of China adopted an innovation policy designed to accelerate domestic economic innovation. With this policy, China aimed to shift its economy from one that manufactures products at the lower end of the value-added chain to one manufacturing products at the top of the value-added chain. China plans to become not only a high-technology manufacturing nation but to become the world-leader in innovation. Certain aspects of this plan for endogenous growth through state-driven economic innovation were economically competitive with the United States. This book will assess the impact of the PRC's plans and actions to drive innovation, to include answering the following questions: Have the PRC's actions regarding innovation made an impact on its economic performance? And consequently: How might we expect China's state-driven-innovation to affect U.S.-China relations? This book will show that China's Indigenous Innovation policy has made some minor contributions to raising the levels of innovation in China but will likely fall short of the 2006-2020 MLP goals. Furthermore, although this policy initially included economically competitive elements, it has been adjusted and in its present form is less likely to have a negative impact on future U.S.-China Relations.

Dragon Hearts Carol Ann Nix, 2015-12-01 *Dragon Hearts: Eagle in China* is the first sequel to *Dragon Hearts: Love in China*. Books in the *Dragon Hearts* Series are memoirs containing candid accounts of the author's life teaching Chinese undergraduate and graduate students in Beijing. While in China, Carol Ann Nix fell in love with a Chinese colleague, with her Chinese students and their rich culture, and with nearly every man, woman, and child in Beijing. The dragon swallowed her whole. *Dragon Hearts: Eagle in China* transports you into the lives of young urban Chinese professionals and university students in China's modern-day capital--a teeming city undergoing spectacular growth and renewal--an ancient city rapidly adapting to and adopting Western material culture. This book is about hearts touching hearts, and it focuses on many aspects of love and adventures in Beijing, Guangzhou, Zhuhai, Xiamen, Guilin, and other exotic cities in China. The author hopes her stories will help you know the good Chinese people as she knows them--and love them as she loves them. More sequels in the *Dragon Hearts* Series will follow.

The Eagle in Autumn Rhoe Mallock, 2005-05 The year is 2022. The South China Sea is the busiest waterway in the world, and is on the verge of becoming a cauldron of violent naval destruction. With interviews, verified press reports, and the U.S. government's investigation transcripts, *The Eagle in Autumn* describes the criminal activity that transpires at the U.S. defense contractor Dayton-Anderson--activity that considerably affects the outcome of the conflict. Espionage runs rampant as agents working for the People's Liberation Army Navy (PLAN) try to gain access to security intelligence from the Americans, specifically on the RU-35, a field upgrade to a Howitzer-type rocket-propelled artillery shell and also the Conqueror missile guidance system. Recruited by the PLAN to steal American secrets, Ian Manning befriends Anne Seybold, a beautiful scientist who is managing the RU-35 and Conqueror projects. Using Seybold, he blackmails the CEO of Dayton-Anderson, a company contracted by the US Government to develop both of the top secret programs. In the years leading up to the South China Sea War, the battle for secrets exacts a heavy price. But it is those secrets, combined with a misguided U.S. foreign policy, a crumbling U.S. infrastructure, and corrupt corporate officers, that end up contributing to the most significant U.S. naval conflict of the twenty-first century.

Bald Eagle Vision 2 Jason O'Neil, 2021-07-13 In this novel, Rory Flynn, son of Matt Flynn, the co-inventor of the Red Box Antigravity Device which revolutionized global transportation, is the billionaire grandfather of Nolan Flynn. Grandpa takes his 17-year-old grandson on a week-long tour of the national capital region. Their Turbopod multi-vehicle (T-Pod) carries them to key sites around the Chesapeake Bay. The journey begins and ends at the family home, Beauvista, overlooking Jefferson's Monticello in Charlottesville, Virginia. The purpose of the tour is to educate the young man about the many "ISMs" like Americanism, Federalism, Racism, Socialism and Communism. In addition to the Capitol, the duo visits museums, galleries, monuments, golf courses and French restaurants. Grandpa wants his grandson to "smell the roses along the way." The youth has a rude awakening during a visit to a Middle School where the ugliness of the white versus black racism is taught. The role of the Teacher's Unions in brainwashing the students with racism in order to divide the country for the Socialist government is clear. In addition, Nolan gets a lifetime lesson about how the Chinese Communists have infiltrated American society in preparation for a complete take-over. In the end, Nolan realizes why the Flynn Family has been dedicated to the fight against Socialism and Communism for decades. The tour convinces the savvy youth to take up the torch for American Patriotism. He takes pride in his new vision, much like that of the Bald Eagle, to dedicate his life to the fight against the ugly "ISMs" attempting to end our Democracy and Free-Enterprise economy and turn our country into a Third-World state controlled by Beijing.
