Impatient with Desire Gabrielle Burton,2010-03-09 A great adventure. A haunting tragedy. An enduring love. In the spring of 1846, Tamsen Donner, her husband, George, their five daughters, and eighty other pioneers headed to California in eager anticipation of new lives out West. Everything that could go wrong did, and an American legend was born. The Donner Party. We think we know their story--starving pioneers trapped in the mountains performing an unspeakable act to survive--but we know only that one harrowing part of it. *Impatient with Desire* brings us answers to the unanswerable question: What really happened in the four months the Donners were trapped in the Sierra Nevadas And it brings to stunning life a woman--and a love story--behind the myth. Tamsen Eustis Donner, born in 1801, taught school, wrote poetry, painted, botanized, and was fluent in French. At twenty-three, she sailed alone from Massachusetts to North Carolina when respectable women didn't travel alone. Years after losing her first husband, Tully, she married again for love, this time to George Donner, a prosperous farmer, and in 1846, they set out for California with their five youngest children. Unlike many women who embarked reluctantly on the California-Oregon Trail, Tamsen was eager to go. Later, trapped in the mountains by early snows, she had plenty of time to contemplate the wisdom of her decision and the cost of her wanderlust. Historians have long known that Tamsen kept a journal, though it was never found. In *Impatient with Desire*, Burton draws on years of historical research to vividly imagine this lost journal--and paints a picture of a remarkable heroine in an extraordinary situation. Tamsen's unforgettable journey takes us from the cornfields of Illinois to the dusty Oregon Trail to the freezing Sierra Nevada Mountains, where she was forced to confront an impossible choice. *Impatient with Desire* is a passionate, heart-wrenching story of courage, hope, and love in hardship, all told at a breathless pace. Intimate in tone and epic in scope, *Impatient with Desire* is absolutely hypnotic.

Heartbreak Hotel Gabrielle Burton,1986 A novel concerning seven women who are residents of Heartbreak Hotel, a way station for tour guides on mandatory rest leave from the Museum of the Revolution.

American Baby Gabrielle Glaser,2021-01-26 A New York Times Notable Book The shocking truth about postwar adoption in America, told through the bittersweet story of one teenager, the son she was forced to relinquish, and their search to find each other. "[T]his book about the past might foreshadow a coming shift in the future... 'I don't think any legislators in those states who are anti-abortion are actually thinking, 'Oh, great, these single women are gonna raise more children.' No, their hope is that those children will be placed for adoption. But is that the reality? I doubt it.'"[says Glaser]" -Mother Jones During the Baby Boom in 1960s America, women were encouraged to stay home and raise large families, but sex and childbirth were taboo subjects. Premarital sex was common, but birth control was hard to get and abortion was illegal. In 1961, sixteen-year-old Margaret Erle fell in love and became pregnant. Her enraged family sent her to a maternity home, where social workers threatened her with jail until she signed away her parental rights. Her son vanished, his whereabouts and new identity known only to an adoption agency that would never share the slightest detail about his fate. The adoption business was founded on secrecy and lies. *American Baby* lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families, fabricating stories about infants' origins and destinations, then closing the door firmly between the parties forever. Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific assessments, and shamed millions of women into surrendering their children. The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files. Gabrielle Glaser dramatically illustrates in Margaret and David's tale--one they share with millions of Americans--a story of loss, love, and the search for identity.

Searching for Tamsen Donner Gabrielle Burton,2009-03-01 This book tells of Burton's search to solve the mystery of Tamsen Donner for herself. A graceful mingling of history and memoir, *Searching for Tamsen Donner* follows Burton and her husband, with their five daughters, on her journey along Tamsen's path. From Tamsen's birthplace in Massachusetts to North Carolina, where she lost her first family in the space of three months; to Illinois, where she married George Donner; and finally to the fateful Oregon Trail, Burton recovers one woman's compelling history through a modern-day family's adventure into realms of ultimately timeless experiences --Cover, p. 2.

Being Nuclear Gabrielle Hecht,2014-08-29 The hidden history of African uranium and what it means—for a state, an object, an industry, a workplace—to be "nuclear." Uranium from Africa has long been a major source of fuel for nuclear power and atomic weapons, including the bomb dropped on Hiroshima. In 2003, after the infamous "yellow cake from Niger," Africa suddenly became notorious as a source of uranium, a component of nuclear weapons. But did that admit Niger, or any of Africa's other uranium-producing countries, to the select society of nuclear states? Does uranium itself count as a nuclear thing? In this book, Gabrielle Hecht lucidly probes the question of what it means for something—a state, an object, an industry, a workplace—to be "nuclear." Hecht shows that questions about being nuclear—a state that she calls "nuclearity"—lie at the heart of today's global nuclear order and the relationships between "developing nations" (often former colonies) and "nuclear powers" (often former colonizers). Hecht enters African nuclear worlds, focusing on miners and the occupational hazard of radiation exposure. Could a mine be a nuclear workplace if (as in some South African mines) its radiation levels went undetected and unmeasured? With this book, Hecht is the first to put Africa in the nuclear world, and the nuclear world in Africa. By doing so, she remakes our understanding of the nuclear age.

Entangled Geographies Gabrielle Hecht, 2011-04-04 Investigations into how technologies became peculiar forms of politics in an expanded geography of the Cold War. The Cold War was not simply a duel of superpowers. It took place not just in Washington and Moscow but also in the social and political arenas of geographically far-flung countries emerging from colonial rule. Moreover, Cold War tensions were manifest not only in global political disputes but also in struggles over technology. Technological systems and expertise offered a powerful way to shape countries politically, economically, socially, and culturally. *Entangled Geographies* explores how Cold War politics, imperialism, and postcolonial nation building became entangled in technologies and considers the legacies of those entanglements for today's globalized world. The essays address such topics as the islands and atolls taken over for military and technological purposes by the supposedly non-imperial United States, apartheid-era South Africa's efforts to achieve international legitimacy as a nuclear nation, international technical assistance and Cold War politics, the Saudi irrigation system that spurred a Shi'i rebellion, and the momentary technopolitics of emergency as practiced by *Medecins sans Frontières*. The contributors to *Entangled Geographies* offer insights from the anthropology and history of development, from diplomatic history, and from science and technology studies. The book represents a unique synthesis of these three disciplines, providing new perspectives on the global Cold War.
