**LEGO Gadgets** Klutz,2018-03 Build 11 machines, includes all the LEGO bricks you need. From the 'practical' (a mechanical hand to pick things up for you) to the intriguing (a machine that makes crinkled paper) to the flat-out ridiculous (astronaut training for your mini-figures!), these projects encourage kids to explore the possibilities hidden in their LEGO collection. Inspires open-ended creativity to not just build the models in this book, but also to experiment with their own modifications to be faster, more accurate, or more complex.

*Consumer Gadgets* Nicholas D. Evans,2003 Consumer Gadgets is an approachable how-to book exploring fifty of today's high-tech innovations that can enable you to have fun, simplify your life, and be more productive in everyday tasks whether at home, at the office or even in your car.

Pro Web Gadgets for Mobile and Desktop Sterling Udell,2010-04-06 The miniature web applications known as gadgets (or widgets) are a key component of the distributed web and an ideal way to publish your content far beyond the reach of your own web site. Packaging web content and functionality into a gadget enables it to be seen anywhere from iGoogle to the iPhone--wherever the user may be, on or off the traditional web. Everyone can access your content without having to visit your web site. This book is a practical guide to building gadgets that will work everywhere, from handheld devices to any site on the web. The core methodology is to develop a single code base that will run on all platforms, multiplying the syndication opportunities for maximum return on your development investment. Extending this approach is a technique of abstracting key API calls from the various gadget platforms into a single interface layer, implemented in the book as a compact JavaScript class, allowing your gadgets full access to every platform's power without your having to rewrite your code for each. Learn the key concepts for successfully syndicating web content via gadgets. Build platform-agnostic gadgets that run on all the major web portals. Deploy your gadgets to web-enabled handheld devices.

**When Gadgets Betray Us** Robert Vamosi,2011-03-29 Technology is evolving faster than we are. As our mobile phones, mp3 players, cars, and digital cameras become more and more complex, we understand less and less about how they actually work and what personal details these gadgets might reveal about us. Robert Vamosi, an award-winning journalist and analyst who has been covering digital security issues for more than a decade, shows us the dark side of all that digital capability and convenience. Hotel-room TV remotes can be used to steal our account information and spy on what we've been watching, toll-booth transponders receive unencrypted EZ Pass or FasTrak info that can be stolen and cloned, and our cars monitor and store data about our driving habits that can be used in court against us. When Gadgets Betray Us gives us a glimpse into the secret lives of our gadgets and helps us to better understand -- and manage -- these very real risks.

**Health Gadgets and Apps** Dr. Ajai Kumar Jain, In India, the combination of an aging population and adverse behaviors such as obesity and smoking will create epidemics of diseases like diabetes, heart problems, and other chronic diseases that last a lifetime and are difficult to treat. As per the World Health Organization (WHO), the

spread of chronic disease will increase 2.5 times with numbering 84 million in 1995 to 228 million in 2025. In developing countries like India, chronic disease will spread with a rate of 60%. Also with emergence of COVID -19 pandemic since Dec 2019 the existing problems of chronic diseases in aged population has caused global mortality and morbidity. To manage such a fast occurring and fast spreading respiratory infection many health gadgets and apps have contributed significantly to control its impact like thermal scanners, pulse oximeters , health apps like arogya setu , online pharmacy apps etc. Apart from it India has more than 1.3 billion population and has constraints of health care personnel and facilities. The primary care health care provider must become more organized and automated. The internet and digital medical information will have a major disruptive effect on the practice of medicine. The solution to such health care challenges is real time, team-based and multi-disciplinary care which can only be attained by advanced health gadgets and health apps. Through health gadgets and apps the user can process the health information and manage body statistics in real time manner. Earlier authors have focussed over commercial or technological side of health gadgets and apps. This book and research work is an academic contribution for linking the user intention with benefits of health gadgets ad apps. The authors have tried to provide a insight about health gadget and apps in India, considering it promising solution and basis of proactive health care delivery model in India.

Cognitive Gadgets Cecilia Heyes, 2018-04-16 How did human minds become so different from those of other animals? What accounts for our capacity to understand the way the physical world works, to think ourselves into the minds of others, to gossip, read, tell stories about the past, and imagine the future? These questions are not new: they have been debated by philosophers, psychologists, anthropologists, evolutionists, and neurobiologists over the course of centuries. One explanation widely accepted today is that humans have special cognitive instincts. Unlike other living animal species, we are born with complicated mechanisms for reasoning about causation, reading the minds of others, copying behaviors, and using language. Cecilia Heyes agrees that adult humans have impressive pieces of cognitive equipment. In her framing, however, these cognitive gadgets are not instincts programmed in the genes but are constructed in the course of childhood through social interaction. Cognitive gadgets are products of cultural evolution, rather than genetic evolution. At birth, the minds of human babies are only subtly different from the minds of newborn chimpanzees. We are friendlier, our attention is drawn to different things, and we have a capacity to learn and remember that outstrips the abilities of newborn chimpanzees. Yet when these subtle differences are exposed to culture-soaked human environments, they have enormous effects. They enable us to upload distinctively human ways of thinking from the social world around us. As Cognitive Gadgets makes clear, from birth our malleable human minds can learn through culture not only what to think but how to think it.
