A Grammar of the Bedouin Dialects of Central and Southern Sinai Rudolf Erik De Jong, 2011-04-11 This book complements A Grammar of the Bedouin Dialects of the Northern Sinai Littoral: Bridging the Linguistic Gap between the Eastern and Western Arab World (Brill: 2000) thus completing the author's description of Bedouin dialects of Sinai. Earlier and new data are synthesized in a dialectometrical approach for a subdivision into eight groups.

Wortatlas der arabischen Dialekte Peter Behnstedt, Manfred Woidich, 2011 The Wortatlas der arabischen Dialekte / Word Atlas of Arabic Dialects (WAD) intends to provide an unprecedented survey of the lexical richness and diversity of the Arabic dialects as spoken from Uzbekistan to Mauretania and Nigeria, from Malta to Sudan, and including the Ki-Nubi Creole as spoken in Uganda and Kenya. The multilingual word atlas will consist of three volumes in total with some 500 onomasiological maps in full colour. Each map presents a topic or notion and its equivalents in Arabic as collected from the dialectological literature (dictionaries, grammars, text collections, ethnographic reports, etc.), from the editors own field work, from questionnaires filled out by native speakers or by experts for a certain dialect region, and also from the internet. Polyglot legends in German, English, French, Spanish, Italian accompany the maps to facilitate further access. Each map is followed by a commentary in German, providing more details about

the sources and the individual forms, and discussing semantic and etymological issues. All quotations are in their original language. The maps mainly show lexical types, detailed and concrete forms are given in the commentaries. An introduction is provided in both German and English and an index of all lexemes in the atlas will be available. The first volume Band I: Mensch, Natur, Fauna und Flora / Volume 1: Mankind, Nature, Fauna and Flora contains subjects such as family members , professions , human qualities . The second volume, Band II: Materielle Kultur, deals with material culture (house , utensils , food , clothing , vehicles , etc.) and the third and final volume will focus on verbs, adjectives and function words. The atlas will be indispensable for everyone interested in the modern spoken Arabic language, as well as for dialectologists and for semanticists.

I Too Have Some Dreams A. Sean Pue, 2014-08-08 I Too Have Some Dreams explores the work of N. M. Rashed, Urdu's renowned modernist poet, whose career spans the last years of British India and the early decades of postcolonial South Asia. A. Sean Pue argues that Rashed's poetry carved out a distinct role for literature in the maintenance of doubt, providing a platform for challenging the certainty of collective ideologies and opposing the evolving forms of empire and domination. This

finely crafted study offers a timely contribution to global modernist studies and to modern South Asian literary history.

Conversational Dominance and Gender Hiroko Itakura,2001 Annotation In this study, Itakura (The Hong Kong Polytechnic U.) analyzes gender dominance in conversations among Japanese speakers in both their native tongue (L1) and in English (L2). The interactions studied include institutional talk as well as everyday conversation. The author's approach draws upon Conversation Analysis, the Birmingham school of discourse analysis, and dialogical analysis to examine whether patterns of gender dominance in Japanese L2 conversation are similar to those

found in L1 conversation. Annotation c. Book News, Inc., Portland, OR (booknews.com).

The Hitler Youth 1933-45 Alan Dearn,2006-03-28
The Hitler Youth was not in itself a military formation, but a movement that sought to inculcate Nazi ideology upon German youth. Nevertheless, paramilitary training formed an important part of this education, especially given the Nazi veneration of the soldier as the epitome of Germanic manhood; and even some members of the Bund Deutscher Mädel, the Hitler Youth organization for girls, became combatants in the final stages of World War II (1939-1945). This book explores how the preliminary training that German youth underwent in the Hitler Youth prepared them for service in the armed forces, and how Hitler Youth members became directly involved

in military service under the pressure of total war.

War in the Wild East Ben Shepherd, 2009-06-30 In Nazi eyes, the Soviet Union was the wild east, a savage region ripe for exploitation, its subhuman inhabitants destined for extermination or helotry. An especially brutal dimension of the German army's eastern war was its anti-partisan campaign. This conflict brought death and destruction to thousands of Soviet civilians, and has been held as a prime example of ordinary German soldiers participating in the Nazi regime's annihilation policies. Ben Shepherd enters the heated debate over the wartime behavior of the Wehrmacht in a detailed study of the motivation and conduct of its anti-partisan campaign in the Soviet Union. He investigates how anti-partisan warfare was conducted, not by the generals, but by the far more numerous, average Germans serving as officers in the field. What shaped their behavior was more complex than Nazi ideology alone. The influence of German society, as well as of party and army, together with officers' grueling yet diverse experience of their environment and enemy, made them perceive the anti-partisan war in varied ways. Reactions ranged from extreme brutality to relative restraint; some sought less to terrorize the native population than to try to win it over. The emerging picture does not dilute the suffering the Wehrmacht's eastern war inflicted. It shows, however, that properly judging ordinary Germans' role in that war is more complicated than is indicated by either wholesale condemnation or wholesale exoneration. This valuable study offers

a nuanced discussion of the diversity of behaviors within the German army, as well as providing a compelling exploration of the war and counterinsurgency operations on the eastern front.
