**Claretta** R. J. B. Bosworth, 2017-01-01 A master historian illuminates the tumultuous relationship of Il Duce and his young lover Claretta, whose extraordinarily intimate diaries only recently have become available. Few deaths are as gruesome and infamous as those of Benito Mussolini, Italy's fascist dictator, and Claretta (or Clara) Petacci, his much-younger lover. Shot dead by Italian partisans after attempting to flee the country in 1945, the couple's bodies were then hanged upside down in Milan's main square in ignominious public display. This provocative book is the first to mine Clara's extensive diaries, family correspondence, and other sources to discover how the last in Mussolini's long line of lovers became his intimate and how she came to her violent fate at his side. R. J. B. Bosworth explores the social climbing of Claretta's family, her naïve and self-interested commitment to fascism, her diary's graphically detailed accounts of sexual life with Mussolini, and much more. Brimful of new and arresting information, the book sheds intimate light not only on an ordinary-extraordinary woman living at the heart of Italy's totalitarian fascist state but also on Mussolini himself.

*Cosmetic Surgery Narratives* Debra Gimlin, 2012-10-23 This book examines British and American women's narratives of cosmetic surgery, exploring what those narratives say about the contemporary status of cosmetic surgery and 'local' ideas about its legitimate and illegitimate uses.

Our Crumbling Foundation Gregor Craigie, 2024-03-05 NATIONAL BESTSELLER An urgent and illuminating examination of the unrelenting housing crisis Canadians find ourselves facing, by Balsillie Prize finalist and CBC Radio host Gregor Craigie, *Our Crumbling Foundation* offers real-life solutions from around the world and hope for new housing innovation in the face of seemingly impossible obstacles. Canada is experiencing a housing shortage. Although house prices in major Canadian cities appear to have topped out in early 2023, new housing isn't coming

onto the market quickly enough. Rising interest rates have only tightened the pressure on buyers, and renters, too, as rising mortgage rates cost landlords more, which are passed along to tenants in rent increases. Even with the recent federal budget commitment to bring more housing online by 2030, there will still be a shortfall of 3.5 million homes by 2030. Gregor Craigie is a CBC journalist in Victoria, one of the highest-priced housing markets in the country. On his daily radio show *On The Island* he's been talking for over 15 years to local experts and to those across the country about housing. Craigie has travelled to many of the places he profiles in the book, and in his interviews with Canadians he presents the human face of the shortfall as he speaks with renters, owners and homeless people, exploring their varying predicaments and perspectives. He then shows, through comparable profiles of people across the globe, how other North American and international jurisdictions (Tokyo, Paris, Berlin, Helsinki, Singapore, Ireland, to name a few) are housing their citizens better, faster and with determination—solutions that could be put into practice here. With passion, knowledge and vigour, Craigie explains how Canada reached this critical impasse and will convince those who may not yet recognize how badly our entire country is in need of change. Our Crumbling Foundation provides hope for finding our way out of the crisis by recommending a number of approaches at all levels of government. The prescription for how we're going to house ourselves, and do so equitably, requires not just a business solution, nor simply a social solution, but rather a combination of both, working hand-in-hand with all levels of government, and quickly, in order to catch up with and outpace the needs of Canadians in this ever-intensifying crisis over a basic human right.

**Feminist Theory** Josephine Donovan, 2000-07-01 This

first major study of feminist theory, which is revised and completely reset, now takes the reader into the twentieth century. It chronicles a renaissance of feminist theory through the so-called third wave of the present day, which follows significant waves of earlier periods: the fifteenth through early eighteenth centuries as well as the more widely recognized nineteenth century; and the 1960s through the 80s.

**Framed** Robert F. Kennedy Jr., 2016-07-12 The New York Times bestseller – now in paperback, with a new afterword “A must-read for those who care about justice and integrity in our public institutions.” —Alan M. Dershowitz, Esq. The Definitive Story of One of the Most Infamous Murders of the Twentieth Century and the Heartbreaking Miscarriage of Justice That Followed On Halloween, 1975, fifteen-year-old Martha Moxley’s body was found brutally murdered outside her home in swanky Greenwich, Connecticut. Twenty-seven years after her death, the State of Connecticut spent some \$25 million to convict her friend and neighbor, Michael Skakel, of the murder. The trial ignited a media firestorm that transfixed the nation. Now Skakel’s cousin Robert F. Kennedy, Jr., solves the baffling whodunit and clears Michael Skakel’s name. In this revised edition, which includes developments following the Connecticut Supreme Court decision, Kennedy chronicles how Skakel was railroaded amidst a media frenzy and a colorful cast of characters—from a crooked cop and a narcissistic defense attorney to a parade of perjuring witnesses.

**The New Heroines** Katheryn Wright, 2016-03-21 This book explores how the next generation of teen and young adult heroines in popular culture are creating a new feminist ideal for the 21st century. Representations of a teenage girl who is unique or special occur again and again

in coming-of-age stories. It's an irresistible concept: the heroine who seems just like every other, but under the surface, she has the potential to change the world. This book examines the cultural significance of teen and young adult female characters—the New Heroines—in popular culture. The book addresses a wide range of examples primarily from the past two decades, with several chapters focusing on a specific heroic figure in popular culture. In addition, the author offers a comparative analysis between the New Woman figure from the late 19th and early 20th century and the New Heroine in the 21st century. Readers will understand how representations of teenage girls in fiction and nonfiction are positioned as heroic because of their ability to find out about themselves by connecting with other people, their environment, and technology.

The Criminal Brain, Second Edition Nicole Rafter, Chad Posick, Michael Rocque, 2016-08-30 A lively, up-to-date overview of the newest research in biosocial criminology. What is the relationship between criminality and biology? Nineteenth-century phrenologists insisted that criminality was innate, inherent in the offender's brain matter. While they were eventually repudiated as pseudo-scientists, today the pendulum has swung back. Both criminologists and biologists have begun to speak of a tantalizing but disturbing possibility: that criminality may be inherited as a set of genetic deficits that place one at risk to commit theft, violence, or acts of sexual deviance. But what do these new theories really assert? Are they as dangerous as their forerunners, which the Nazis and other eugenicists used to sterilize, incarcerate, and even execute thousands of supposed "born" criminals? How can we prepare for a future in which leaders may propose crime-control programs based on biology? In this second edition of *The Criminal Brain*, Nicole Rafter, Chad Posick, and Michael

Rocque describe early biological theories of crime and provide a lively, up-to-date overview of the newest research in biosocial criminology. New chapters introduce the theories of the latter part of the 20th century; apply and critically assess current biosocial and evolutionary theories, the developments in neuro-imaging, and recent progressions in fields such as epigenetics; and finally, provide a vision for the future of criminology and crime policy from a biosocial perspective. The book is a careful, critical examination of each research approach and conclusion. Both compiling and analyzing the body of scholarship devoted to understanding the criminal brain, this volume serves as a condensed, accessible, and contemporary exploration of biological theories of crime and their everyday relevance.

**A Guide to Bioethics** Emmanuel A. Kornyo, 2017-09-13 Solving intractable biotechnological questions of evolution, medicine, and genetics is now easier due to methods permitting the rapid analysis of molecular sequence data. These advances have exposed ethical and policy concerns. How would genomic information be used and by whom? Should individuals be able to make decisions regarding their own genomic data? How accurate are these genetic tests and how should they be regulated? These and other ethical conundrums are the subject of this book. Bioethicists, biomedical policy experts and lawyers, physicians, nursing and allied health students as well as science educators will find this book helpful and engaging in exploring the complexities of modern evolutionary, genetic and biomedical data.

*Transnational Asian Identities in Pan-Pacific Cinemas* Philippa Gates, Lisa Funnell, 2012-03-12 This collection examines the exchange of Asian identities taking place at the levels of both film production and film reception

amongst pan-Pacific cinemas. The authors consider, on the one hand, texts that exhibit what Mette Hjort refers to as, marked transnationality, and on the other, the polysemic nature of transnational film texts by examining the release and reception of these films. The topics explored in this collection include the innovation of Hollywood generic formulas into 1950's and 1960's Hong Kong and Japanese films; the examination of Thai and Japanese raced and gendered identity in Asian and American films; the reception of Hollywood films in pre-1949 China and millennial Japan; the production and performance of Asian adoptee identity and subjectivity; the political implications and interpretations of migrating Chinese female stars; and the production and reception of pan-Pacific co-productions. .

**Federal Regulatory Directory** CQ Press,2013-11-04

The Federal Regulatory Directory, Sixteenth Edition continues to offer a clear path through the maze of complex federal agencies and regulations, providing to-the-point analysis of regulations. Information-packed profiles of more than 100 federal agencies and departments detail the history, structure, purpose, actions, and key contacts for every regulatory agency in the U.S. government. Now updated with an improved searching structure, the Federal Regulatory Directory continues to be the leading reference for understanding federal regulations, providing a richer, more targeted exploration than is possible by cobbling together electronic and print sources.

*Families, Young People, Physical Activity and Health*

Symeon Dagkas,Lisette Burrows,2016-05-05 The family is an important site for the transmission of knowledge and cultural values. Amidst claims that young people are failing to follow health advice, dropping out of sport and at risk of an ever-expanding list of lifestyle diseases, families have become the target of government interventions. This book

is the first to offer critical sociological perspectives on how families do and do not function as a pedagogical site for health education, sport and physical activity practices. This book focuses on the importance of families as sites of pedagogical work across a range of cultural and geographical contexts. It explores the relationships between families, education, health, physical activity and sport, and also offers reflections on the methodological and ethical issues arising from this research. Its chapters discuss key questions such as: how active living messages are taken up in families; how parents perceive the role of education, physical activity and sport; how culture, gender, religion and social class shape engagement in sport; how family pedagogies may influence health education, sport and physical activity now and in the future. This book is essential reading for anyone with an interest in health, physical education, health education, family studies, sport pedagogy or the sociology of sport and exercise.

**Dinner with DiMaggio** Rock Positano, John Positano, 2017-05-09 A revealing account of the great Baseball Hall of Famer Joe DiMaggio from the man who knew him best in the last ten years of his life—"a rare, intimate portrait...that pries open Joltin' Joe's perpetually buttoned-up privacy" (The New York Times) with stories about the Yankees, Ted Williams, Lou Gehrig, Marilyn Monroe, Frank Sinatra, and other celebrities. In 1990, Dr. Rock Positano, a thirty-two-year-old foot and ankle specialist, met Joe DiMaggio. Despite the forty years between them, an unlikely friendship developed after the doctor successfully treated the baseball champ's heel spur injury. Joe mentored Rock but came to rely on his young friend to show him a good time in New York, the town that made him a legend. In time, the famously reserved DiMaggio opened up to Dr. Positano and talked about his

joys, his disappointments, and his sorrows as he reflected on his extraordinary life. The stories and experiences he shared with Dr. Positano comprise an intimate portrait of one of the great stars of baseball and icon of the twentieth century. “Readers do not have to be baseball fans to be captivated by this memoir, which explores such universal themes as friendship, celebrity, aging, and mortality” (Library Journal, starred review). DiMaggio was a complicated figure—sometimes demanding, sometimes big-hearted, always impeccable, loyal, and a true stand-up guy. This memoir of a decade-long friendship reveals the very private DiMaggio as “a wholly human portrait of an American icon navigating his way through an adoring yet relentlessly demanding public” (Booklist, starred review), while serving up illuminating stories and rare insights about the people in his life, including his teammates, Muhammad Ali, Sandy Koufax, Woody Allen, and many more.

Fighting Invisibility Monica Mong Trieu, 2023-03-17 In *Fighting Invisibility*, Monica Mong Trieu argues that we must consider the role of physical and symbolic space to fully understand the nuances of Asian American racialization. By doing this, we face questions such as, historically, who has represented Asian America? Who gets to represent Asian America? This book shifts the primary focus to Midwest Asian America to disrupt—and expand beyond—the existing privileged narratives in United States and Asian American history. Drawing from in-depth interviews, census data, and cultural productions from Asian Americans in Ohio, Wisconsin, Nebraska, Minnesota, Illinois, Iowa, Indiana, and Michigan, this interdisciplinary research examines how post-1950s Midwest Asian Americans navigate identity and belonging, racism, educational settings, resources within co-ethnic communities, and pan-ethnic cultural community. Their experiences and life narratives are heavily framed by

three pervasive themes of spatially defined isolation, invisibility, and racialized visibility. *Fighting Invisibility* makes an important contribution to racialization literature, while also highlighting the necessity to further expand the scope of Asian American history-telling and knowledge production.

### Gender in the Music Industry Marion

Leonard, 2017-10-03 Why, despite the number of high profile female rock musicians, does rock continue to be understood as masculine? Why is rock generally assumed to be created and performed by men? Marion Leonard explores different representations of masculinity offered by, and performed through, rock music, and examines how female rock performers negotiate this gendering of rock as masculine. A major concern of the book is not specifically with men or with women performing rock, but with how notions of gender affect the everyday experiences of all rock musicians within the context of the music industry. Leonard addresses core issues relating to gender, rock and the music industry through a case study of 'female-centred' bands from the UK and US performing so called 'indie rock' from the 1990s to the present day. Using original interview material with both amateur and internationally renowned musicians, the book further addresses the fact that the voices of musicians have often been absent from music industry studies. Leonard's central aim is to progress from feminist scholarship that has documented and explored the experience of female musicians, to presenting an analytic discussion of gender and the music industry. In this way, the book engages directly with a number of under-researched areas: the impact of gender on the everyday life of performing musicians; gendered attitudes in music journalism, promotion and production; the responses and strategies developed by female performers; the feminist

network riot grrrl and the succession of international festivals it inspired under the name of Ladyfest.

*Genetic Testing and the Governance of Risk in the Contemporary Economy* Lara Khoury, Adelle Blackett, Lukas Vanhonnaeker, 2020-10-01 This book addresses emerging questions concerning who should bear responsibility for shouldering risk, as well as the viability of existing and experimental governance mechanisms in connection with new technologies. Scholars from 14 jurisdictions unite their efforts in this edited collection to provide a comparative analysis of how various legal systems are tackling the challenges produced by the legal aspects of genetic testing in insurance and employment. They cover the diverse set of norms that surround this issue, and share insights into relevant international, regional and national incursions into the field. By doing so, the authors offer a basis for comparative reflection, including on whether transnational standard setting might be useful or necessary for the legal aspects of genetic testing as they relate to the insurance and employment contexts. The respective texts cover a broad range of topics, including the prevalence of genetic testing in the contexts of insurance and employment, and policy factors that might affect this prevalence, such as the design of national health or social insurance systems, of private insurance schemes or the availability of low-cost direct-to-consumer genetic testing. Further, the field of genetics is gaining in importance at the international and regional levels. Relevant concepts – mainly genetic tests and genetic data/information – have been internationally defined, and these definitions have influenced definitions adopted nationally. International law also recognizes a “special status” for human genetic data. The authors therefore also consider these definitions and the recognition of the special status of human genetic data within regional

and national legal orders. They investigate the range of norms that specifically address the use of genetic testing in employment and insurance, encompassing international sources – including human rights norms – that may be binding or non-binding, as well national statutory, regulatory and soft-law mechanisms. Accordingly, some of the texts examine general frameworks relevant to genetic testing in each country, including those that stem from general anti-discrimination rules and norms protecting rights to autonomy, self-determination, confidentiality and privacy. In closing, the authors provide an overview of the efficiency of their respective legal regimes' approaches – specific and generalist – to genetic testing or disclosure of genetic information in the employment or insurance contexts, including the effect of lack of legal guidance. In this regard, some of the authors highlight the need for transnational action in the field and make recommendation for future legal developments.

Television Movies of the 21st Century Vincent Terrace, 2021-04-23 For the major broadcast networks, the heyday of made-for-TV movies was 20th Century programming like The ABC Movie of the Week and NBC Sunday Night at the Movies. But with changing economic times and the race for ratings, the networks gradually dropped made-for-TV movies while basic cable embraced the format, especially the Hallmark Channel (with its numerous Christmas-themed movies) and the Syfy Channel (with its array of shark attack movies and other things that go bump in the night). From the waning days of the broadcast networks to the influx of basic cable TV movies, this encyclopedia covers 1,370 films produced during the period 2000-2020. For each film entry, the reader is presented with an informative storyline, cast and character lists, technical credits (producer, director, writer), air dates,

and networks. It covers the networks (ABC, CBS, Fox, Ion, and NBC) and such basic cable channels as ABC Family, Disney, Fox Family, Freeform, Hallmark, INSP, Lifetime, Nickelodeon, Syfy, TBS and TNT. There is also an appendix of Announced but Never Produced TV movies and a performer's index.

War and Peace in the Taiwan Strait Scott L.

Kastner, 2022-11-01 As tensions continue to rise between the People's Republic of China and Taiwan, numerous analysts and officials have warned of a growing risk of military conflict, which could potentially draw in the United States. How worried should we be about a war in the Taiwan Strait? Scott L. Kastner offers a comprehensive analytical account of PRC-Taiwan relations that sheds new light on the prospects for cross-strait military conflict. He examines several key regional trends that have complex implications for stability, including deepening economic integration, the shifting balance of military power, uncertainty about the future of U.S. commitment, and domestic political changes in both the PRC and Taiwan. Kastner argues that the risks of conflict are real but should not be exaggerated. Several distinct pathways could lead to the breakout of hostilities, and the mechanisms that might allay one type of conflict do not necessarily apply to others—yet war is anything but inevitable. Although changes to the balance of power introduce risks, powerful mitigating factors remain in place and there are plausible steps to reduce the likelihood of military conflict. Drawing on both international relations theory and close empirical analysis of regional trends, this book provides vital perspective on how a war in the Taiwan Strait could occur—and how one could be avoided.

Supporting Queer Birth AJ Silver, 2022-04-21 Bringing together the stories and experiences of LGBT+ parents as well as professionals in the field, this guide explains what

healthcare and birth workers can do to improve care for their clients. It broadens the ability to understand those who birth and parent beyond the heteronormative and cisgender binary. Covering topics such as LGBT+ and neurodiversity, surrogacy and lactation, as well as including interviews from Jake Graf, Freddy McConnell and Sabia Wade, AJ Silver brings to light the failures of the maternity system for LGBT+ parents and discusses how these mistakes can be avoided. A compelling, educational, and motivational book, *Supporting Queer Birth* is essential reading for birth workers and healthcare professionals.
