Ecology of the Marine Fishes of Cuba Rodolfo Claro,Kenyon C. Lindeman,Lynne R. Parenti,2014-06-17 Situated at the convergence of the Atlantic Ocean, the Caribbean Sea, and the Gulf of Mexico, Cuba's coastal waters are home to one of the most diverse fish faunas in the Western Hemisphere. However, until now, information in English about Cuban marine fishes and their habitats has been limited. This comprehensive guide to the region's fishes fills that void. Originally published in Spanish in 1994, *Ecology of the Marine Fishes of Cuba* has been completely updated and revised for this English edition. The book collects and expands on the findings of more than 20 years of work by and international team of ichthyologists and marine biologists studying the coastal fishes and habitats of Cuba. In chapters arranged topically, the thirteen contributors detail the physical characteristics of the Cuban coast; document the physiology, behavior, reproduction, feeding patterns, and growth patterns of the region's fishes; and survey Cuba's fisheries management programs. The result is an unparalleled integration of English- and Spanish-language references on coastal fishes of the western Atlantic, complete with a comprehensive bibliography that constitutes a valuable reference in its own right. The extensive information presented here establishes an important foundation for comparisons of regional biological variations and demonstrates the need for proactive habitat and fishery management policies in the area.

The Quartered Sea Tanya Huff,2015-11-03 Fourth in the epic fantasy series from the author of No Quarter: “Good reading in the same vein as [Mercedes] Lackey’s The Last Herald-Mage series” (Locus). Benedikt can control the element of water through music, but water is the only element Benedikt can sing, which isolates him from his fellow bards. When the queen of Shkoder outfits a voyage to discover the lands across the sea against the Bardic captain’s objections, Benedikt is the only bard willing to brave the captain’s wrath and volunteer. In uncharted waters, a storm strikes and the high of the deep seas rises. All of Benedikt’s skill is unable to save ship or crew. Shipwrecked in an unfamiliar country and unable to send word to Shkoder of the ship’s fate, Benedikt must play the part he’s been given: a pawn in the game of politics and religion between brother and sister—who both intend to use his song to their advantage. As the queen waits for word, the high of the deep seas rises again . . . Praise for the Quarters series “I love the way Huff writes. She creates rich, complex fantasy worlds, populates them with likeable characters, includes lots of humor and action, bright, lively dialogue, and in this case, an ‘all’s well that ends well’ ending that is perfect. Unputdownable.” –Voya “A richly complex story set in a magical world that could almost be a part of our own history.” –Science Fiction Chronicle “This isn’t fluff, and it isn’t light—but it has so much heart to leaven its dark moments.” –The Magazine of Fantasy and Science Fiction

Frida se Confiesa Rev. Rubén García Badillo,2012-02-22 Las dos Fridas: Dos pensamientos, dos personalidades, dos vidas encierran la existencia de Frida Kahlo, hoy por hoy la mujer más famosa del mundo. El primer pensamiento lo realiza Dios: ¡ Que mi Hijo Amado sea la Luz y El Creador del Universo! Obediente el Hijo, crea el tiempo y el espacio, y dentro de ésto, el cosmos. Mediante el Big Bang, parte el cosmos en dos universos paralelos. Desde el Big Bang, crea a varios personajes que colaborarán en la Obra de La Creación: El padre Rubén García Badillo, Frida Kahlo Calderón, Miguel Ángel Buonarroti, Leonardo Da Vinci, Nefertiti y Akhenatón, Albert Einstein, Juan Pablo II y Barack Obama... El segundo pensamiento se elabora en 1910, cuando la mamá de la niña Fisita (Frida) le dice enojada: “Frida, estás endemoniada, tienes un demonio adentro”. Frida a esa edad elaboró en su cerebro unos dibujos, que se van a mostrar en este libro. Se crea un pensamiento que desarrolla una posesión demoniaca en Frida, y que la va a llevar a sufrir como ninguna mujer ha sufrido. Al final se cumplen las profecías dibujadas por Frida en varios dibujos que realiza. Esto es lo que se muestra en este libro: el camino de Frida de una posea a una santa, todo dibujado por manos de la propia Frida Kahlo.

Amor romántico y muerte voluntaria Abraham Godínez Aldrete,2020-12-16 Este libro es una investigación que utiliza el método psicoanalítico de caso para indagar las relaciones entre amor y muerte en el romanticismo. Abraham Godínez toma el caso de Manuel Acuña para hacer una fábrica de caso y así poder aclarar la relación que hay entre el suicidio y el amor puro. Al cuestionar la interpretación romántica de la muerte de Manuel Acuña que se ha hecho popular gracias al poema el Nocturno dedicado a Rosario de la Peña, se crean nuevas interpretaciones de la obra del poeta y se comprende mejor el acto de morir por voluntad propia. Después de leer un ensayo que difundía avances preliminares de esta obra, José Emilio Pacheco -en una comunicación personal mediante un correo electrónico- escribió:Me gustó mucho el ensayo sobre Acuña. Usted dirá que es un texto psicoanalítico y sin duda lo es pero también me resulta un ejemplo excelente de crítica literaria: da interés a lo que antes no interesaba y hace ver lo que no había visto. José Emilio Pacheco, 26 de enero de 2009
