Harry's Revenge: Evil Came to Portland in a Fast Car Anthony Holt, 2017-12-21 Harry is out walking his dog when he is set upon by a drug-fuelled gang of well-connected young men and women, who are seeking greater kicks and thrills than they can achieve from booze, drugs, sex and fast cars. Harry should have died but he didn't. As he gradually recovers he develops a thirst for revenge, but by the time he is able to implement his plans, a dedicated local senior police officer has taken up the challenge of tracking and bringing to justice the men and women responsible. As Harry begins his revenge the police investigation is running in parallel, but neither side knows of the other's activities. Harry is an ordinary man who is forced to meet and deal with evil.

Assassin of Youth Alexandra Chasin, 2016-09-30 Assassin of Youth is a lyrical, digressive, funny, and ultimately riveting quasi-biography of a little known man: Harry J. Anslinger, the first commissioner of the Federal Bureau of Narcotics. The J. Edgar Hoover of pot busts, Anslinger played a major role in the creation of America's prohibitionist drug policy and the racist and ineffective carceral state that resulted. But Anslinger himself was dull, ordinary, a square. How then does Alexandra Chasin write his biography? Her treatment of Anslinger, his times, and the mentalities that arose and prevailed around and through him is part cultural history, part lyrical meditation, and only part biography. Each of her short chapters is anchored in a historical document a piece of legislation, a court decision, snatches of popular literature and the chapters engage with the voices, presumptions, insights, and blind spots of those documents to illuminate Anslinger and his world. Assassin of Youth is as riotous and loose a history of drug laws as can be imagined and yet, it is rooted in very close attention to language and context. Today, even as marijuana is slowly being legalized, we have not yet fully reckoned with the haze of influences and mentalities that have enabled our long embrace of severe punishments for drug possession and use. Alexandra Chasin here shows us the deep, twisted roots of our love and hatred of drugs of all sorts.

Hot Wheels Classic Redline Era Angelo Von Bogart, 2009-08-31 Combining candy-colored paint jobs with muscle car attitudes and southern California coo, Hot Wheels cars changed the toy world forever in 1968. For the next 10 years as millions of kids discovered the joy of these miniature marvels, one small characteristic came to define this radical die-cast era: the thin red line on the cars tires. Hot Wheels Classics: The Redline Era proudly showcases more than 500 spectacular color photos (so come of the finest cars of this groundbreaking time.) Sprinkled throughout the visual and historical feast, you'll enjoy the commentary from legendary car designer Larry Wood and other Mattel designers. More than 40 years of introduction, Hot Wheels cars have experienced a multitude of changes, incredible success, trials and tribulations, and ultimately crafted one of the greatest American toy stories of all time. Yet is one single feature from decades past that skill defines for many their greatest: the Redline.

The Complete Outdoors Encyclopedia Vin T. Sparano, 1998-08-15 A 2013 Amazon Breakthrough Novel Award Quarter-Finalist. The Paranormal Romance Guild say - Georgiana Derwent has managed to merge the world of Oxford University, with its rich history and very British traditions with a totally entertaining and plausible vampire story. This is going to be a favourite series. A Tale of the Posh, the Privileged and the Paranormal... The Cavaliers are the most elite society at Oxford University - rich, powerful, and beautiful. No one realises that they are no ordinary students, but a group of aristocratic vampires from the English Civil War. For four hundred years they have groomed the most promising students to run the government, police, and finance in the way the vampires wish, granting them eternal life in return for absolute obedience. When Harriet French arrives at Oxford University from her working class northern state school, she's prepared for a culture shock, but not to become embroiled in the Cavaliers' scheming and bloodlust. Harriet thought she'd be busy enough juggling her demanding tutor, new friends, and the murky world of student politics. But now, she must find the rebel vampire who is killing off the members, stop the Cavaliers from orchestrating a massacre of the year's most beautiful and successful students, and defy the Society to be with the man of her dreams. Oxford Blood is a British, adult, paranormal romance. It's a tale with vampires that aren't afraid to kill and a heroine who's not afraid of sex or her own ambition. ABOUT THE AUTHOR Georgiana Derwent read History at Oxford University. Aside from the vampires, The Cavaliers Series is an exaggerated but fairly accurate portrayal of her time there. She now works in London and lives with her fiancé. He's been very supportive throughout the writing of her books, mainly because he likes to claim that all the most attractive characters are based on him. Georgiana fell in love with vampire novels after reading The Vampire Diaries back in 2000. At the time it was a struggle to find any similar paranormal romances, a situation that it's fair to say seems to have been rectified in the last few years. She now loves paranormal series such as True Blood, fantasy novels, and modern literary works in roughly equal measure. Ever since her teens, she wanted to write a vampire series. Ever since going to Oxford she wanted to write a book about her experiences there. During a dull few months between finishing university and starting her graduate job, she had the idea of combining the two and The Cavaliers Series was born.

Oceanographic History Keith Rodney Benson, Philip F. Rehbock, 2002 From a study of knowledge of the sea among indigenous cultures in the South Seas to inquiries into the subject of sea monsters, from studies of Pacific currents to descriptions of ocean-going research vessels, the sixty-three essays presented here reflect the scientific complexity and richness of social relationships that characterize oceanographic history. Based on papers presented at the Fifth International Congress on the History of Oceanography held at the Scripps Institution of Oceanography (the first ICHO meeting following the cessation of the Cold War), the volume features an unusual breadth of contributions. Oceanography itself involves the full spectrum of physical, biological, and earth sciences in their formal, empirical, and applied manifestations. The contributors to Oceanographic History: The Pacific and Beyond undertake the interdisciplinary task of telling the story of oceanography's past, drawing on diverse methodologies. Their essays explore the concepts, techniques, and technologies of oceanography, as well

as the social, economic, and institutional determinants of oceanographic history. Although focused on the Pacific, the geographic range of subjects is global and includes Micronesia, East Africa, and Antarctica; the bathymetric range comprises inshore fisheries, coral reefs, and the azoic zone. The seventy-one contributors represent every continent of the globe except Antarctica, bringing together material on the history of oceanography never before published.

CUT LOOSE Nan Bauer-Maglin, 2006-06-14 Although breakups—whether celebrity or everyday—are a constant source of fascination, surprisingly little attention has been given to women who are cut loose in their later years. This is a book about (mostly) long-term relationships that have come apart. Each woman involved, the majority of whom are over sixty, tells of her experience through journal entries, essays, poetry, or stories. Although in many senses they have been abandoned, they have also been set free, untethered, and, for some, liberated sexually, mentally, or emotionally. The book is divided into two major sections. The pieces in the first part are personal narratives. Among the varied voices, we hear from women in both heterosexual and same-sex relationships who have been left by their partners or who have decided to leave them. In the second section, the contributors look at being left and leaving from psychological, sociological, economic, sexual, medical, anthropological, and literary perspectives. Other essays explore the shared experiences of specific classes of women, such as single women, widows, or abandoned daughters.

Harry's Absence Jonathan Scott, 2014-06-10 A “moving memoir of son in search of his father,” recounting the life of a psychologist and pacifist who died climbing New Zealand’s highest peak (Publishers Weekly). On February 1, 1960, Harry Scott, conscientious objector, psychologist, and mountaineer, was killed while climbing Mt. Cook. Thirty-five years later, his son set out to look for him. Funny, moving, and beautifully written, this is the story of a father's absence, told partly through the rich and exciting mix of biography, autobiography, and intellectual and social history. HARRY'S ABSENCE is a passionately argued book about New Zealand, addressing the distinction between nationalism and love of country. Finally, it is a recovery, from death, of reasons for living.

Barracuda Michael Aye, 2008-08-03 Admiral Lord Gilbert Anthony and his brother Lieutenant Gabriel Anthony, fighting for the Crown during the American Revolution, find adventure, daring privateers, and a ghost ship. The ghost ship Barracuda plies the waters off the coast of Saint Augustine in 1777. The Barracuda takes no prize and leaves no one alive. Tracking down the Barracuda is only one of the many challenges and battles the brothers face when assigned to protect Florida loyalists. Facing the privateers, who know the surrounding inlets and rivers, affords a series of dangerous missions for the crew and costs them many men and a few good ships. As the war takes its toll, Gil yearns to return to England, while Gabe steals the hearts of local women. For an author bio, photo, and a sample read visit www.bosonbooks.com.

Original Challenger and Barracuda 1970-1974 Jim Schild James J. Schild, Renowned for their sleek shapes and

prodigiously powerful engines, the Chrysler corporation's Challenger and Barracuda were among the top cars of the muscle car era. This book will demonstrate the correct parts, finishes, options, and trim pieces for all the versions of the E-body Dodge Challenger and Plymouth Barracuda, which appeared from 1970 to 1974. Especially important to this are the variety of engine options available, including the hemispherical-head engines-Hemis-that are so crucial to the mystique of these muscle cars.

Drag Racing's Rebels Doug Boyce,2023-11-15 Learn the entire fascinating story of the American Hot Rod Association (AHRA) in this wonderfully illustrated color history. When the National Hot Rod Association (NHRA) was formed in 1951 by Wally Parks, the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing. Some organization was certainly necessary. A postwar boom in automotive enthusiasm was reaching new heights, and Hot Rod magazine and the NHRA were right in the thick of it. The NHRA hosted its first drag racing event in 1953, and in 1955, the organization staged its first national event, which was simply called The Nationals. The AHRA formed in 1956 as an alternative to the NHRA, where the drivers voted on the rules (rather than sanctioning bodies and tracks), and their influence on the sport was felt almost immediately. When the NHRA denied the use of nitromethane in 1957, the AHRA approved it. When the NHRA banned aircraft-powered dragsters in 1961, the AHRA welcomed them. When the NHRA said no to the emerging Funny Car in 1965, the AHRA said yes. When fans and racers screamed for a heads-up Super Stock category in 1968, the AHRA delivered. The AHRA was called a rebel association. Some say that it was more of an association that got things done-to the delight of fans and racers. The AHRA was on equal ground with the NHRA by the 1970s, drawing enormous crowds and racer entries.

In this fascinating history, veteran author Doug Boyce tells the story of the AHRA, the rise, the competition, the events, and the eventual downfall of the organization. After AHRA President Jim Tice passed away in 1982, internal fighting for control of the association resulted in its doom. Get the whole story here, and add this wonderful volume to your drag racing library.

The Rejection of Continental Drift Naomi Oreskes,1999-04-01 In the early twentieth century, American earth scientists were united in their opposition to the new--and highly radical--notion of continental drift, even going so far as to label the theory unscientific. Some fifty years later, however, continental drift was heralded as a major scientific breakthrough and today it is accepted as scientific fact. Why did American geologists reject so adamantly an idea that is now considered a cornerstone of the discipline? And why were their European colleagues receptive to it so much earlier? This book, based on extensive archival research on three continents, provides important new answers while giving the first detailed account of the American geological community in the first half of the century. Challenging previous historical work on this episode, Naomi Oreskes shows that continental drift was not rejected for the lack of a causal mechanism, but because it seemed to conflict with the basic

standards of practice in American geology. This account provides a compelling look at how scientific ideas are made and unmade.

20 Fun Facts About Barracudas Heather Moore Niver, 2012-08-01 The barracuda is a long, slender fish that swims with power and grace. However, it's also strong and aggressive. Barracudas use two sets of razor-sharp teeth to catch prey and tear them to pieces. Although they usually feed on smaller fish, barracudas fearsome teeth allow them to chop larger fish in half. The fun, informative text in this book is paired with stunning photographs to give readers a unique perspective of these frightening fish.

Dying Declaration Randy Singer, 2010-10-13 Thomas and Theresa Hammonds believe in tough love and old-fashioned discipline. They do not believe in doctors. When their controversial beliefs lead to personal tragedy, the Hammonds face heartbreaking loss, a crisis of faith—and a charge of negligent homicide by a relentless prosecutor. Defending Thomas and Theresa is freewheeling lawyer Charles Arnold. He believes in grace and mercy, but nothing in his colorful past has prepared him for the challenges of this shocking case, or for the dangerous conspiracy at its heart.

Henry's Law Ayme Butavia, 2009-07 WHEN THE SERIAL KILLER IS THE GOOD GUY, EVIL DOESN'T STAND A CHANCE... The Honorable Judge Harry Shem has survived what many did not. As a frightened and traumatized ten-year-old boy imprisoned in a Holocaust concentration camp, he was faced with either a gruesome death or an invitation to become a Kapo, surgeon, and murderer. He chose the latter. Now forty years later, entrusted with sentencing New York City's most heinous criminals to their deserved fates, Harry is motivated by the sheer goal of being granted asylum into one of the Old Testament's Cities of Refuge. After arming himself with his previously learned surgical skills and the ever guiding light of the Torah, he ceremonially performs organ transplant surgery on the condemned in the privacy of his very own prison. When Shem's prisoners begin disappearing without a trace, he attempts to remain camouflaged. Unfortunately, the clarity he has enjoyed for many years is clouded by one man who moves in across the street Da Commandant. In order for Harry's mind to confront his past and protect his present, he must come to terms with the very obstacle that has thus far controlled his life and presently threatens his very existence guilt.
