Willow Sieve Chronicles-Eavesdropping from the Wilderness Blaine Greer,2016-07-05 Universally generations have been captivated by Mississippi River Legends and mystique, however no one can truly know the great river unless they clutch a paddle for 2,300 miles or read Willow Sieve Chronicles. One can read Twain and everything written since or perhaps take an expensive excursion on Delta Queen, however, one will never come to know the sight, sound, smell, taste and touch of the Mighty Muddy unless they climb aboard the battered, borrowed, open aluminum canoe christened Will

**Re-Constructing Grassroots Holocaust Memory** Irina Rebrova,2020-10-26 The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time. It aims to find out how such individual initiatives correspond to the official Russian hero-orientated concept of remembering the Second World war with almost no attention to the memory of war victims, including Holocaust victims. North Caucasus became the last address of thousands of Soviet Jews, both evacuees and locals. While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period, local activists and historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites, writing novels and making documentaries, teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums. Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book.

*The Structure of Modernist Poetry (Routledge Revivals)* Theo Hermans, 2014-08-01 First published in 1982, this book provides a descriptive and comparative study of some of the fundamental structural aspects of modernist poetic writing in English, French and German in the first decades of the twentieth century. The work concerns itself primarily with basic structural elements and techniques and the assumptions that underlie and determine the modernist mode of poetic writing. Particular attention is paid to the theories developed by authors and to the essential 'principles of construction' that shape the structure of their poetry. Considering the work of a number of modernist poets, Theo Hermans argues that the various widely divergent forms and manifestations of modernistic poetry writing can only be properly understood as part of one general trend.
