📖 📖 📖 📖1987 📖

**Chinese Maritime Cases** Martin Davies,Jiang Lin,2021-09-03 This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities, foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in order to deal with their own cases properly or, if possible, predict the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.

Landfalling tropical cyclones: physical processes, forecasting and impacts Yihong Duan,Qingqing Li,Guanghua Chen,Hui Yu,Da-Lin Zhang,Kun Zhao,2022-12-29

**Monks, Rulers, and Literati : The Political Ascendancy of Chan Buddhism** Asian Religions University of Winnipeg Albert Welter Professor,2006-01-11 The Chan (Zen in Japanese) school began when, in seventh-century China, a small religious community gathered around a Buddhist monk named Hongren. Over the centuries, Chan Buddhism grew from an obscure movement to an officially recognized and eventually dominant form of Buddhism in China and throughout East Asia. It has reached international popularity, its teachings disseminated across cultures far and wide. In Monks, Rulers, and Literati, Albert Welter presents, for the first time in a comprehensive fashion in a Western work, the story of the rise of Chan, a story which has been obscured by myths about Zen. Zen apologists in the twentieth century, Welter argues, sold the world on the story of Zen as a transcendental spiritualism untainted by political and institutional involvements. In fact, Welter shows that the opposite is true: relationships between Chan monks and political rulers were crucial to Chan's success. The book concentrates on an important but neglected period of Chan history, the 10th and 11th centuries, when monks and rulers created the so-called Chan golden age and the classic principles of Chan identity. Placing Chan's ascendancy into historical context, Welter analyzes the social and political factors that facilitated Chan's success as a movement. He then examines how this success was represented in the Chan narrative and the aims of those who shaped it. Monks, Rulers, and Literati recovers a critical period of Zen's past, deepening our understanding of how the movement came to flourish. Welter's groundbreaking work is not only the most comprehensive history of the dominant strand of East Asian Buddhism, but also an important corrective to many of the stereotypes about Zen.

The Rough Guide to China David Leffman,Rough Guides,2008-05-05 The Rough Guide to China is the definitive guidebook to one of the world's most fascinating and rapidly changing travel destinations.
