The Case for Marriage Linda Waite, Maggie Gallagher, 2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

The Missing Ink Philip Hensher, 2013-10 When Philip Hensher realized that he didn't know what a close friend's handwriting looked like, he felt that something essential was missing from their friendship. But does it really matter that typing and texting have largely taken the place of passionate love letters, secret diary entries and postcards home? From the crucial role of handwriting in a child's development, to the novels of Dickens and Proust - and whether a person's writing really reveals their true personality - *The Missing Ink* goes in search of the stories and characters that have shaped our handwriting, and how it in turn has shaped us.

The Cinema of the Precariat Thomas Zaniello, 2020-02-20 *The Cinema of the Precariat* is the first book to lay out the incredible range of the precariat (the social class suffering from precarity) as well as a detailed report on the cinematic record of their work and lives. It discusses a thorough and definitive selection of more than 250 films and related visual media that take the measure of the precariat worldwide. For example, thousands of Haitians, including children, harvest sugar cane in the Dominican Republic (*The Price of Sugar*), while illegal Afghan refugees work in Iran (*Delbaran*). More familiar are the millions of Latino immigrants, legal or not, of all ages, that work in the United States (*Food Chains*). Each chapter focuses on a sub-class of the precariat or a contested zone of labor or the evolving political manifestation of the struggles of the unorganized and the dispossessed. Among the hundreds of bewildering film choices available nowadays this book offers the reader reliable guidance to the films bringing to life the economic, political, and social dilemmas faced by millions of the world's global workforce and their families.

Report of the Treasurer for the Year Ended December 31, 2014 National Academy of Sciences,2015-07-03 The income that supports the activities of the National Academy of Sciences (NAS) comes from two major sources: program revenue received from sponsors to pay for the myriad studies and other activities undertaken each year by the National Academies of Sciences, Engineering, and Medicine, and a much smaller sum that is obtained from our endowment under the endowment spending policies adopted by the Council. The goal of the endowment is to provide stable support for the Academy's programs and activities. To achieve this goal, the Council, acting on the

recommendations of the Finance Committee, has historically authorized spending from the portfolio at a rate designed to maintain the purchasing power of the endowment over time. This Report of the Treasury of the National Academy of Sciences presents the financial position and results of operations as well as a review of the endowment, trust, and other long-term investments portfolio activities of our Academy for the year ended December 31, 2014. While this book provides essential financial summary to key personnel, it also serves as a vital informative resource for various members of the public, private, and governmental sectors.

The Wounds that Heal Judith A. Schwartz,Richard B. Octavia's Brood Walidah Imarisha,adrienne maree brown,2015-03-23 Whenever we envision a world without war, without prisons, without capitalism, we are producing speculative fiction.

Organizers and activists envision, and try to create, such worlds all the time. Walidah Imarisha and adrienne maree brown have brought twenty of them together in the first anthology of short stories to explore the connections between radical speculative fiction and movements for social change. The visionary tales of Octavia's Brood span genres—sci-fi, fantasy, horror, magical realism—but all are united by an attempt to inject a healthy dose of imagination and innovation into our political practice and to try on new ways of understanding ourselves, the world around us, and all the selves and worlds that could be. The collection is rounded off with essays by Tananarive Due and Mumia Abu-Jamal, and a preface by Sheree Renée Thomas. PRAISE FOR OCTAVIA'S BROOD: Those concerned with justice and liberation must always persuade the mass of people that a better world is possible. Our job begins with speculative fictions that fire society's imagination and its desire for change. In adrienne maree brown and Walidah Imarisha's visionary conception, and by its activist-artists' often stunning acts of creative inception, Octavia's Brood makes for great thinking and damn good reading. The rest will be up to us. —Jeff Chang, author of *Who We Be: The Colorization of America*

"Conventional exclamatory phrases don't come close to capturing the essence of what we have here in Octavia's Brood. One part sacred text, one part social movement manual, one part diary of our future selves telling us, 'It's going to be okay, keep working, keep loving.' Our radical imaginations are under siege and this text is the rescue mission. It is the new cornerstone of every class I teach on inequality, justice, and social change....This is the text we've been waiting for." —Ruha Benjamin, professor of African American Studies at Princeton University and author of *People's Science: Bodies and Rights on the Stem Cell Frontier*

Octavia once told me that two things worried her about the future of humanity: The tendency to think hierarchically, and the tendency to place ourselves higher on the hierarchy than others. I think she would be humbled beyond words that the fine, thoughtful

writers in this volume have honored her with their hearts and minds. And that in calling for us to consider that hierarchical structure, they are not walking in her shadow, nor standing on her shoulders, but marching at her side. —Steven Barnes, author of *Lion's Blood* “Never has one book so thoroughly realized the dream of its namesake. Octavia's Brood is the progeny of two lovers of Octavia Butler and their belief in her dream that science fiction is for everybody.... Butler could not wish for better evidence of her touch changing our literary and living landscapes. Play with these children, read these works, and find the children in you waiting to take root under the stars!” —Moya Bailey and Ayana Jamieson, Octavia E. Butler Legacy “Like [Octavia] Butler's fiction, this collection is cartography, a map to freedom.” —dream hampton, filmmaker and Visiting Artist at Stanford University's Institute for Diversity in the Arts Walidah Imarisha is a writer, organizer, educator, and spoken word artist. She is the author of the poetry collection *Scars/Stars* and facilitates writing workshops at schools, community centers, youth detention facilities, and women's prisons. adrienne maree brown is a 2013 Kresge Literary Arts Fellow writing science fiction in Detroit, Michigan. She received a 2013 Detroit Knight Arts Challenge Award to run a series of Octavia Butler-based writing workshops.
