Special Forces Heroes Michael Ashcroft, 2012-10-25 This ebook edition contains the full text version as per the book. Doesn't include original photographic and illustrated material. This book tells the stories of forty heroes, all awarded bravery medals for their conduct during Special Forces missions over the last 150 years. Often covert hit-and-run operations involving very small numbers of highly skilled men, those who partake in these missions know that their goals involve a high level of risk. They are men who would die for their country, no questions asked. With many incredible stories, particularly from the Second World War, including the Cockleshell Heroes, and other conflicts from the twentieth century, such as the Iranian Embassy siege, this collection of real-life action adventure brings the bravery of Britain's heroes to life. Every medal in Lord Ashcroft's extensive collection tells a story and these are some of the most thrilling.

Oman's Insurgencies J. E. Peterson, 2013-01-02 Oman today is a rapidly modernizing and peaceful country on the fringes of a region in turmoil. It does, however, have a long history of internal strife. In the twentieth century, this strife took the form of two internal conflicts. The Northern Oman or al-Jabal al-Akhdar War of the 1950s was a struggle between the forces of the old tribally based Imamate and the newer Sultanate in the northern part of the country. In the Dhufar War of the 1960s-70s an anti-Sultanate - and later Marxist - front sought secession in the south. J. E. Peterson takes a detailed look at these two wars in the context of insurgency and counter-insurgency warfare. He surveys Oman's transition from a strictly traditional regime controlling only parts of the country to a modern, inclusive state, particularly in terms of security concerns. Peterson analyses the development of the Sultanate's successful responses to security challenges, especially in the creation and evolution of modern armed forces. 'John Peterson provides the nearest we will perhaps ever see of an official history.' David Benest, *The British Army Review* 'Peterson does an excellent job of developing the thesis that victory in these counter-insurgencies resulted from the two factors of establishing political legitimacy by meeting the local demands of the population and military efforts, which succeeded largely through British support.' Calvin H. Allen Jr., *Middle East Journal*

The Mammoth Book of Inside the Elite Forces Nigel Cawthorne, 2012-03-01 The most comprehensive and up-to-date guide to American and British special forces, covering all aspects of their equipment, training and deployment in the Iraq age of warfare. It takes a special kind of person to join the Special Forces and those to pass the stringent entrance requirements are subjected to the most rigorous training. They're trained to be super-fit, taught to survive in the most adverse conditions, and turned into killing machines. This book reveals what makes these men tick, and everything you need to know to become one of them. It covers all the types of training required - for fitness, combat, survival, navigation, communication, infiltration, interrogation, extraction and evasion. And it details the full array of weapons used, from small arms and knives to explosives and air back-up. Also included are full listings of all the units - including the SAS, Green Berets, SBS, Navy SEALs, Delta Force, Army Rangers - and their deployment in present-day conflicts such as Desert Storm, Somalia, Afghanistan, Iraq and anti-terrorist operations.

Deeds of Heroes Matthew Richardson, 2012-05-19 For over 100 years the Distinguished Conduct Medal the DCM—was the second highest medal that could be awarded for gallantry to the other ranks of the British army—in some cases also the RAF and Royal Navy, yet the holders of this major award have rarely been given the recognition they deserve. While the heroic exploits of recipients of the Victoria Cross have been the subject of repeated accounts, DCM holders have largely been ignored in print. But now in this graphic narrative history Matthew Richardson sets the record straight by describing the conspicuous courage of men who have been awarded the DCM in the Crimean and the colonial wars, in the two world

wars, and during recent conflicts in the Falklands and the Gulf. Told often in their own words, their extraordinary stories of bravery and self-sacrifice are the central focus of his book.

Dobu Susanne Kuehling, 2021-09-30 This is an ethnography of Dobu, a Massim society of Papua New Guinea, which has been renowned in social anthropology since Reo Fortune's *Sorcerers of Dobu* (1932). Focusing on exchange and its underlying ethics, this book explores the concept of the person in the Dobu world view. The book examines major aspects of exchange such as labor, mutual support, apologetic gifts, revenge and punishment, kula exchange, and mortuary gifts. It discusses in detail the characteristics of small gifts (such as betel nuts), big gifts (kula valuables, pigs, and large yams) and money as they appear in exchange contexts. The ethnography begins with an analysis of the construct of the Dobu person, and sets out to examine everyday practices and values. The belief system (incorporating witches, sorcerers, and a Christian God) is shown to have a powerful influence on individual conduct due to its panoptic character. The institutions that link Dobu with the outside world are examined in terms of the ideology concerning money: the Church receives offerings for God; the difficulties faced by trade-store owners evince conflicting notions concerning monetary wealth. The last two chapters delve into lived experience in two major domains of Dobu exchange: kula and the sagali feast.

SAS Combat Handbook Barry Davies, 2015-08-18 An SAS soldier explains the battle history of this prestigious military service, while teaching how you can defend yourself in both hand-to-hand and military combat. Seventy years after its inception, the Special Air Service (SAS) is recognized by many as one of the most decorated military forces in the world. Their soldiers do battle on a daily basis, taking actions that are normally swift, very hard hitting, and extremely secretive. They will go—willingly—deep behind enemy lines, taking on incredible odds and risking their lives in the hope of rescuing others. In the *SAS Combat Handbook*, you will be informed on all aspects of SAS operations. With never-before-seen photographs of these heroes in action and untold stories of individual acts of bravery, you will be taught the key combat methods that have made this military group exactly what they are: elite. Included are training tips that will teach you about various military tactics, such as: The art of cover and remaining hidden behind enemy lines The keys to covert insertion and extraction operations Counterterrorism skills, including building entry, ambush, and sniping Fire battles on land, in the air, or at sea And so much more From the gathering of intelligence to undercover operations, the SAS is made up of two hundred men who are rigorously selected, highly trained, and ready to face what others fear. They know what it takes to get the job done, and no matter the situation, their combat skills are the best in the business.

In the Shadows Michael Ashcroft, 2022-11-08 Winner of the Best Non-Fiction by a Parliamentarian category at the Parliamentary Book Awards 2023 With a Foreword by Lord Hague of Richmond The Intelligence Corps is one of the smallest and most secretive elements of the British Army. It has existed in various guises since the early twentieth century, but it was only formally constituted in July 1940. In this book, Michael Ashcroft tells the astonishing stories of some of its most courageous and ingenious figures, who have operated all over the world from the First World War to the present day. Whether carrying out surveillance work on the street, monitoring and analysing communications, working on overseas stakeouts, receiving classified information from a well-placed contact or interrogating the enemy in the heat of war, a hugely diverse range of people have served in the Corps, often supplementing their individual professional skills with original thinking and leadership in the name of the Crown. This book pays tribute to them and shows why, in the words of the 1st Duke of Marlborough, 'No war can be conducted successfully without early and good intelligence.'

Softly Fiji K Vuataki, 2013-04-22 The loss of the father and the son resulted in war and cannibalism in Fiji. Learn of the original worship of the father and the son in Fiji. How the son took away his protection and the land fell into the period of the "Rooster Wars." With the advent of the Christian missionaries in Fiji, the country entered a period of the "Return of the Father and Son." Christian Missionaries then advised cession to

Queen Victoria as Defender of the Faith, and arms were laid down on 10 October 1874, to take up the rule of law. The country then entered a period of “taking up arms” from the coup of 1987, the attempted coup of 2000, the coup of 2006, and the Declaration of a new legal order in 2010. With the Constitution Commission of 2012, Fiji now enters a period of “The Search for Answers” as it tries to go back to constitutional rule. The author was called by the Lord to help the Fijian people. This he did from 1986 to 2012 and for the first time he reveals some of the hard facts behind it.

The Regiment Michael Asher, 2008-05-29 From the bestselling author of *The Real Bravo Two Zero* comes the definitive history of the world's most elite fighting force - the SAS 'Breathtaking bravery, astonishing feats of endurance, raids and battles described with terrific immediacy and pace. Compelling and definitive . . . will surely not be bettered' Sunday Telegraph On 4 May 1980, seven terrorists holding twenty-one people captive in the Iranian Embassy in London's Prince's Gate, executed their first hostage. They threatened to kill another hostage every thirty minutes until their demands were met. Minutes later, armed men in black overalls and balaclavas shimmied down the roof on ropes and burst in through windows and doors. In seconds all but one of the terrorists had been shot dead, the other captured. For most people, this was their first acquaintance with a unit that was soon to become the ideal of modern military excellence - the Special Air Service regiment. Few realized that the SAS had been in existence for almost forty years, playing a discreet, if not secret, role almost everywhere Britain had fought since World War II, and had been the prototype of all modern special forces units throughout the world. In *The Regiment*, Michael Asher - a former soldier in 23 SAS Regiment - examines the evolution of the special forces idea and investigates the real story behind the greatest military legend of the late twentieth century. 'Detailed, scathingly honest. Asher has brought the critical eye of the knowledgeable insider to his in-depth study of SAS operations and personalities' Herald Praise for Michael Asher: 'This is the most complete picture of the Sudanese campaigns that has yet been published . . . a vigorous and engrossing narrative' Philip Ziegler, Daily Telegraph 'A staggering achievement. Asher has delivered a scintillating tale of a period of history that deserves to be remembered' Guardian

Soldier J: Counter Insurgency in Aden Shaun Clarke, 2013-12-12 In 1964 two different kinds of war were being waged simultaneously by the British in Aden. The inhabitants of the forbidding mountainous region of Radfan, in the north of the Republic of Yemen, were conducting guerrilla attacks against the British. Armed by the Egyptians and trained by the communist Yemenis, they were a formidable fighting force, and appeared invincible. The British had only one hope of beating them: to draft in an even more tenacious group of soldiers the SAS! Tasked with stopping the flow of weapons to the rebel tribesmen, Radforce was assembled from Aden's federal regular army together with various British forces including the legendary troopers of the SAS. After parachuting into the enemy territory at night, the SAS established concealed observation posts high in the mountains, from where they directed air strikes on the rebels moving through the sun-baked passes. At the same time, in an even more dangerous campaign, teams of two or three SAS men, disguised as Arabs, were infiltrating the souks and bazaars of the port of Aden to 'neutralise' leading members of the National Liberation Front with their renowned 'double tap' - firing their Browning high-power high-power handguns at close range as part of the daring 'Keeni Meeni' operations. *Soldier J: SAS: Counter-insurgency in Aden* is the breathtaking story of how the SAS fought these two contrasting campaigns in the same place at the same time with exceptional tenacity, skill and courage.

Process Cinema Scott MacKenzie, Janine Marchessault, 2019-07-11 Handmade films stretch back to cinema's beginnings, yet until now their rich history has been neglected. *Process Cinema* is the first book to trace the development of handmade and hand-processed film in its historical and contemporary contexts, and from a global perspective. Mapping the genealogy of handmade film, and uncovering confluences, influences, and interstices between various international movements, sites, and practices, *Process Cinema* positions the resurgence of handmade and process cinema as a counter-practice to the rise of digital filmmaking. This volume brings together a range of renowned academics and artists to examine contemporary artisanal films, DIY labs, and filmmakers typically left out of the avant-garde canon, addressing the convergence between the analog and the digital in contemporary process cinema. Contributors investigate the history of process cinema - unscripted, improvisatory manipulation of the physicality of film - with chapters on pioneering filmmakers such as Len Lye and Marie Menken, while others discuss an international array of collectives devoted to processing films in artist-run labs from South Korea to Finland, Australia to Austria, and Greenland to Morocco, along with historical and contemporary practices in Canada and the United States. Addressing the turn to a new, sustainable creative ecology that is central to handmade films in the twenty-first century, and that defines today's reinvigorated film cultures, *Process Cinema* features some of the most beautiful handcrafted films and the most forward-thinking filmmakers within a global context.
