Father Father Leonard Mullins,2004-02-23 This Nitty-Gritty biography Father Father by Leonard I Mullins; is a Somber-Simmering true story of the author's chequered life as a born Heller. His life, and incubator of poisonous drugs and mischief brewing-speaks of the sap of life in a Spanish-Harlem Ghetto in New York during the 1950's Cast in the language of allegory-simile and metaphor. This true story speaks of the author's undetected hunger for a father he barely knew, and introduces him to his familial history-one channeled within a tangled skein of inter-racial/filial-love-betrayal-hatred and murder. Yet an invisible providential thread runs like a pulsating artery beneath the underlying current of his then drooped and shambled life, which would ultimately be transformed. Follow his travels with Little Richard-his teaching of Astrology at C.S.U. Victory over Cancer... But most of all his introduction to two fathers... one biological-the other transcendent. This book will lift you off of your hinges and may take you where you did not plan to go truly an eye brow lifter

38 Jody Hill,2014-07-29 Imagine that you're lying down, completely immobile-you can't move a muscle. The only part of your body that you can control is your face. Consider, if you're able, that you are forever frozen in this position. Now, with your body paralyzed, there's only one thing left to do-smile. Smile? If you're wondering how anyone could smile in that situation, let me introduce you to Chucky Mullins.

The Secrets of the Federal Reserve -- The London Connection Eustace Mullins,2018-09-15 From the Foreword. In 1949, while I was visiting Ezra Pound who was a political prisoner at St. Elizabeth's Hospital, Washington, D.C. (a Federal institution for the insane), Dr. Pound asked me if I had ever heard of the Federal Reserve System. I replied that I had not, as of the age of 25. He then showed me a ten dollar bill marked Federal Reserve Note and asked me if I would do some research at the Library of Congress on the Federal Reserve System which had issued this bill. Pound was unable to go to the Library himself, as he was being held without trial as a political prisoner by the United States government. After he was denied broadcasting time in the U.S., Dr. Pound broadcast from Italy in an effort to persuade people of the United States not to enter World War II. Franklin D. Roosevelt had personally ordered Pound's indictment, spurred by the demands of his three personal assistants, Harry Dexter White, Lauchlin Currie, and Alger Hiss, all connected with Communist espionage.

Enjoying the Bible Matthew Mullins,2021-01-19 Many Christians view the Bible as an instruction manual. While the Bible does provide instruction, it can also captivate, comfort, delight, shock, and inspire. In short, it elicits emotion--just like poetry. By learning to read and love poetry, says literature professor Matthew Mullins, readers can increase their understanding of the biblical text and learn to love God's Word more. Each chapter includes exercises and questions designed to help readers put the book's principles and practices into action.

The Curse of Canaan Eustace Clarence Mullins,2022-07-27 Indeed, the great movement of modern history has been to disguise the presence of evil on the earth, to make light of it, to convince humanity that evil is to be ''tolerated, '' ''treated with greater understanding, '' or negotiated with, but under no circumstances should it ever be forcibly opposed. This is the principal point of what has come to be known as today's liberalism, more popularly known as secular humanism. The popular, and apparently sensible, appeal of humanism is that humanity should always place human interests first. The problem is that this very humanism can be traced in an unbroken line all the way back to the Biblical ''Curse of Canaan.'' Humanism is the logical result of the demonology of history. Modern day events can be understood only if we can trace their implications in a direct line from the earliest records of antiquit

The Customer-Funded Business John Mullins,2014-07-21 Who needs investors? More than two generations ago, the venture capital community - VCs, business angels, incubators and others - convinced the entrepreneurial world that writing business plans and raising venture capital constituted the twin centerpieces of entrepreneurial endeavor. They did so for good reasons: the sometimes astonishing returns they've delivered to their investors and the astonishingly large companies that their ecosystem has created. But the vast majority of fast-growing companies never take any venture capital. So where does the money come from to start and grow their companies? From a much more agreeable and hospitable source, their customers. That's exactly what Michael Dell, Bill Gates and Banana Republic's Mel and Patricia Ziegler did to get their companies up and running and turn them into iconic brands. In The Customer Funded Business, best-selling author John Mullins uncovers five novel approaches that scrappy and innovative 21st century entrepreneurs working in companies large and small have ingeniously adapted from their predecessors like Dell, Gates, and the Zieglers: Matchmaker models (Airbnb) Pay-in-advance models (Threadless) Subscription models (TutorVista) Scarcity models (Vente Privee) Service-to-product models (GoViral) Through the captivating stories of these and other inspiring companies from around the world, Mullins brings to life the five models and identifies the questions that angel or other investors will - and should! - ask of entrepreneurs or corporate innovators seeking to apply them. Drawing on in-depth interviews with entrepreneurs and investors who have actually put these models to use, Mullins goes on to address the key implementation issues that characterize each of the models: when to apply them, how best to apply them, and the pitfalls to watch out for. Whether you're an aspiring entrepreneur lacking the start-up capital you need, an early-stage entrepreneur trying to get your cash-starved venture into take-off mode, an intrapreneur seeking funding within an established company, or an angel investor or mentor who supports high-potential ventures, this book offers the most sure-footed path to starting, financing, or growing your venture. John Mullins is the author of The New Business Road Test and, with Randy Komisar, the widely acclaimed Getting to Plan B.

Murder by Injection Eustace Clarence Mullins,2016-04-21 T he present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The

physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through ''charitable'' organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their ''behavioural control'' over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

The Making Of A Wonderful Life Cherie Y. Mullins, 2013-12 Cherie Y. Mullins is the wife of Evangelist Roger Mullins. She is the daughter of the late Leo and Beverly Forse, of Binghamton, NY. As she grew up, they were members of the well-known Lit-tle White Church of Conklin, NY. Her family and church foundations play a tremendous role in her life of ministry with her husband today. As a couple, they have served the Lord faithfully in full-time evangelism, Christian music, and missionary work since 1969. They reside in McDonough, GA and are members of Glen Haven Baptist Church. She studied piano from first grade through high school and continues using her musical talent today. During their years on the road, she sang and played the piano as Mama in The Mullins Family as they traveled America in evangelism and gos-pel music from 1978 1994. Her family has recorded forty music projects which include a piano solo CD by Cherie. To-day, she works daily in the office of Hope for the World Albania with her husband, Roger and their daughter, Cindy. Since 1994, they have been ministering to thousands of orphan children of Albania, hundreds of senior citizens and the handicapped through Hope for the World as Directors of this ministry. This book is her third in a series under the title of The Making of a Wonderful Life . The first was subtitled Recording Reflections and specifically pertained to two of the family's recording projects produced in the 90's. Her second book was subtitled Family Foundations and covered Cherie's childhood days through the beginning of Bible College for her husband. This book, subti-tled Joyous Journey takes you through their lives from 1970 1994 in which they were involved full-time as a family in church ministry, evangelism and gospel music. Cherie believes she has one more book to write which will portray their years since 1994 in the field of foreign mission work in the country of Albania with Hope for the World. They have fo-cused on assisting orphans, widows, and handicapped and sharing the gospel of Jesus Christ. She believes that book will be subtitled Mission Memoirs, or something very similar. She hopes to have that one published within a couple of years. It is her desire that as you read this book, you will get to know her family personally and understand all that went into The Making of their Won-derful Life through this volume subtitled Joyous Journey.

Donovan's Bed Debra Mullins, 2017-06-11 WIFE WANTED: When newspaper editor Sarah Calhoun printed the story about Jack Donovan looking for a wife, she never imagined that every unwed female in Wyoming would flood the town looking to fill the position. And she never dreamed that, even after reading the man's long list of ridiculous wifely requirements, would she long for the job herself..

Revolting Things Paul R. Mullins, 2020-12-22 In this book, Paul Mullins examines a wide variety of material objects and landscapes that induce anxiety, provoke unpleasantness, or simply revolt us. Bringing archaeological insight to subjects that are not usually associated with the discipline, he looks at the way the material world shapes how we imagine, express, and negotiate difficult historical experiences. Revolting Things delves into well-known examples of “dark heritage” ranging from Confederate monuments to the sites of racist violence. Mullins discusses the burials and gravesites of figures who committed abhorrent acts, locations that in many cases have been either effaced or dynamically politicized. The book also considers racial displacement in the wake of post-World War II urban renewal, as well as the uneasiness many contemporary Americans feel about the social and material sameness of suburbia. Mullins shows that these places and things are often repressed in public memory and discourse because they reflect entrenched structural inequalities and injustices we are reluctant to acknowledge. Yet he argues that the richest conversations about the uncomfortable aspects of the past happen because these histories have tangible remains, exerting a persistent hold on our imagination. Mullins not only demonstrates the emotional power of material things but also exposes how these negative feelings reflect deep-seated anxieties about twenty-first-century society.

An All-American Murder John Oller, 2014-03-24 On a hot summer day in 1975, 14-year-old Christie Lynn Mullins left her neighborhood swimming pool with a friend, supposedly to attend a cheerleading contest behind a shopping center in Columbus, Ohio. Less than an hour later, she was found brutally beaten to death in the nearby woods. The neighborhood man who reported discovering her body was thought by many to be the true killer, but was never charged. Instead, the crime was pinned on a passive drifter with an IQ of 50, who confessed after six hours of interrogation. Two years later he was acquitted following a dramatic, Perry Mason-like trial full of surprise witnesses and testimony. An All-American Murder, by lawyer and journalist John Oller, is the story of a homicide that rocked the city of Columbus, Ohio nearly 40 years ago and remains unsolved to this day. Despite widespread belief that the original police investigation was flawed, law enforcement authorities never actively pursued this alternate suspect and refuse to discuss the case today. Friends, neighbors, and classmates of the victim, as well her family, firmly believe that justice was not done and that this cold case should be reopened. An All-American Murder has been described as a tragic, fascinating story well-told, and an exceptionally well written, insightful look into the angst that people can carry for decades when the criminal justice system is unable/unwilling to provide closure. Perhaps with the benefit of this book, closure will finally be obtained.
