His One and Only Wang Xiaoyu, 2010-10-10 This novel by one of China's leading contemporary writers is a shocking but compelling picture of life in China before and after the advent of the communist government in 1949. His One and Only tells the story of Xuan Zhigao, a boy from a poor family in Anhui Province, China. After his mother forces him to marry an older girl while he is still an adolescent, Xuan Zhigao flees his home. Years later, he sets up his own factory in Suzhou, and marries the daughter of a local strongman to help strengthen his status as a boss in the city. When the upheavals of war lead him to Shanghai, he falls in love with a local woman and secretly makes her his third wife. Xuan Zhigao is eventually driven to a breakdown as the pressure of supporting three families takes its toll. The novel offers rare insight into the minds of the men and women who lived through those unstable years, and is unflinching in its portrayal of gender issues and social change. It is a fascinating depiction of a China that no longer exists.

Norms, Storytelling and International Institutions in China Xiaoyu Lu, 2021-02-15 This book is a political ethnography of norm diffusion and storytelling through international institutions in China. It is driven by intellectual puzzles and realpolitik questions: are we converging or diverging on values? Do emerging powers reinforce or reshape the existing international order? Are international institutions socialising emerging powers or being used to promote alternative norms? This book addresses these questions through fieldwork research over three years at the United Nations Development Programme in China, the first international development agency to enter post-reform China in 1979. It provides a crucial case to study the everyday practices of norm diffusion in emerging powers, and highlights the central role of storytelling in translating and contesting normative scripts. The book selects norms in human rights, rule of law and development cooperation to analyse how translators and brokers innovatively use stories to advocate, and how these normative stories move back-and-forth between local-global spaces and orders. A fascinating ethnography that tells us much about international institutions and China's changing role in the world: of interest both to China specialists and theorists of international relations. —Rana Mitter, Director of the University of Oxford China Centre, University of Oxford, UK “Through pioneering ethnographic research, Xiaoyu Lu's outstanding book makes a major contribution to our understanding of norm diffusion and the ways in which China is shaping, and is shaped by, international development norms. Lu's richly textured analysis shows how 'norm translators' use case studies, personal stories, and other narratives to negotiate between global and local normative orders, and to facilitate the day-to-day processes of norm diffusion. —Amy King, Associate Professor, Strategic and Defence Studies Centre, Australian National University, Australia An intricate account of the everyday politics in international development institution, that will enrich our understanding of emerging powers and their roles in global development.” —Emma Mawdsley, Director of the Margaret Anstee Centre for Global Studies, University of Cambridge, UK

Rebranding China Xiaoyu Pu, 2019-01-08 China is intensely conscious of its status, both at home and abroad. This concern is often interpreted as an undivided desire for higher standing as a global leader. Yet, Chinese political elites heatedly debate the nation's role as it becomes an increasingly important player in international affairs. At times, China positions itself not as a nascent global power but as a fragile developing country. Contradictory posturing makes decoding China's foreign policy a challenge, generating anxiety and uncertainty in many parts of the world. Using the metaphor of rebranding to understand China's varying displays of status, Xiaoyu Pu analyzes a rising China's challenges and dilemmas on the global stage. As competing pressures mount across

domestic, regional, and international audiences, China must pivot between different representational tactics. Rebranding China demystifies how the state represents its global position by analyzing recent military transformations, regional diplomacy, and international financial negotiations. Drawing on a sweeping body of research, including original Chinese sources and interdisciplinary ideas from sociology, psychology, and international relations, this book puts forward an innovative framework for interpreting China's foreign policy.

Platform Embedded Security Technology Revealed Xiaoyu Ruan,2014-08-28 Platform Embedded Security Technology Revealed is an in-depth introduction to Intel's platform embedded solution: the security and management engine. The engine is shipped inside most Intel platforms for servers, personal computers, tablets, and smartphones. The engine realizes advanced security and management functionalities and protects applications' secrets and users' privacy in a secure, light-weight, and inexpensive way. Besides native built-in features, it allows third-party software vendors to develop applications that take advantage of the security infrastructures offered by the engine. Intel's security and management engine is technologically unique and significant, but is largely unknown to many members of the tech communities who could potentially benefit from it. Platform Embedded Security Technology Revealed reveals technical details of the engine. The engine provides a new way for the computer security industry to resolve critical problems resulting from booming mobile technologies, such as increasing threats against confidentiality and privacy. This book describes how this advanced level of protection is made possible by the engine, how it can improve users' security experience, and how third-party vendors can make use of it. It's written for computer security professionals and researchers; embedded system engineers; and software engineers and vendors who are interested in developing new security applications on top of Intel's security and management engine. It's also written for advanced users who are interested in understanding how the security features of Intel's platforms work.

Dreams of Ghosts Lian XiaoQi,2020-06-16 Everyone wished to have a characteristic that was different from ordinary people, but Gu Xiaoyu was very dissatisfied with the ability that the heavens had bestowed upon him. Other people's dreams were like fresh meat, except she only dreamed of dead people every day. This wasn't all, she still had to listen to everything these ghosts said! This really pissed her off! However, she didn't have the ability to reject them. Those ghosts were really despicable. If she didn't listen to them, then nothing good would happen the next day. What? What? Fuck, you want me to dig an ancestral grave again? No! He refused to go no matter what! What? High pay? No! I have a room and a car, so it's not a big deal! Was there a jade hairpin in the grave? Alright, let's go! You damned bastard, you actually lied to me!

Thirty-two New Takes on Taiwan Cinema Emilie Yueh-yu Yeh,Darrell William Davis,Wenchi Lin,2022-12-22 Thirty-two New Takes on Taiwan Cinema covers thirty-two films from Taiwan, addressing a flowering of new talent, moving from art film to genre pictures, and nonfiction. Beyond the conventional framework of privileging “New and Post-New Cinema,” or prominence of auteurs or single films, this volume is a comprehensive, judicious take on Taiwan cinema that fills gaps in the literature, offers a renewed historiography, and introduces new creative force and voices of Taiwan’s moving image culture to produce a leading and accessible work on Taiwan film and culture. Film-by-film is conceived as the main carrier of moving picture imagery for a majority of viewers, across the world. The curation offers an array of formal, historical, genre, sexual, social, and political frames, which provide a rich brew of contexts. This surfeit of meanings is carried by individual films, one by one, which breaks down abstractions into narrative bites and outsized emotions.
