Real Influence Mark Goulston, John Ullmen, John B. Ullmen, 2013 People won't put up with being sold anymore. If they sense they are being pushed, their guard goes up- and even if they do comply, lingering resentment undermines the relationship...maybe forever. Yet, most books on influence still portray it as something you do to someone else to get your way. That out-of-date approach invites resistance or cynicism from those who recognize the techniques. Manipulative tactics might occasionally wear down a colleague's or client's resistance, but they fail to produce the mutual trust that sustains successful relationships. In short, they just won't work in our sophisticated, post-selling world. In this groundbreaking book, authors Mark Goulston and John Ullmen reveal a new model for authentic influence-the kind that creates a strong initial connection and survives long after agreement has been reached. Based on listening, genuine engagement and commitment to win-win outcomes, Real Influence provides a powerful four-step method you can use to: * Examine your priorities * Learn about the key players and what they need * Earn their attention and motivate them to hear more * Add value with your questions and actions Complete with examples of the steps in action and insights from real-world power influencers, this one-of-a-kind guide shows that being straight with everyone means winning for all. www.getrealinfluence.com

The Gallant, Good Riou and Jack Renton Louis Becke, 2020-09-28 This is a true story of one of Nelson's captains, he of whom Nelson wrote as the gallant and good Riou—high meed of praise gloriously won at Copenhagen—but Riou, eleven years before that day, performed a deed, now almost forgotten, which, for unselfish heroism, ranks among the brightest in our brilliant naval annals, and in the sea story of Australia in particular. In September, 1789, the Guardian, a forty-gun ship, under the command of Riou, then a lieutenant, left England for the one-year-old penal settlement in New South Wales. The little colony was in sore need of food—almost starving, in fact—and Riou's orders were to make all haste to his destination, calling at the Cape on the way to embark live stock and other supplies. All the ship's guns had been removed to make room for the stores, which included a plant cabin—a temporary compartment built on deck for the purpose of conveying to Sydney, in pots of earth, trees and plants selected by Sir Joseph Banks as likely to be useful to the young colony—making her deck a complete garden, says a newspaper of the time. Friends of the officers stationed in New South Wales sent on board the Guardian great quantities of private goods, and these were stored in the gun-room, which it was thought would be a safer place than the hold, but, as the event proved, it was the most insecure. The ship arrived at the Cape of Good Hope in November, and there filled her decks with cattle and provisions, then sailed again, her cargo being equal in value to about £70,000. On December 23rd—twelve days after leaving the Cape—what is described as an island of ice was seen. Riou gave orders to stand towards it in order to renew, by collecting lumps of ice, the supply of water, the stock of fresh water having run very low in consequence of the quantity consumed by the cattle.

The World of Multicellular Oleg Seriy, 2018-08-19 I was invited to the studio. They were making a political TV show on the channel called “284–467”. Non-Shuster was the anchorman of the show. On that TV channel they were giving false information rather often but actually it can be said about all the TV channels nowadays. They were deceiving their audiences. They were showing only entertainment programs and nothing else...In a while I found myself in the studio. Shaitan came with me. He just couldn't let me go alone...

To Which Is Added In This Edition The Etymology And Derivation Of The Terms Used In Architecture.First Done In French By Monsr Perrault, Of The Academy Of Paris, And Now Englished, With Additions. This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Semmant Vadim Babenko,2013-03-23 A brilliant scientist creates a brilliant robot. Working together, they beat the stock market. But which one will survive the battle for love? When Bogdan Bogdanov, a troubled cybernetics genius, creates Semmant, a robot living inside a computer, he feels on top of the world. Semmant takes on the capital markets and makes money with the ruthless efficiency of a machine. Bogdan grows richer by the day, but when he falls deeply for the irresistible Lidia, Semmant's artificial mind faces a new challenge. The robot becomes involved in a genuine human drama and is forced to confront the cruelty of real life. He discovers the eternal joy of what it means to have free will, but it takes him to a destination no one could have predicted. This is a tale of lust and affection, an erotically charged story of betrayal and murder. It explores the scope of human feelings from a truly unique point of view. Universal chaos and the strict laws of society; precise mathematical rules and the elusive nature of love: all interact and clash, working together and against one another. Tragedy looms, but free will fights back - bringing hope that lasts forever.
