**Disonata. Art in Sound Up to 1980** ,2020 Across the twentieth century’s different avant-garde movements, and as the processes through which music freed itself from its own norms moved forward, sound burst forth in different directions in the field of visual arts, coming into its own in hitherto unexplored artistic spaces. Audible phenomena and events became plastic materials that could be processed vocally and technically ?on one side, sound arts were mixed with visual arts, coinciding with the technological development of new mediums of sound recording and synthesis; and, on the other, the interest in the soundscapes of industrial and urban modernity, and the sounds of the phonatory body (mouth noises, tongue clicking, different ways of drawing breath, and so on). 00Therefore, this exhibition displays a selection of forms, genres, approaches and unique examples as it spans different initiatives that moved beyond pre-defined categories in modern and contemporary art until 1980. The show places the accent on different pivotal moments: the Futurist experience of building instruments to modulate noises; visual artists’ fascination with the tape recorder around the midway point of the 20th century; and spatial, musical and multimedia experiments, for instance the Philips Pavilion designed by Le Corbusier and Iannis Xenakis, with music by Edgar Vàrese, for the Brussels World’s Fair in 1958.00Exhibition: Museo Nacional Reina Sofia, Madrid, Spain (23.09.2020 - 01.03.2021).

**Faking It: The Quest for Authenticity in Popular Music** Hugh Barker,Yuval Taylor,2007-01-30 Musicians strive to keep it real; listeners condemn fakes; but does great music really need to be authentic? By investigating this obsession in the last century, this title rethinks what makes popular music work.

This is Not a Remix Margie Borschke,2017-08-10 Widespread distribution of recorded music via digital networks affects more than just business models and marketing strategies; it also alters the way we understand recordings, scenes and histories of popular music culture. This Is Not a Remix uncovers the analog roots of digital practices and brings the long history of copies and piracy into contact with contemporary controversies about the reproduction, use and circulation of recordings on the internet. Borschke examines the innovations that have sprung from the use of recording formats in grassroots music scenes, from the vinyl, tape and acetate that early disco DJs used to create remixes to the mp3 blogs and vinyl revivalists of the 21st century. This is Not A Remix challenges claims that 'remix culture' is a substantially new set of innovations and highlights the continuities and contradictions of the Internet era. Through an historical focus on copy as a property and practice, This Is Not a Remix focuses on questions about the materiality of media, its use and the aesthetic dimensions of reproduction and circulation in digital networks. Through a close look at sometimes illicit forms of composition-including remixes, edits, mashup, bootlegs and playlists-Borschke ponders how and why ideals of authenticity persist in networked cultures where copies and copying are ubiquitous and seemingly at odds with romantic constructions of authorship. By teasing out unspoken assumptions about media and culture, this book offers fresh perspectives on the cultural politics of intellectual property in the digital era and poses questions about the promises, possibilities and challenges of network visibility and mobility.
