Beyond Seas Suvo Moitro,2013-08-31 During summer camp, when a baseball comes bouncing at her from nowhere, Roshni Singh, a spunky teenager from Delhi, inexplicably ends up unleashing her unusually offensive side, little realizing that this trifling incident will shape her destiny. Mark Taylor, a student of the American International School, who has come rushing down from behind a boulder to fetch the ball, stands stunned at the foothills of the Himalayas, allowing her to bully him. Years later, Roshni finds herself at Yale Law School, face to face with Mark. Through their student years, they put aside their differences and place their relationship on a firm footing. Just then, however, fate deals them a cruel blow in the form of a severe blizzard that sweeps through the Northeastern US, leaving them to pick up the threads of their own livethrough agony, bliss, despair and hope.

A+ on Aptitude: CSIR-UGC NET Bishnu Goswami, This edition of "A+ on Aptitude" is made up from a collection of very interesting and challenging aptitude questions with their detailed solutions, which are very important for the aspirants aiming to crack the National Eligibility Test (CSIR-UGC, ICMR etc) for lectureship and research fellowships. The questions are based on what came in previously in the NET exams itself, and from other high-level aptitude exams where abstraction is important. Rote memorization and just practice is inadequate for success in research aptitude. In this book, uncover the secrets to having a grasp of higher-order abstraction and breaking down of a big problem into smaller chunks, and the final maceration so that the problem does not remain. It is a book which shows how successful aspirants think while solving their aptitude questions, while keeping in mind the advantages of questions with options and disadvantages of timed tests. Solving is easy, but what is keeping yourself from an 'A+'? All the best! The author has qualified the exam at the first year of his Graduate studies with both Lectureship and JRF, and is also a software developer in numerous computing platforms.

Personality Preferences: How MBTI manifests in the personality of over 30 individuals Bishnu Goswami, Personality profiling is a tricky business, with a lot of scope of stereotyping and false conclusions. However, many of us believe that it can be a great tool for the test taker and the administrator, not only in casual contexts where the test is taken with a pop-psychology mindset, but also in career counseling and team-management contexts. In this book we explore over thirty individuals who had their MBTI test taken, and their personality analyzed while keeping the MBTI predictions by their side. A section deals with how their friends and co-workers describe them, to offset some inevitable biases which might creep in from our limited views. Then, the advantages of the typology is illustrated along with a section which describes the disadvantages of the same, in certain regards. Another section describes the outcome in the Big 5 personality parameters. Finally, a short conclusion follows.

The Godmothers Smruti Shanbhag,2020-02-26 A Godmother is a woman who takes the place of a mother and helps her Goddaughter accomplish her goals and succeed in life, by being there for her, and supporting her in the journey. Anyone can become a Godmother – a friend, a teacher, a sister, a daughter, a colleague... The Godmothers is a selection of short stories about women, young and old, and their Godmothers. These are stories about women who help other women grow, achieve, and live a free life. Every story has two key protagonists: the Godmother and her Goddaughter. The stories describe how the Godmother supports her Goddaughter to overcome a struggle in her life. Each story talks about a different challenge, in a different context, thereby touching upon a variety of women's issues such as female foeticide, domestic violence, sexual harassment, corporate growth challenges, and so on. The stories aim to provoke women to selflessly support other women around them. It is an attempt to motivate women to take their own little step towards achieving gender justice and women's empowerment. If every woman decided to support one other woman in need, we will not be far from reaching our dream of gender equality.

Children and NGOs in India Annie McCarthy, 2021-05-30 This book is an ethnographic exploration of slum children's participation in NGO programs that centres children's narratives as key to understanding the lived experience of development in India where 50% of the population is under the age of 25. Weaving theoretical and methodological interventions from anthropology, childhood studies and development studies with children's own narratives and images, the author foregrounds children's lifeworlds whilst documenting the extent to which these lifeworlds are shaped by the twin forces of marginalisation and aspiration. The book documents NGO campaigns targeting child marriage, sanitation and hygiene, gendered violence and bullying, and depicts and examines children's sometimes enthusiastic, sometimes reluctant, and sometimes indifferent approach to narrating and performing development. It assesses the way in which children from four slum communities in New Delhi navigate the multiplicities and contradictions of development by analysing the stories, posters and performances children produce for NGOs. Moreover, the book argues that engagement with children's narratives and performances provide valuable insights into how development attains meaning, garners consensus, fails, succeeds and circulates in a myriad of unexpected ways which consistently defy any assumptions about 'underdeveloped' subjectivities. The first book to interrogate the substance and subjectivities produced in the development of NGO organisations offering extra-curricular programs directed towards more intangible and experiential ends, it will be of interest to researchers working in anthropology, development studies, childhood studies and South Asian studies. The book also speaks to scholars working on issues of poverty, rural-urban migration, gender justice, slums and youth.

COST OF INDEPENDENCE : 10 Unfair tales Shrika Somiseti, 2023-06-22 Independence asked for a lot of sacrifice from our leaders, common men, women as well as children. Many people died and were left behind mourning remnants of the family. But it was not only the British whom we needed independence from. We also needed freedom from discrimination and prejudice based on caste, status, and religion which still keep lingering in modern India. The characters may not be real but the stories are based on true circumstances. And the truth is seldom pleasant...
