American Spirit James Rodewald,2014-09-02 Craft distilling has exploded in the United States in recent years, and this in-depth look at the intrepid characters at the forefront of the liquid revolution will have you rethinking whats in your liquor cabinet—and possibly your career choice. James Rodewald, a veteran journalist who spent more than a decade at Gourmet magazine, most of that time as Drinks Editor, traveled the country talking to the men and women at the heart of this remarkable industry about the challenges they face, the rewards of their hard work, and the delicious spirits they make. Along the way, myths are shattered, phonies are unmasked, and drinks-as well as a few tears-are spilled.

It Will Be Forever Jennifer Rodewald,2019-12-28 Big-hearted Dre Rustin fled her small Nebraska hometown to distance herself from her brother's troubled past. Texas seemed like a good place to start a new life. Now she's looking forward to graduating from college, but first, she's got to handle Thanksgiving break. She'll head home for the first time in years. No way is she going to get sucked back into the drama and charm-namely her brother's best friend Tommy Kent-of Rock Creek. For moral support, she convinces her best friend to travel with her. Little good that does her.Tom Kent might not have been the rebel Paul Rustin had been, but he'd earned a less-than-honorable reputation with the girls, which ruined the fragile hope he'd had for romance with Dre before she left for college. In the four years since Dre had shut Tom out, he hasn't been able to let her go. Now she's coming home, and he's got this one last chance.What if she could forgive him? What if they could recapture the tender feelings they'd shared years ago? What if they could build new dreams together?It could be good. Really good. Maybe, just maybe, it could be forever.

Impact of Cardiac Surgery on the Quality of Life G. Rodewald,A.E. Willner,2012-12-06 Georg Rodewald University of Hamburg Hamburg, Federal Republic of Germany Allen E. Willner Hillside Hospital Glen Oaks, NY In contrast to the initial years of cardiac surgery (37 years ago), there is now increasing interest in cerebral protection. Rodewald [1] in 1978 was among the first to point out the surgeon's concern with psychopathological problems and Taylor [2] in 1989 stressed that ••• the awareness of the cerebral consequences of open heart surgery has risen considerably in recent years • • • This book reviews the evidence for neurological, psychological, and neuropsychological reactions to cardiac surgery. In previous studies one problem is that small samples of patients were studied with different measuring instruments so that it was difficult to make sense of inconsistent findings. Considerable controversy resulted with little ability to sort out discrepant findings. It appeared that a large multi center study using uniform measures might help clarify the picture.

When I Come Home Again Jennifer Rodewald,2019-12-28 When a family crisis calls him back to Big Prairie, will Craig Erikson be able to work through past mistakes and a tragedy that had sent him searching for a new place to call home?Craig Erickson had it all. Hometown hero status. Rising football fame. And the love of the coach's daughter. His future looked golden until it all fell apart. After, life no longer made sense, and for seven years Craig wandered from place to place, hiding his pain behind a smile. When an emergency comes up at home, he's compelled to return to Big Prairie. Brenna Blaum had been sure of a few things: she'd never let anything happen to her younger, special needs brother, Scottie; and she'd make it to the Olympic trials someday. After falling for her dad's star receiver in high school, Craig Erikson made his way onto her certainty list. But when Craig's success in college football skyrocketed his popularity to a national level, he'd ended their relationship, breaking her heart. Then, an accident took Scottie. Devastated, she lost the will to run. In one awful year, everything she'd been sure of vanished.Over the years, Brenna recovered. Refusing to leave her hometown, she made a way for herself as a speech therapist. Comfortable in her quiet life, when she hears that Craig is to return to Big Prairie, she is determined not to let his homecoming upend her world. But somethings are unavoidable-especially in a small town. As Craig and Brenna are pushed together, can they endure the hard places still littering their lives? And if so, is it possible to find their way back to love and home again?

Blue Columbine Jennifer Rodewald,2015-05-14 Best friends-maybe more-until addiction shatters everything. Reeling from professional failure, Andrew Harris needs a fresh start. When he moves back to Colorado to join a Denver law firm, he runs into Jamie, his childhood sweetheart. She is still the kind and faithful girl he remembers-not to mention beautiful and still single. With her by his side, Andrew is confident he can overcome the demons that he tries to keep hidden. Jamie Carson is thrown off balance when Andy resurfaces in her life. Though her faith in God has remained solid, even through her mother's long illness and after her death, Jamie battles loneliness. Andy fills her days, whispering significance to her heart. But his rejection of the faith she thought they'd once shared, and his alarming drinking habit keep her heart from plunging into deep, murky waters. Or do they? Andy pursues an intimacy Jamie knows she must guard against. But as the line between loyalty and love blurs, things get complicated-until a devastating blow breaks their relationship. For Jamie, one thing becomes clear: Andy needs a miracle, and she isn't it. Will Andrew allow the hand of grace to redeem his legacy of addiction, or will he and Jamie both remain casualties of heartbreak?

Ornithology Michael L. Morrison,Amanda D. Rodewald,Gary Voelker,Melanie R. Colón,Jonathan F. Prather,2018-09-03 The essential text for ornithology courses, this book will leave students with a lifelong understanding and appreciation of the biology and ecology of birds. Aves, the birds, is the wildlife group that people most frequently encounter. With over 10,000 species worldwide, these animals are part of our everyday experience. They are also the focus of intense research, and their management and conservation is a subject of considerable effort throughout the world. But what are the defining attributes that make a bird a bird? Aimed at undergraduate and graduate students, Ornithology provides a solid modern foundation for understanding the life and development of birds. Written by renowned experts from around the globe, this comprehensive textbook draws on the latest research to create an innovative learning experience. Moving beyond bones, muscle, and feathers, it provides the core information needed to “build” the bird, linking anatomy and physiology with ecology and behavior. As it reviews the major orders of birds, the book highlights their wide diversity and critically evaluates ornithological concepts and theories. Incorporating brief biographies of leaders in the field, the text describes their contributions in

the context of key historical events in bird science. Each chapter ends with a summary of the material covered, a discussion of potential management and conservation applications, and suggested study questions that will stimulate thought and discussion. Money in the Age of Tiberius Cosmo Rodewald,1976 During the two centuries before the birth of Christ, all the lands around the Mediterranean came under the control of the Romans. Their power extended into Europe as far as the Rhine and the Danube and into Asia as far as the Euphrates. Some use was made of coined money over the whole of that area before the Romans came; there were diverse currencies, based on a number of different systems. By the middle of the first century A.D. Roman gold and silver had taken the place of almost all other value currencies, and in much of the area Roman bronze and copper had taken the place of other kinds of small change. So much is clear, but much else remains far from clear. What purposes had the Roman government, and other authorities, in mind in deciding whether and when to issue currency, and in what quantities and denominations? Was Roman currency deliberately imposed, other currencies being deliberately suppressed? Was there an increase in demand for coined money during this period, whether as a result of Roman conquest or for other reasons? Was demand satisfied? Was currency being exported from the Roman world in sufficiently large quantities to cause a shortage already in the first half of the first century A.D.? -- pg. [1].

Behavioural and Ecological Consequences of Urban Life in Birds Caroline Isaksson,Amanda D. Rodewald,Diego Gil,2018-06-19 Urbanization is next to global warming the largest threat to biodiversity. Indeed, it is becoming increasingly evident that many bird species get locally extinct as a result of urban development. However, many bird species benefit from urbanization, especially through the abundance of human-provided resources, and increase in abundance and densities. These birds are intriguing to study in relation to its resilience and adaption to urban environments, but also in relation to its susceptibility and the potential costs of urban life. This Research Topic consisting of 30 articles (one review, two meta-analyzes and 27 original data papers) provides insights into species and population responses to urbanization through diverse lenses, including biogeography, community ecology, behaviour, life history evolution, and physiology.
