The King of Drinks Dmitri van den Bersselaar,2007-10-30 Using a focus on the trajectory of commoditisation of gin in West Africa, this book investigates how imported goods acquire specific local meanings. It shows that local consumers, not foreign advertisers, produced the importance of schnapps gin for African ritual

The First Family Mike Dash,2011-06-09 Before Al Capone and Lucky Luciano, there was the one-fingered, cunning Giuseppe Morello and his murderous coterie of brothers. Had it not been for Morello, the world may never have heard of 'men of honour', the code of omertà or Mafia wars. This explosive book tells the story of the first family of New York, and how this extended close-knit clan of racketeers and murderers left the backwaters of Sicily to successfully establish themselves as the founding godfathers of the New World. First Family will explain in thrilling, characterful detail how the American Mafia established itself so successfully. Combining strong narrative and raw violence - set against the raucous bustle of early twentieth-century New York, and the impoverished rural life of nineteenth-century Sicily - this impeccably researched, groundbreaking study of a crucial period of American history is a compelling portrait of the early years of organised crime.

**Clinical Practice Handbook for Safe Abortion** World Health Organization,2014 The Clinical practice handbook for safe abortion care is intended to facilitate the practical application of the clinical recommendations from the second edition of Safe abortion: technical and policy guidance for health systems (World Health Organization [WHO] 2012). While legal, regulatory, policy and service-delivery contexts may vary from country to country, the recommendations and best practices described in both of these documents aim to enable evidence-based decision-making with respect to safe abortion care.

**Safe Abortion** Organisation mondiale de la santé,World Health Organization,WHO,World Health Organisation Staff,2003-05-13 At a UN General Assembly Special Session in 1999, governments recognised unsafe abortion as a major public health concern, and pledged their commitment to reduce the need for abortion through expanded and improved family planning services, as well as ensure abortion services should be safe and accessible. This technical and policy guidance provides a comprehensive overview of the many actions that can be taken in health systems to ensure that women have access to good quality abortion services as allowed by law.

**Health and Wellness Tourism** Marta Peris-Ortiz,José Álvarez-García,2014-11-18 This book aims to contribute to the literature and aid in developing a theoretical and practical framework in the area of health and wellness tourism. With contributions and research from different countries using a practical approach, this book is an essential source for students, researchers and managers in the health and wellness tourism industry.

Recently, there has been an increased interest in health and wellness due to greater life expectancy, aging populations, increasing levels of stress among others. In this context, the concepts of health, wellness, beauty, relaxation, and tourism can be combined to satisfy the needs of people seeking better quality-of-life. This has given rise to health and wellness tourism, a new market segment that contributes to employment and economic growth in the new economy. Health and wellness tourism involves two aspects: therapeutics, which seeks to cure certain diseases; and relaxation and leisure. As an alternative to traditional tourism, health and wellness tourism provides a new means of achieving regional and local development from a demographic, social, environmental and economic point-of-view. It contributes to tourist destinations' economic growth, acting as a pillar to support other complementary activities. In short, health and wellness tourism contributes to employment growth and regional wealth, contributes to tourism seasonality, promotes quality in tourism destinations, helps create new tourist services with high value, promotes establishment of international cooperation networks, and yields a number of additional benefits. Featuring a variety of programs and initiatives from different regions, with an emphasis on thermal and thalassotherapy establishments, this volume sheds light on this emerging market segment and its implications for economic and policy development.

*The Gangs of New York* Herbert Asbury, 1928

Drink, Power, and Cultural Change Emmanuel Kwaku Akyeampong, 1996 This analysis of the social history of alcohol in Ghana since the early 19th century blends the approaches of history, anthropology, social medicine, theology and political science. Sources used include proverbs, music, comic opera, popular literature, photographs, and colonial archives.

**This House Has Fallen** Karl Maier, 2009-04-29 To understand Africa, one must understand Nigeria, and few Americans understand Nigeria better than Karl Maier. This House Has Fallen is a bracing and disturbing report on the state of Africa's most populous, potentially richest, and most dangerously dysfunctional nation. Each year, with depressing consistency, Nigeria is declared the most corrupt state in the entire world. Though Nigeria is a nation into which billions of dollars of oil money flow, its per capita income has fallen dramatically in the past two decades. Military coup follows military coup. A bellwether for Africa, it is a country of rising ethnic tensions and falling standards of living, very possibly on the verge of utter collapse -- a collapse that could dramatically overshadow even the massacres in Rwanda. A brilliant piece of reportage and travel writing, This House Has Fallen looks into the Nigerian abyss and comes away with insight, profound conclusions, and even some hope. Updated with a new preface by the author.

**Consumerism in World History** Peter N. Stearns, 2001 The desire to acquire luxury goods and leisure services is a basic force in modern life. This work explores both the historical origins and world-wide appeal of this relatively modern phenomenon.

**Sacred Sites and the Colonial Encounter** Sandra E. Greene, 2002-05-14 Greene gives the reader a vivid sense of the Anlo encounter with western thought and Christian beliefs... and the resulting erasures, transferences, adaptations, and alterations in their perceptions of place, space,

and the body. -- Emmanuel Akyeampong Sandra E. Greene reconstructs a vivid and convincing portrait of the human and physical environment of the 19th-century Anlo-Ewe people of Ghana and brings history and memory into contemporary context. Drawing on her extensive fieldwork, early European accounts, and missionary archives and publications, Greene shows how ideas from outside forced sacred and spiritual meanings associated with particular bodies of water, burial sites, sacred towns, and the human body itself to change in favor of more scientific and regulatory views. Anlo responses to these colonial ideas involved considerable resistance, and, over time, the Anlo began to attribute selective, varied, and often contradictory meanings to the body and the spaces they inhabited. Despite these multiple meanings, Greene shows that the Anlo were successful in forging a consensus on how to manage their identity, environment, and community.

Lifebuoy Men, Lux Women Timothy Burke, 1996 How do people come to need products they never even knew they wanted? How, for example, did indigenous Zimbabweans of the 1940s begin to believe that they required Lifebuoy soap? Offering a glimpse into the intimate workings of modern colonialism and global capitalism, Timothy Burke takes up these questions in *Lifebuoy Men, Lux Women*, a study of post-World War II commodity culture in Zimbabwe. With particular attention to cosmetic products and the contrast between colonial and pre-colonial ideas of cleanliness, Burke examines the role played by commodity culture, changing patterns of consumption, and the spread of advertising in the making of modern Zimbabwe. His work combines history, anthropology, and political economy to show how the development of commodification in the region relates to the social history of hygiene. Within this framework, and drawing on a wide variety of historical sources, Burke explores dense interactions between commodity culture and embodied aspects of race, gender, sexuality, domesticity, health, and aesthetics in a colonial society. Rather than viewing the production of needs simply as an imposition from above, *Lifebuoy Men, Lux Women* shows what heterogeneous and complex processes, involving the aims and histories of both colonizers and colonized, produced these changes in Zimbabwean society. Integrating political economy, cultural studies, and a wide range of the social sciences, *Lifebuoy Men, Lux Women* will find readers among scholars of colonialism, African history, and ethnography as well as those for whom the problem of commodification is a significant theoretical issue.

**Conversion to Modernities** Peter van der Veer, 2014-01-14 Peter van der Veer has gathered together a groundbreaking collection of essays that suggests that conversion to forms of Christianity in the modern period is not only a conversion to modern forms of these religions, but also to religious forms of modernity. Religious perceptions of the self, of community, and of the state are transformed when Western discourses of modernity become dominant in the modern world. This volume seeks to relate Europe and its Others by exploring conversion both in modern Europe and in the colonized world.

**Syncretism/Anti-Syncretism** Rosalind Shaw, Charles Stewart, 2003-12-16 Syncretism - the synthesis of different religious - is a contentious word. Some regard it as a pejorative term, referring to local versions of notionally standard 'world religions' which are deemed 'inauthentic' because saturated with indigenous content. Syncretic versions of Christianity do not conform to 'official' (read 'European') models. In other contexts however, the syncretic amalgamation of religions may be validated as a mode of resistance to colonial hegemony, a sign of cultural survival, or as a means of authorising political dominance in a multicultural state. In *Syncretism/Anti-Syncretism* the contributors explore the issues of agency and power which are integral to the very process of syncretism and to the competing discourses surrounding the term.

*SCM Core Text: Religious Syncretism* Eric Maroney, 2006-05-25 Even a quick scan of today's headlines makes clear that the growth of fundamentalist versions of Islam is having a vast impact on our world. For Americans the rise of Christian fundamentalism, especially the Evangelical movement, is also socially and politically shaping the country, as debates about abortion, stem cell research and other important issues are often driven by fundamentalist notions. In profound ways, orthodox versions of Judaism have altered the fabric of Middle Eastern politics through the

Israeli-Palestinian conflict, especially regarding settlements in Gaza and the West Bank, making peace there all the more difficult, and further destabilizing an already unstable region. The rise of fundamentalism in the three monotheistic faiths is fully examined in this textbook. It is not about fundamentalism however, it is about its opposite trend: religious syncretism. Syncretism describes the phenomenon of one religion borrowing elements from another, and it is part of religion that fundamentalists will seldom acknowledge. This textbook explores Judaism, Christianity and Islam, using compelling examples of how syncretism works and looks, to show how these three religions have adopted customs and conceptions of other religions, most often acquiring practices from pagan predecessors and neighbours. The book shows how these three faiths - despite how modern media would have us believe - have been willing, at various times and places, to borrow.

**International Relations in the Asia-Pacific** Jörn Dosch, Manfred Mols, 2000 The focus of this book is the changing pattern of international politics in the Asia-Pacific region on the eve of the 21st century with particular reference to the role of the United States, ASEAN, Japan, China, and the emerging role of Latin America, as well as multilateral cooperation forums such as APEC, ARF, and CSCAP. The analysis is not based on a single theoretical approach but instead employs different perspectives.

Introduction to African Religion John S. Mbiti, 2015-01-14 In his widely acclaimed survey, John Mbiti sheds light on the survival and prosperity of African Religion in different historical, geographical, sociological, cultural, and physical environments. He presents a constellation of African worldviews, beliefs in God, use of symbols, valued traditions, and practices that have taken root with African peoples throughout the vast continent. Mbiti's accessible writing style sympathetically portrays how African Religion manifests itself in ritual, festival, healing, the human life cycle, and interplay with the mystical and invisible world. The account embraces foundational traditions, while touching on elements that spawn transitions, including migration, the spread of Christianity and Islam, political-economic development, and modern communication. This popular introduction leaves readers with informed knowledge of the riches of African heritage.
