Subsidized Programs for Low Income People Lloyd L. Hogan,1981-01-01 Subsidized Programs for Low Income People is the proceedings of a conference held in April 1980 and sponsored by the Review of Black Political Economy, the National Economic Association and the Atlanta University Center. The panel discussions and the array of participants represent a major attempt to bring new insights into issues of long standing. The challenge of the 1980's is to evolve programs to meet the needs of increasing numbers of low income families -- blacks and other minorities who are finding it impossible to bridge the gap between inferior and decent housing opportunities. The proceedings explore the providing of subsidized rents and the need for additional support programs for home ownership, especially for the young and those who are among the increasing working poor. Contributors: Vincent R. McDonald, Lloyd Hogan, Mack H. Jones, Rawle Farley, Charles L. Betsey, Wilhelmina A. Leigh and Mildred O. Mitchell, Patricia Thompson, Bernadette P. A Picture of Subsidized Households Paul Burke,1996

The Big Handout Thomas M. Kostigen,2011-10-25 Just reading the word subsidies may cause many people's eyes to glaze over. We don't think it affects us directly, so we tune out. But it turns out that this complicated-sounding issue has an enormous impact on all of us. The Big Handout is about bad fiscal, environmental, agricultural, water, energy, health, and foreign policies. And it's a story about just one thing—subsidies. A subsidy is a grant by the government to a private business that is deemed advantageous to the public. Cotton, wheat, corn, soy, and oil are the most subsidized commodities in the United States. In this eye-opening book, New York Times bestselling author Thomas Kostigen explores government policies that cost taxpayers \$200 billion per year, over \$1,500 per household. In some cases we pay more for subsidized goods than we'd pay in a free market—and, in the most shocking abuses of the subsidy system, we pay for goods that aren't even produced. The Big Handout exposes how artificial pricing hurts us and people worldwide, from our waistlines and pocketbooks to our health. By revealing just how toxic America's subsidy system has become, for everyone, The Big Handout is a wake-up call that empowers readers to effect change.

Development Finance Institutions Mark Schreiner,Jacob Yaron,2001-01-01 The purpose of the measurement of the social cost of subsidised development finance institutions (DFIs) is to see if the social benefit exceeds the social cost. In most cases, it is so expensive to measure social benefits that a full-blown social cost-benefit analysis cannot be done. The measurement of social costs, however, is not as expensive, and it can inform choices of how to spend public funds. This paper presents two measures of social cost. The first is the Subsidy Dependence Index (SDI) that can measure social cost in short time frames. The second measure is the net present cost of society (NPCS), which can measure social cost in any time frame. Both the SDI and the NPCS model shift the emphasis from prices paid to opportunity costs.

The Benefits of Subsidized Housing Programs Claire Holton Hammond,1987-06-26 Rental housing subsidy programmes have been an important part of the American welfare system since the 1930s. The Benefits of Subsidized Housing Programs: An Intertemporal Approach is an empirical study of the distributive effects of the entire system of rental housing subsidies for lower-income households based on a national sample. Using the 1977 Annual Housing Survey, Professor Hammond has evaluated the benefits of all federal, state and local government rental housing subsidy programmes taken as a whole across the nation. Additionally, she has estimated the changes in consumption patterns resulting from these programmes and the relationship between household benefit and household income; household size; age, education, sex, and race of the head of the household; and the geographic location of the household.

Self-targeted Subsidies Richard H. Adams,2000 By gradually reducing the number of subsidized foods, and by focusing subsidies on foods consumed more by the poor than by the rich (like coarse baladi bread) Egyptian policymakers have found a way to self-target food subsidies to the urban poor. Yet because the rural poor do not consume as much baladi bread, this system is not as well-targeted to the rural poor.

The Distributional Incidence of Residential Water and Electricity Subsidies ,2006 Subsidies to residential utility customers are popular among policymakers, utility managers, and utility customers alike, but they are nonetheless the subject of much controversy. Utility subsidies are seen as a way to help make utility service affordable for poor households and as an alternative mechanism for income redistribution. These arguments in favor of subsidies are countered by serious concerns about their adverse effects on consumer behavior, utility operations, and the financial health of utilities. Both the affordability and redistributive arguments for subsidies are based on the presumption that poor households benefit disproportionately from water and electricity subsidies, that they are well-targeted to the poor. The authors test this assumption by examining the extent to which the poor benefit from consumption and connection subsidies for water and electricity services. Their analysis of a wide range of subsidy models from around the developing world shows that the most common form of utility subsidy-quantity-based subsidies delivered through the tariff structure-are highly regressive. Geographically targeted or means-tested subsidies do better, and in many cases have a progressive incidence, but large numbers of poor households remain excluded. Low levels of coverage and metering severely limit the effectiveness of consumption subsidy schemes to reach the poor. Simulations suggest that connection subsidies are an attractive alternative for low coverage areas, but only if utilities have the means and motivation to extend network access to poor households and only if those households choose to connect. --World Bank web site.

Water, Electricity, and the Poor Kristin Komives,World Bank,2005 This book reviews the prevalence and variants of consumer subsidies found in the developing world and the effectiveness of these subsidies for the poor. It places consumer subsidies in a broader social protection framework and compares them with poverty-focused programmes in other sectors using a common metric. It concludes that the most common subsidy instruments perform poorly in comparison with most other transfer mechanisms. Alternative consumption and connection subsidy mechanisms show more promise, especially when combined with complementary non-price approaches to making utility services accessible and affordable to poor households. The many factors contributing to those outcomes are dissected, identifying those that can be controlled and used to improve performance.

Subsidized Housing in the Chicago Suburbs Elizabeth Warren,1981

The Poorhouse Devereux Bowly,1978-06 Chicago seems an ideal environment for public housing because of the city’s relatively young age among major cities and well-deserved reputation for technology, innovation, and architecture. Yet The Poorhouse: Subsidized Housing in Chicago shows that the city’s experience on the whole has been a negative one, raising serious questions about the nature of subsidized housing and whether we should have it and, if so, in what form. Bowly, a native of the city, provides a detailed examination of subsidized housing in the nation’s third-largest city. Now in its second edition, The Poorhouse looks at the history of public housing and subsidized housing in Chicago from 1895 to the present day. Five new chapters that cover the decline and federal takeover of the Chicago Housing Authority, and its more recent “transformation,” which involved the demolition of the CHA family high-rise buildings and in some cases their replacement with low-risemixed income housing on the same sites. Fifty new photos supplement this edition. Certificate of Excellence from the Illinois State Historical Society, 2013
