Jeanne Cavelos

Technomage Dirk Bruere,2011-02 TechnoMage is a collection of technological paradigms and techniques for the modification of consciousness and reality in magick. These range from hypnosis and neuro-linguistic programming (NLP) to the exotic statistical argument that this reality is a simulation and the ramifications of that from an operational magick point of view. In between there are detailed investigations of the effects of electromagnetic fields on the brain, as well as low level direct electrical stimulation in the alteration of consciousness. Modern paranormal, or Psi, effects are detailed with regard to Remote Viewing (and influencing) as well as contemporary seance practices, physical mediumship, aspects of Ultraterrestrial (UFO) and inter-dimensional communications and their relationships to traditional demonology. And the machines to make it happen. Many more details at: <http://www.neopax.com/technomage/>

subtropical city of Caracole, Erik the Golden is widely known as irresistible; his Voice an instrument of incredible pleasure, the stroke of velvet on bare skin. But the Voice is a curse as much as a blessing, for once Erik used it to steal a soul, and now he must pay. Pruella Takimori McGuire is the business manager for the beautiful courtesans of the Garden of Nocturnal Delights. She deals in numbers, not Magick, and when Erik turns his charms in her direction, she sees only vanity, not a golden gift. If Erik cannot use his power to win Prue's heart, how can he truly possess her? How is it she can resist what others can't? She's either a torment devised by the gods to drive him mad or Erik's last hope of salvation. And all the while, a far darker power corrupts the foundations of Caracole—the Necromancer, who feasts on souls. When the Necromancer's hired assassin kidnaps Prue, Erik must harness his air Magick to recover the woman he has come to love more than life itself.

Lineage B. J. Keeton, 2014-01-27 LINEAGE is the second book in the science-fantasy series THE TECHNOMAGE ARCHIVE, blending a science-fiction world with an epic fantasy plot and conventions. Lasers, space ships, dragons, and magic. If LORD OF THE RINGS and STAR WARS had a baby, they might have named it LINEAGE. -- Ennd's Academy is under attack. Ceril Bain is on the run, only a day after waking up from a coma and learning that his arm and leg have been ripped off. With terrorists killing everyone around them, Ceril's team barely escape with their lives. They go to the only place they think they can get some answers--Ceril's grandfather's house. While there, an energy storm forms in the garden where Ceril found his Flameblade over six years ago. Instead of being torn apart by the storm, however, Ceril and his team are transported back to Jaronya, the toxic Instance that almost killed them all three months before. This time around, though, Ceril and the others are helped by a friendly angel named Watcher. Despite this advantage, they are kidnapped and imprisoned by creatures known as Wardens and come face to face with a sentient city named Helia. All the while, Ceril's grandfather--now using his real name of Damien Vennar--is having quite an adventure of his own. After having his home invaded and his book of secrets stolen, he had gone to Ennd's Academy to find some answers. While there, he discovered the new headmaster was in league with a man who has stolen his former identity: that of a legendary demigod known as the Untouchable. As he continues on his quest for answers, Damien discovers just how much he has changed over the years. Once a ruthless demigod with the power to create universes, he has spent the past five hundred years learning how to be an ordinary man. Damien Vennar now must decide who he wants to be: the all-powerful Untouchable of legend or the kind-hearted and soft-spoken Gramps of Ceril's childhood. Either way, Damien and Ceril's lives will never be the same again.

The Witchkin Murders Diana Pharaoh Francis, 2019-06-07 *The Witchkin Murders* is a supernatural police procedural with interesting characters who are full of secrets and a plot that is full of twists and turns. A fun read. --Anne Bishop, New York Times bestselling author of *Wild Country* Four years ago, my world--the world--exploded with wild magic. The cherry on top of that crap cake? The supernatural world declared war on humans, and my life went straight to hell. I used to be a detective, and a damned good one. Then *Magicfall* happened, and I changed along with the world. I'm witchkin now--something more than human or not quite human, depending on your perspective. To survive, I've become a scavenger, searching abandoned houses and stores for the everyday luxuries in short supply--tampons and peanut butter. Oh, how the mighty have fallen, but anything's better than risking my secret. Except, old habits die hard. When I discover a murder scene screaming with signs of black magic ritual, I know my days of hiding are over. Any chance I had of escaping my past with my secret intact is gone. Solving the witchkin murders is going to be the hardest case of my life, and not just because every second will torture me with reminders of how much I miss my old life and my partner, who hates my guts for abandoning the department. But it's time to suck it up, because if I screw this up, Portland will be wiped out, and I'm not going to let that happen. Hold on to your butts, Portland. Justice is coming, and I don't take prisoners. About the Author: Diana Pharaoh Francis is the acclaimed author of a dozen novels of fantasy and urban fantasy. Her books have been nominated for the Mary Roberts Rinehart Award and RT's Best Urban Fantasy. *The Witchkin Murders* is the first book in her exciting new urban fantasy series--*Magicfall*. While Centauri citizens continue to rebuild their war-torn planet, their secret masters work feverishly toward one ultimate goal: to crush the Interstellar Alliance once and for all. As the Drakh carry out their horrific plans, Emperor Londo Mollari languishes on his throne, a puppet of the Drakh-

bred keeper, an insidious creature that monitors his every thought, word, and action. While the emperor broods, the power-obsessed Lord Durla -- an unwitting Drakh pawn -- follows his own agenda. But Drakh control is not absolute. Vir Cotto -- a most unlikely hero -- has begun a resistance movement, and Alliance President John Sheridan has sent his most trusted troubleshooter, Michael Garibaldi, to investigate. Yet this move may prove costly, and though the Centauri continue to build a new military machine, the Alliance avoids any overt confrontation, hoping the problem will go away. They're about to discover how wrong they are...

It's the first time Elric--a member of the ruling Circle--has hosted such a gathering, and if all goes well, Galen and the other apprentices will emerge triumphant from the grueling initiation rites, ready to embrace their roles as full mages among the most powerful beings in the known universe. But rumors fly of approaching danger and Galen and his young lover, Isabelle, are chosen to investigate the dark tidings. An ancient race has awakened after a thousand years, thirsty for war, slaughter, and annihilation. Will the techno-mages be the deciding factor in the war ahead? Or the first casualties?

That is, until something freaky happens that no amount of med school could have prepared her for. By the time Alex gets herself together, the body has disappeared and the other residents of the morgue start talking her ear off. After working up the courage to report the missing body, Alex is transferred to the mysterious Precinct 13 where she discovers that her new co-workers—including a cute technomage named Jack—are paranormals just like her.
