The Rational Shakespeare Michael Wainwright, 2018-08-22 The Rational Shakespeare: Peter Ramus, Edward de Vere, and the Question of Authorship examines William Shakespeare's rationality from a Ramist perspective, linking that examination to the leading intellectuals of late humanism, and extending those links to the life of Edward de Vere, Seventeenth Earl of Oxford. The application to Shakespeare's plays and sonnets of a game-theoretic hermeneutic, an interpretive approach that Ramism suggests but ultimately evades, strengthens these connections in further supporting the Oxfordian answer to the question of Shakespearean authorship.

Shared Society or Benign Apartheid? John Nagle, Mary-Alice C. Clancy, 2010-09-17 This book analyses the role power sharing, social movements, economic regeneration, urban space, memorialisation and symbols play in transforming divided societies into shared peaceful ones. It explains why some projects are counterproductive while others assist peace-building.

Very British Rebels? James W. McAuley, 2016-01-01 Challenging traditional narrow views, this unique work proposes to rethink and reinterpret Ulster loyalism from the beginning of the Troubles to the present day, by tracing its religious, paramilitary, political, and community influences. The work examines the core values of loyalist communities, the roots of violence, and the shift toward peaceful coexistence with former enemies. Also discussed are the DUP's claims that it represents loyalism's true voice along with the complex and varying degrees of commitment to the Crown, the Protestant Faith, and the British governance of Northern Ireland. Lastly, it looks at how cultural expressions of loyalist identity, such as poetry or cartoons, are being used in the (re)construction of a loyalist

memory. Written by a leading expert on Ulster loyalism, the work is based on extensive interviews with loyalists and loyalist literature to provide an inside account of the processes of loyalist identity formation and transformation. Drawing on political science, sociology and cultural studies, it will appeal to anyone interested in Irish politics as well as conflict and peace processes.

Plant Defenses Against Mammalian Herbivory R. Thomas Palo, Charles T. Robbins, 1991-08-12 This volume summarizes what is currently known about mammalian herbivore-plant interaction, particularly as governed by plant secondary chemistry, and suggests productive avenues for future research. Topics covered include foraging theory and plant chemistry in mammal herbivory; the evolution of herbivory in relation to plant defenses; factors controlling resource allocation to defenses in plants; mechanisms by which herbivorous mammals can counter plant defenses to gain necessary energy and nutrients; and herbivory in deserts, temperate and tropical forests, and boreal forests. Wildlife biologists, agriculturalists, physiologists, nutritionists, ecologists, evolutionary biologists and other researchers interested in mammalian herbivore-plant interaction will find a tremendous store of useful information in this unique book.

Emancipating Lincoln Harold Holzer,2012-03-13 Emancipating Lincoln seeks a new approach to the Emancipation Proclamation, a foundational text of American liberty that in recent years has been subject to woeful misinterpretation. These seventeen hundred words are Lincoln's most important piece of writing, responsible both for his being hailed as the Great Emancipator and for his being pilloried by those who consider his once-radical effort at emancipation insufficient and half-hearted. Harold Holzer, an award-winning Lincoln scholar, invites us to examine the impact of Lincoln's momentous announcement at the moment of its creation, and then as its meaning has changed over time. Using neglected original sources, Holzer uncovers Lincoln's very modern manipulation of the media-from his promulgation of disinformation to the ways he variously withheld, leaked, and promoted the Proclamation- in order to make his society-altering announcement palatable to America. Examining his agonizing revisions, we learn why a peerless prose writer executed what he regarded as his 'greatest act' in leaden language. Turning from word to image, we see the complex responses in American sculpture, painting, and illustration across the past century and a half, as artists sought to criticize, lionize, and profit from Lincoln's endeavor. Holzer shows the faults in applying our own standards to Lincoln's efforts, but also demonstrates how Lincoln's obfuscations made it nearly impossible to discern his true motives. As we approach the 150th anniversary of the Proclamation, this concise volume is a vivid depiction of the painfully slow march of all Americans-white and black, leaders and constituents-toward freedom. -- Publisher description.
