At times funny, intense, and interesting, you will get a driver's perspective on what its like to be a driver for the biggest ridesharing company in the world, Uber.

Spent behind the Wheel Julietta Hua,Kasturi Ray,2021-12-21 Exploring professional passenger driving and the gig economy through feminist theories of labor Are taxi drivers in today's era of the ride-hail app performing care work akin to domestic and household labor? So argue the authors of *Spent behind the Wheel*. Bringing together sociological and legal perspectives with feminist theoretical insights, Julietta Hua and Kasturi Ray examine the case study of contemporary professional passenger driving in the United States. On the one hand, they show, the rise of the gig economy has brought new attention to the industry of professional passenger driving. On the other hand, the vulnerabilities that professional drivers experience remain hidden. Drawing on interviews with drivers, labor organizers, and members of licensing commissions, as well as case law and other published resources, Hua and Ray argue that working for ride-hail companies like Uber and Lyft shares similarities with driving for taxi companies in the impact on driver lives. Lyft and Uber sell the idea of industry disruption, but in fact they entrench long-standing modes of extracting the reproductive labor of their drivers for the benefit of consumer lives. Reproductive labor—conventionally understood as feminized labor—is extracted, but masked, behind the masculinized, racialized bodies of drivers. Professional driving is thus best understood alongside domestic and other gendered service work as reproductive labors devalued and often demonetized to benefit the national economy. *Spent behind the Wheel* is a must for readers interested in critical studies of technological change and the gig economy, showing how drivers' capacities are drained for the benefit of riders, corporations, and the maintenance of the racial state.

The Rideshare Guide Harry Campbell,2018-04-03 An industry leader's guide to making Lyft and Uber work for you. The Rideshare Guide offers a comprehensive and engaging handbook for current and prospective rideshare drivers. Learn how to: Decide between Uber and Lyft Maximize passengers and profits Maintain a five-star rating Keep safe and interact appropriately with passengers Navigate legal matters and tax codes Campbell explains these and much more, also including funny, shocking, and bizarre tales from the road. Whether you are thinking about becoming a driver or a veteran wondering about UberPool and tax help, The Rideshare Guide by the Rideshare Guy has the answers.

Anthology of an Uber Driver's Experiences Burton Hochberg, 2016-04-15 After driving for Uber for a short time, I realized that I had the fodder for another book. Unique stories were happening in my car every day. I did not start out with the thought of eventually writing or even publishing a book. All I did was to build files with anecdotal material. I called the files Uberisms. Upon conclusion of the first file, I printed copies of it and distributed it to my riders while continuing to write Uberism: Book2. I repeated the process I started, and upon conclusion of the second chapter, I printed copies of it to distribute to my riders. That became an expensive process. Since these files could be found on Facebook, I just chatted with my riders about Uberisms and told them how to access them on the computer. It was at that point that I gave consideration to publishing a book. At that point, the number of individual Uberisms reached five files, totaling about seventy-five thousand words, and it was time to publish my works, but I needed an all-encompassing title. That was the birth of *Analogy of an Uber Drivers Experiences*.

Buzz Ride P. M. White, 2017-08-17 A Darkly Comedic Coming of (Middle) Age Adventure - Why would a financially-comfortable, fifty-something father of two-with a Mercedes-drive Uber late at night on the toughest streets of Chicago? Pat White (pseudonym), a financial advisor and business strategist, decided to go undercover to research how the disruptive technology of ridesharing affects commerce. Soon his business study warped into a study of humanity . . . and himself. This reserved Baby Boomer first had to face his fear of picking up strangers in his own car and driving them to unknown locations. Most were over-privileged, over-served Millennials in route to their next adrenaline rush or wherever they were crashing for the night. Some treated him like he was invisible--making out, arguing, discussing sex and drugs, and lying to lovers on the phone about their whereabouts as if no one else were in the car. Others wished him to partake in their partying or craved his counsel on the most intimate details of their lives. Still others were just looking to pick a fight. Rarer were the tired and the timid: those returning to family after working long hours with hopes of a brighter tomorrow, those fleeing abuse, and those just fleeing a thunderstorm. This summer experiment took White down roads he never imagined he would travel. Soon he found himself embracing danger, longing for the thrill of voyeuristic glimpses into private lives made public, and facing the depths of his shadow personality. Come along for the bumpy ride as this sharp-tongued observer shares the always wild, sometimes dark, often humorous, and surprisingly touching side of Chicago nightlife in the smart-phone generation. Hop into the Back of Patrick's Silver Benz and Buckle Up!

Ben Phillips enjoys an intimate glimpse into the lives of ordinary people around Sydney -- from their morning routines to their despair after a date gone wrong, the trip out to the city and the drunken ride home afterwards. He acts as a sounding board, takes the rap for loud music, sees people at their finest and weakest, and most importantly gets to observe a cast of thoroughly extraordinary characters that make a big metropolis. Featured on ABC The Drum, The Today Show and KIIS FM, Ben Phillips' wry wit and insight have taken Sydney by storm. *Diary of an Uber Driver* is a snapshot of our unerring propensity to share, and overshare, from the safe anonymity of the back seat. These are your stories -- whether you remember telling them or not.

Uber's Disruption of the Taxi Industry in Australia Caroline Mutuku, 2018-07-11 Essay from the year 2018 in the subject Business economics - Investment and Finance, grade: 1.5, , language: English, abstract: Uber has disrupted the Australian Taxi industry by dominating the market because it is easy to access and it is also cheap compared to other transport services such as the taxis. This ride sharing business is well funded by the entrants hence challenging the taxi industry. The taxi drivers are concerned that Uber are not regulated (not bound by the same taxi regulatory structures) implying that they are able to compete in uneven playing field thus getting a competitive advantage over the taxi drivers. The taxi drivers argue that Uber drivers escape the regulatory costs hence making them illegal or unfair in the taxi industry. As a result, this ride sharing business is disrupting the taxi industry according to most of the incumbents in these industries.
