O projeto inacabado de uma teoria da decisão judicial

Rafael Alem Mello Ferreira, 2021-01-12 O Projeto Inacabado de uma Teoria da Decisão Judicial discute, problematiza e enfrenta tudo aquilo que está latente em uma doutrina resignada. Uma má compreensão acerca do conceito de positivismo. Um senso comum teórico que não toma a discricionariedade judicial como o problema que é. A insistência em uma noção quase que de linguagem privada, mesmo após o giro linguístico, mesmo após Heidegger e Gadamer (e, por que não, Wittgenstein). Uma recepção absolutamente inadequada da proporcionalidade em Alexy. Um neoconstitucionalismo que, na busca de superar um espantalho por ele próprio criado, abre uma verdadeira Caixa de Pandora. O pamprincipiologismo que, a partir de argumentos retóricos travestidos de princípio, serve de justificativa ad hoc e ex post facto para verdadeiras escolhas arbitrárias. O dualismo metodológico que, no xxi, remonta ao xix com ares de novidade. De um lado, um completo e desrespeitoso descaso com a força normativa da Constituição e seus princípios; de outro, uma (inauténtica) jurisdição constitucional que constitucionaliza tudo e, ao fazê-lo, ignora que o Direito tem seus ramos, e seus ramos têm seus estatutos epistemológicos específicos. Uma dogmática rasa e cronomóbica, incapaz de compreender a dimensão temporal do fenômeno a que chamamos Direito. Uma equivocada cisão entre texto e norma, entre interpretação e aplicação. Emotivismo, ceticismo, subjetivismo. Como se pode ver, os problemas são grandes e são muitos. Mas a solução passa exatamente por enfrentá-los: é de seu enfrentamento que exsurge o caminho para as possíveis respostas. Com a Crítica Hermenêutica do Direito, eu tenho algumas. Autonomia do Direito. Criteriologia. Uma interpretação autêntica da força normativa da Constituição. Princípios que são, de fato, princípios de moralidade política, adequados à tradição. Ajuste institucional. Coerência. Integridade. Suspensão de pré-juízos. Responsabilidade política. E uma teoria

da decisão. Na luta por decisões democráticas. Rafael, com coragem – como deve ser –, coloca-se nessa mesma luta. Sabendo reconhecer que também se pode fazer Teoria do Direito no Brasil, e desenvolvendo seus próprios caminhos a partir da luz da Crítica Hermenêutica do Direito, Rafael vai na contramão da doutrina resignada e complacente; e ir na contramão é, às vezes, exatamente a tarefa de quem quer democracia em tempos nos quais aplicar a lei é um ato revolucionário.

Programa Esporte e Lazer da UFRJ Leandro da Silva Fernandes,Ovidio Orlando Filho,Elaine Maria de Andrade Senra,2024-03-19 Este livro teve por objetivo apresentar um estudo avaliativo realizado no sentido de aferir por meio de um processo avaliativo, o mérito e o valor de um importante programa social instituído como parte integrante da Política de Assistência Estudantil da Universidade Federal do Rio de Janeiro (UFRJ), o Programa Esporte e Lazer. A permanência estudantil sempre foi um tema de grande interesse por parte de estudiosos, em todos os níveis da oferta de ensino no Brasil. No campo legal, tanto a Constituição quanto diferentes instrumentos legais disciplinam amplamente sobre o assunto. A obra mostra que o Programa Esporte e Lazer favorece o acesso às atividades físicas, esportivas e de lazer pelo corpo discente da UFRJ, atendendo quanto aos fatores que envolvem o funcionamento do Programa e às contribuições para o bem-estar e/ou para a melhoria da qualidade de vida de seus participantes.

Avaliação dos cursos internos de capacitação da UNIRIO
Tathiana Teixeira Tavares,Ovidio Orlando Filho,Elaine Maria de Andrade Senra,2024-03-19 O objetivo deste livro é o de apresentar um estudo avaliativo sobre os cursos internos de capacitação oferecidos aos servidores técnico-administrativos em educação da Universidade Federal do Estado do Rio de Janeiro (UNIRIO), considerando as dimensões suporte à transferência de

treinamento e impacto do treinamento no trabalho. A avaliação mostrou que existe, no contexto da UNIRIO, um bom impacto do treinamento no trabalho e que o suporte oferecido pela Instituição, chefias e colegas é fundamental para que os impactos positivos no desempenho, motivação e atitudes sejam duradouros.

Autoavaliação Institucional No UNIFESO 15 Anos de Avaliação Transformadora Jose Feres Miranda, Flávio Eduardo Morgado, Maria Beatriz de Moraes, Rosangela Crisostono, 2015-08-17 A

Autoavaliação Institucional é uma prática que realimenta a busca pela qualidade do ensino e se torna efetiva a partir da apropriação dos atores do processo. Assim, diferentes experiências são vividas nos cursos de graduação em relação aos projetos que compõem o Programa de Autoavaliação Institucional (PAAI) do Centro Universitário Serra dos Órgãos-UNIFESO. Neste segundo volume, os leitores poderão conhecer como os projetos Teste de Progresso e Avaliação Docente se desenvolvem nos Centros de Ensino do UNIFESO, evidenciando a consolidação do princípio da avaliação formativa. O livro se constitui como uma leitura de interesse para os profissionais que atuam no ensino ou na área de avaliação educacional. O livro está organizado em três partes que correspondem aos Centros de Ensino, apresentados por ordem de antiguidade dos cursos na instituição: Parte I - Centro de Ciências da Saúde; Parte II - Centro de Ciências Humanas e Sociais; e Parte III - Centro de Ciências e Tecnologia. A Parte I apresenta sete capítulos (1 ao 7) correspondentes aos cursos de: Medicina, Enfermagem, Odontologia, Fisioterapia, Farmácia, Medicina Veterinária e Ciências Biológicas. A Parte II é composta de três capítulos (8 a 10) : Administração e Ciências Contábeis, Pedagogia e Direito. A Parte III apresenta dois capítulos (11 e 12): Ciência da Computação e Engenharia Ambiental e Sanitária e Engenharia de Produção.

Administração: Estudos Contemporâneos Elói Martins

Senhoras,2022-12-24 O campo científico da Administração tem passado por uma evolução incremental de discussões e publicações no Brasil em função das rápidas transformações organizacionais e acadêmicas a partir da década de 1990, razão pela qual a presente obra apresenta discussões contemporâneas a fim de corroborar com a comunidade epistêmica emergente nas últimas décadas. Partindo da relevância que o pensamento administrativo possui nas esferas pública e privada, este livro corrobora com um campo epistêmico em maturação no Brasil, preenchendo assim uma lacuna sobre estudos de casos empíricos na temática que levam em consideração da realidade empírica posta em prática a partir de diferentes regiões do país. Não é por acaso que esta obra contou com a participação de uma rede nacional de 21 pesquisadoras e pesquisadores, oriundos de instituições públicas e privadas de ensino superior de diferentes estados das regiões Norte, Nordeste, Centro-Oeste, Sudeste e Sul - propiciando, assim, uma imersão nas especificidades do complexo caleidoscópio da Administração nas distintas realidades

do país. A construção deste livro em 10 capítulos somente foi possível em função do trabalho coletivo desenvolvido a várias mãos por uma rede de profissionais que se uniram com o objetivo de trocar ideias e experiências sobre um conjunto de temas existentes na realidade empírica brasileira à luz do confluente olhar do campo de estudos da Administração. Caracterizada por um paradigma eclético de teorias e marcos conceituais, bem como pelo uso do método dedutivo para criar uma agenda de estudos exploratórios, descritivos e explicativos quanto aos fins e qualitativos quanto aos meios, a presente obra tem o objetivo de demonstrar a relevância estratégica do pensamento administrativo para compreender e projetar a realidade empírica. Com base nos debates e discussões que emergiram ao longo dos capítulos desta obra, uma panorâmica agenda temática de estudos administrativos é apresentada com relevantes subsídios para o potencial público leitor, composto, tanto, por interessados ávidos por novas informações e conhecimentos, quanto, por acadêmicos e especialistas atuantes na área. Alicerçado na pluralidade do pensamento, no estado da arte e na capacidade dialógica dos estudos com a fronteira do conhecimento no campo da Administração, este livro constrói fundamentos para a análise e interpretação de fatos e ideias contemporâneas, propiciando uma oportunidade ímpar para um amplo público de leitores se enriquecer teórica e metodologicamente com uma agenda temática aberta de estudos.

Endocrinologia Ginecologia Clínica e Infertilidade Leon Speroff, 2019-01-09 A oitava edição de Endocrinologia Ginecológica Clínica e Infertilidade veio para consolidar a trajetória bem-sucedida de um clássico absoluto da literatura médica. Nesta nova edição, o que havia de bom foi não só mantido como ampliado. Além de novos capítulos, o texto foi ampliado e novas figuras foram acrescentadas. O estilo literário simples e objetivo, que evita jargões médicos e que não teme tirar conclusões clínicas relevantes e fazer recomendações com base em conhecimento

médico atual, foi mantido.

Revista Brasileira de medicina ,2009

Multidisciplinarity and Interdisciplinarity in Health Nima Rezaei, 2022-08-02 The contributed volume Multidisciplinarity and Interdisciplinarity in Health is a health-centered volume of the Integrated Science Book series. Lack of confidence, lack of expertise, complexities of healthcare, the confusing nature of healthcare environments, and lack of organization and standardization can become obstacles to successful

communication. This volume establishes how extensive is the interface between formal sciences and medical sciences on health-related issues. The book provides an overview of the value of the integration of formal, biological, and medical sciences and related products, i.e., health informatics and biomedical engineering, to frame a holistic approach to health systems, healthcare, medical practice, drug discovery, and medical device design. The book also focuses on innovative solutions to the most critical issues of different health crisis, including obesity, infectious outbreaks, and cancer that can be found by using an integrative approach. It also contains the fascinating crossroads between medical sciences, physics, and mind that is discussed from multiple perspectives on cognition, neuroscience, and psychiatry. These multidisciplinary considerations will expand the concepts of creativity, leadership, aesthetics, empathy and mental health.

Sustainability and Toxicity of Building Materials Emina

K. Petrović,Morten Gjerde,Fabricio Chicca,Guy

Marriage,2024-02-10 Sustainability and Toxicity of Building Materials: Manufacture, Use and Disposal Stages provides a review of toxicity impacts from building materials, including the consideration of the toxicity in the extraction and manufacture of the materials and eventual dismantling and disposal. This book also offers the potential to stimulate future developments in this area, both in terms of knowledge-building and methods for future research. With the increasing emphasis on sustainable construction, it has become important to better understand the impacts of common materials. Civil and structural engineers, postgraduates, researchers as well as architects will find this book to be useful in selecting sustainable building materials. While many building and furnishing materials are safe to use, in recent decades, some have had to be redesigned due to recognition that they contained problem chemicals like formaldehyde. Unfortunately, there is still limited understanding of the toxic impacts of many synthetic chemicals which means that the risks in

this area are not well recognized. With increasing interest in using limited resources more sustainably, definitions of what is sustainable should be expanded to move from the focus on energy and carbon impacts to also include more explicit consideration of toxicity impacts. Examines toxicity in the extraction and manufacturing of materials Presents the short and long-term toxicity effects of natural and manmade building materials Guides readers in selecting building materials that have a positive impact on the health of occupants and the environment

Data Analysis and Related Applications, Volume 2

Konstantinos N. Zafeiris, Christos H. Skiadas, Yiannis Dimotikalis, Alex Karagrigoriou, Christiana Karagrigoriou-Vonta, 2022-10-25 The scientific field of data analysis is constantly expanding due to the rapid growth of the computer industry and the wide applicability of computational and algorithmic techniques, in conjunction with new advances in statistical, stochastic and analytic tools. There is a constant need for new, high-quality publications to cover the recent advances in all fields of science and engineering. This book is a collective work by a number of leading scientists, computer experts, analysts, engineers, mathematicians, probabilists and statisticians who have been working at the forefront of data analysis and related applications. The chapters of this collaborative work represent a cross-section of current concerns, developments and research interests in the above scientific areas. The collected material has been divided into appropriate sections to provide the reader with both theoretical and applied information on data analysis methods, models and techniques, along with related applications.

The Palgrave International Handbook of Action Research

Lonnie L. Rowell,Catherine D. Bruce,Joseph M. Shosh,Margaret M. Riel,2016-10-26 The Palgrave International Handbook of Action Research offers a vivid portrait of both theoretical perspectives and practical action research activity and related benefits around the globe, while attending to the cultural, political, social, historical and ecological contexts that localize, shape and characterize action research. Consisting of teachers, youth workers, counselors, nurses, community developers, artists, ecologists, farmers, settlement-dwellers, students, professors and intellectual-activists on every continent and at every edge of the globe, the movement sustained and inspired by this community was born of the efforts of intellectual-activists in the mid-twentieth century specifically: Orlando Fals Borda, Paulo Freire, Myles Horton, Kurt Lewin. Cross-national issues of networking, as well as the challenges, tensions, and issues associated with the transformative power of action research are explored from multiple perspectives providing unique contributions to our understanding of what it means to do action research and to be an action researcher. This handbook sets a global action research agenda and map for readers to consider as

they embark on new projects.

Globalization and Health Inequities in Latin America

Ligia Malagón de Salazar, Roberto Carlos Luján Villar, 2018-04-16

This book critically analyses the influence of international policies and guidelines on the performance of interventions aimed at reducing health inequities in Latin America, with special emphasis on health promotion and health in all policies strategies. While the implementation of these interventions plays a key role in strengthening these countries' capacity to respond to current and future challenges, the urgency and pressures of cooperation and funding agencies to show results consistent with their own agendas not only hampers this goal, but also makes the territory invisible, hiding the real problems faced by most Latin American countries, diminishing the richness of local knowledge production, and hindering the development of relevant proposals that consider the territory's conditions and cultural identity. Departing from this general analysis, the authors search for answers to the following questions: Why, despite the importance of the theoretical advances regarding actions to address social and health inequities, haven't Latin American countries been able to produce the expected results? Why do successful initiatives only take place within the framework of pilot projects? Why does the ideology of health promotion and health in all policies mainly permeate structures of the health sector, but not other sectors? Why are intersectoral actions conjunctural initiatives, which often fail to evolve into permanent practices? Based on an extensive literature review, case studies, personal experiences, and interviews with key informants in the region, Globalization and Health Inequities in Latin America presents a strategy that uses monitoring and evaluation practices for enhancing the capacity of Latin American and other low and middle-income countries to implement sustainable processes to foster inclusiveness, equity, social justice and human rights. p/pp

Role of Information Science in a Complex Society Silva, Elaine da, Valentim, Marta Lígia Pomim, 2021-01-15 The field of Information Science is intertwined with the complexity present in society. The study object in this field refers to data, information, and knowledge generated, mediated, and appropriated by different individuals in the most diverse human activities. Thus, discussing complex issues that are intertwined with information management, knowledge management, innovation management, organizational intelligence, information mediation, information appropriation, and information literacy is essential for understanding the future perspectives of digital humanity. *Role of Information Science in a Complex Society* presents discussions that can be applied to local, regional, and national policies aimed at economic and social development and supports innovative actions in economic segments that depend on innovation. Highlighting topics that include information literacy, ethics, knowledge management, and organizational learning, this book is an ideal reference source for academicians, professionals, researchers, and students, as well as entrepreneurs from different economic segments.
