**Video-Assisted Thoracic Surgery (VATS)** Todd L. Demmy, 2001-01-01 Video-assisted thoracic surgery (VATS) or thoracoscopy has been applied to almost every organ system within the chest. Frequently, confusion has arisen regarding the appropriate application of this technology and the preparation needed to provide it to patients. Pertinent topics for discussion are preoperative imaging/localization, anesthesia/airway management patient positioning, video/assistant positioning, special supplies, and postoperative care. The purpose of this book is to provide a framework based on these and other issues to share helpful technical tips, assist operating room personnel preparing supplies, limit unnecessary costs, and define VATS limitations as well as its present role in the overall scheme of thoracic surgery.

**Modernizing VATs in Africa** Sijbren Cnossen, 2019-07-12 Most African countries are in dire need of more tax revenue. In 28 out of 45 countries with a value-added tax (VAT), total tax revenue as a percentage of GDP is around 15% or less, falling short of what is necessary to finance basic human and economic development. Far from being revenue-raising instruments, current African VATs are riddled with exemptions, exclusions, and zero rates on domestic goods and services that depress revenue, are highly distortionary, and greatly complicate the administration of VAT. Modernizing VATs in Africa enables policymakers, professionals, and students to analyse African tax systems to ascertain how they can be modernized. It explains the case for VAT base-broadening over rate-increasing, arguing that exemptions and zero rates mainly accrue benefits for higher-income groups. Even more persuasively, it demonstrates that the net result of fiscal systems can be equalizing if the revenue of broad-based VATs is used to finance in-kind transfers, such as healthcare and education. VAT modernization should be used to enable governments to finance development; Modernizing VATs in Africa puts a compelling case forward for how and why this can be achieved.

**Eighteen Vats of Water** Ji-Li Jiang, 2022-04-05 As long as he can remember, Xian has wanted to be a great calligrapher, like his father. When he turns six, he's finally old enough to start studying. Calligraphy is more than writing--it's painting--and Xian learns how much work and creativity go into what look like effortless strokes. Based on stories still told about Xian and his father, famous calligraphers of the 17th century, *Eighteen Vats of Water* is about determination, creativity, and learning how to see, as well as the importance of family traditions.

**Rats, Bats and Vats** Dave Freer,Eric Flint,2000-09-01 ALIENS: BEWARE OF LOW-FLYING

AGRICULTURAL MACHINERY Chip Connolly was a conscripted grunt in trouble. Here he was, stuck behind enemy lines with a bunch of cyber-uplifted rats and bats. Rats with human speech, but with rat values. Rats that knew what was worth fighting for: sex, food and strong drink. True, they were holed up on a ruined wine-farm with enough brandy to swim in. Trouble was, there wasn't much food. And with shrew-metabolism the rats had to eat. He was next on the menu. The bats were no help: they were crazy revolutionaries planning to throw off the yoke of human enslavement with high explosive. As if that wasn't bad enough, there was the girl they'd rescued. Rich. Beautiful. With a passionate crush on her heroic rescuer. She came with added extras: a screwball Alien tutor, and a cyber-uplifted pet galago a tiny little lemurlike-critter with a big mouth and delusions about being the world's greatest lover. So: he'd volunteered for a suicide mission. Of course things only got worse. The whole crew decided to come along. Seven rats, five bats, a galago, two humans, a sea-urchin-like alien and an elderly vineyard tractor without brakes . . . against several million inimical aliens. He was going to die. Mind you, not dying could be even more terrible. That girl might get him. At the publisher's request, this title is sold without DRM (Digital Rights Management).

*The Color of Creatorship* Anjali Vats, 2020-09-29 *The Color of Creatorship* examines how copyright, trademark, and patent discourses work together to form American ideals around race, citizenship, and property. Working through key moments in intellectual property history since 1790, Anjali Vats reveals that even as they have seemingly evolved, American understandings of who is a creator and who is an infringer have remained remarkably racially conservative and consistent over time. Vats examines archival, legal, political, and popular culture texts to demonstrate how intellectual properties developed alongside definitions of the good citizen, bad citizen, and intellectual labor in racialized ways. Offering readers a theory of critical race intellectual property, Vats historicizes the figure of the citizen-creator, the white male maker who was incorporated into the national ideology as a key contributor to the nation's moral and economic development. She also traces the emergence of racial panics around infringement, arguing that the post-racial creator exists in opposition to the figure of the hyper-racial infringer, a national enemy who is the opposite of the hardworking, innovative American creator. *The Color of Creatorship* contributes to a rapidly-developing conversation in critical race intellectual property. Vats argues that once anti-racist activists grapple with the underlying racial structures of intellectual property law, they can better advocate for strategies that resist the underlying drivers of racially disparate copyright, patent, and trademark policy.

*MY BLOODY BIPOLAR MIND* DR AMBRISH VATS,2021-04-17 I cut the dead body like a butcher. Though the incisions were medically and forensically correct, they were merciless, fast and forceful. I made a Y shaped incision from the shoulders up to the pubis. I was in extreme hurry to take out, see and study the organs. I took out the organs... the heart, lungs, liver, spleen and kidneys. I saw them and studied them meticulously. I was with my girlfriend Namita, who was repeatedly asking me to leave the post-mortem section as it was not allowed for us, final year medical students but I did not listen to her. I was a final year MBBS student and it was not right to go to the post-mortem section and cut a human body but I was so curious I could not resist. It was hypomania! It was my bloody bipolar mind!

**From Pots and Vats to Programs and Apps** William Henry,Gordon Haff,2017-08-17 Not everything about computers and software these days is related to packaging, but a lot is. How can users acquire software faster and run it more easily? How should software be packaged up so that we can run it wherever we like? How do we resolve the tensions between the siren song of public cloud convenience and open source freedom and flexibility? In this book, Red Hat's Gordon Haff and William Henry take you on a journey through the history of packaging, pointing out along the way the clear parallels to how software packaging has evolved and continues to evolve. The retail industry and other packaging pioneers have had many lessons to teach and much to say about how we should think about software packaging. Today, open source software innovations in automation, container platforms, and assured software supply chains increasingly support the user directly, rather than just serving as a way to box up some bits. They simplify, integrate, and improve the overall software experience in the way that consumers accustomed to smartphones and on-demand content expect.
