Lectures on Antitrust Economics Michael D. Whinston,2008-01-25 Antitrust law regulates economic activity but differs in its operation from what is traditionally considered regulation. Where regulation is often industry-specific and involves the direct setting of prices, product characteristics, or entry, antitrust law focuses more broadly on maintaining certain basic rules of competition. In these lectures Michael Whinston offers an accessible and lucid account of the economics behind antitrust law, looking at some of the most recent developments in antitrust economics and highlighting areas that require further research. He focuses on three areas: price fixing, in which competitors agree to restrict output or raise price; horizontal mergers, in which competitors agree to merge their operations; and exclusionary vertical contracts, in which a competitor seeks to exclude a rival. Antitrust commentators widely regard the prohibition on price fixing as the most settled and economically sound area of antitrust. Whinston's discussion seeks to unsettle this view, suggesting that some fundamental issues in this area are, in fact, not well understood. In his discussion of horizontal mergers, Whinston describes the substantial advances in recent theoretical and empirical work and suggests fruitful directions for further research. The complex area of exclusionary vertical contracts is perhaps the most controversial in antitrust. The influential Chicago School cast doubt on arguments that vertical contracts could be profitably used to exclude rivals. Recent theoretical work, to which Whinston has made important contributions, instead shows that such contracts can be profitable tools for exclusion. Whinston's discussion sheds light on the controversy in this area and the nature of those recent theoretical contributions. Sponsored by the Universidad Torcuato Di Tella

The Garden of My Imaan Farhana Zia,2016-03-01 It's hard enough to fit in without also having to decide whether to fast for Ramadan or wear the hijab. Aliya already struggles with trying to fit in, feeling confident enough to talk to the cute boy or brave enough to stand up to mean kids—the fact that she's Muslim is just another part of her life. But then Marwa, a Moroccan girl who shares Aliya's faith if not her culture, moves to town. Marwa's quiet confidence leads Aliya to wonder even more about who she is, what she believes, and where she fits in. In a series of letters to Allah she writes for a Sunday school project, Aliya explores her dreams and fears, hoping that with hard work and faith, something beautiful will grow in the garden of imaan—the small quiet place inside where belief unfolds, one petal at a time. This award-winning novel from author and educator Farhana Zia captures the social and identity struggles of middle school with a fresh, new voice.

The Messy Baker Charmian Christie,2014-08-26 Since when did every cookie on the plate have to be just like the next? Or each layer of cake exactly the same height? Each piecrust an impeccable work of art and encircled by stunningly perfect pastry leaves? To the uninitiated, all that fastidious, spotless baking is intimidating, not to mention exhausting. The Messy Baker celebrates baking as it happens in the real world--sweet, messy, fun, not always gorgeous, but a way to show love. Which doesn't make it any less delicious; to the contrary, Charmian Christie's flavor combinations rise far above the ordinary. Why have a raspberry galette when you can enjoy a raspberry-rhubarb galette with drippy, unctuous walnut frangipane? Or how about a Brie and walnut whiskey tart? It's all yours without the rigid perfectionism or complicated instructions of other gourmet cookbooks. Christie's warm, irreverent voice brings the fun back into baking at a time when home cooks--pulled from pillar to post by jobs and errands--need to have fun. The Messy Baker is a full-service book that not only guides the reader through simple, delicious recipes but is also there to help out when things go wrong. For anyone who gave in frustration when that cake collapsed or the frosting smeared, Christie's practical advice is here to rescue even the worst disaster and inspire the baker to try the next recipe.

Blackout Chris Lamb,2006-03-01 Chronicles the story of Jackie Robinson's first spring training during 1946, a time when America was struggling with racism and segregation, as well as with the impact of the Second World War, documenting the player's ordeal on and off the field, the reaction of the black and white communities, the influence of the press, and Robinson's own determination and anxieties.

Rosie Loves Jack Mel Darbon,2021-03-02 Rosie is a sixteen-year-old girl with Down syndrome who's fighting for little freedoms, tolerance, and love. They can't send you away. What will we do? We need us. I stop your angry, Jack. And you make me strong. You make me Rosie. Rosie loves Jack. Jack loves Rosie. So, when they're separated, Rosie will do anything to find the boy who makes the sun shine in her head. Even run away from home. Even struggle across London and travel to Brighton, though the trains are canceled, and the snow is falling. Even though some people might think a girl with Down syndrome could never survive on her own. Introducing a strong, determined, and neurodiverse teen protagonist, debut author Mel Darbon gives readers a unique character experience with a much-needed, alternative point of view. This contemporary young adult novel is a voice-driven, heartfelt story of finding your place in a world that often leaves no room for outsiders.
