Rethinking Japanese Feminisms Julia C. Bullock,Ayako Kano,James Welker,2018-03-31

Rethinking Japanese Feminisms offers a broad overview of the great diversity of feminist thought and practice in Japan from the early twentieth century to the present. Drawing on methodologies and approaches from anthropology, cultural studies, gender and sexuality studies, history, literature, media studies, and sociology, each chapter presents the results of research based on some combination of original archival research, careful textual analysis, ethnographic interviews, and participant observation. The volume is organized into sections focused on activism and activists, employment and education, literature and the arts, and boundary crossing. Some chapters shed light on ideas and practices that resonate with feminist thought but find expression through the work of writers, artists, activists, and laborers who have not typically been considered feminist; others revisit specific moments in the history of Japanese feminisms in order to complicate or challenge the dominant scholarly and popular understandings of specific activists, practices, and beliefs. The chapters are contextualized by an introduction that offers historical background on feminisms in Japan, and a forward-looking conclusion that considers what it means to rethink Japanese feminism at this historical juncture. Building on more than four decades of scholarship on feminisms in Japanese and English, as well as decades more on women's history, Rethinking Japanese Feminisms offers a diverse and multivocal approach to scholarship on Japanese feminisms unmatched by existing publications. Written in language accessible to students and non-experts, it will be at home in the hands of students and scholars, as well as activists and others interested in gender, sexuality, and feminist theory and activism in Japan and in Asia more broadly. Broken Silence Sandra Buckley, 2023-09-01 *Broken Silence* brings together for the first time many of Japan's leading feminists, women who have been bucking the social mores of a patriarchal society for years but who remain virtually unknown outside Japan. While Japan is often thought to be without a significant feminist presence, these interviews and essays reveal a vital community of women fighting for social change. Sandra Buckley's dialogues with poets, journalists, teachers, activists, and businesswomen exemplify the diversity of Japanese feminism: we meet Kanazumi Fumiko, a lawyer who assists women in a legal system that has long discriminated against them; Kora Rumiko, a poet who reclaims and redefines language to convey her experiences as a woman; Nakanishi Toyoko, founder of the Japanese Women's Bookstore; and Ueno Chizuko, a professor who has tackled such issues as pornography and abortion reform both in and out of the academy. These women speak to a host of issues—the politics of language, the treatment of women in medicine and law, the deeply entrenched role of women as mothers and caregivers, the future of feminism in Japan, and the relationship between Japanese feminists and western feminisms. *Broken Silence* will do much to dispel Western stereotypes about Japanese women and challenge North American attitudes about feminism abroad. With a timeline, glossary, and comprehensive list of feminist organizations, this is a long overdue collection sure to inform and excite all those interested in feminism and Japan.

The Modern Family in Japan Chizuko Ueno, 2009 This award-winning book brings together Chizuko Ueno's groundbreaking essays on the rise and fall of the modern family in Japan. Combining historical, sociological, anthropological, and journalistic methodologies, Ueno - who is arguably the foremost feminist theoretician in Japan - delineates in vivid detail how the family has been changing in form and function in the last hundred years. In each chapter, Ueno introduces the reader to a different facet of modern Japanese family life, ranging from children who fantasize about being orphans to the elderly who confront 'pre-senescence.' The central focus is on the housewife - her history, her ever-changing responsibilities, her ways of surviving mid-life crisis. This is an indispensable book for students and scholars seeking to understand modern Japan.

Gender in Modern East Asia Barbara Molony, 2018-05-04 *Gender in Modern East Asia* explores the history of women and gender in China, Korea, and Japan from the seventeenth century to the present. This unique volume treats the three countries separately within each time period while also placing them in global and regional contexts. Its transnational and integrated approach connects the cultural, economic, and social developments in East Asia to what is happening across the wider world. The text focuses specifically on the dynamic histories of sexuality; gender ideology, discourse, and legal construction; marriage and the family; and the gendering of work, society, culture, and power. Important themes and topics woven through the text include Confucianism, writing and language, the role of the state in gender construction, nationalism, sexuality and prostitution, New Women and Modern Girls, feminisms, comfort women, and imperialism. Accessibly written and comprehensive, *Gender in Modern East Asia* is a much-needed contribution to the study of the region.

Nationalism and Gender Chizuko Ueno, 2004 Ueno (humanities and sociology, U. of Tokyo, Japan) explores interrelated issues of gender, war, history, and public memory. She first looks at Japanese women's support for aggressive war and their acceptance of the gender strategy for nationalizing women through mobilization. She next turns to the discursive battle over the Japanese treatment of

Who Owns Native Culture? Michael F. Brown, 2009-07-01 Documents the efforts of indigenous peoples to redefine heritage as a protected resource. Michael Brown takes readers into settings where native peoples defend what they consider to be their cultural property ... By focusing on the complexity of actual cases, Brown casts light on indigenous grievances in diverse fields ... He finds both genuine injustice and, among advocates for native peoples, a troubling tendency to mimic the privatizing logic of major corporations--Jacket.

Intimate Indigeneities Andrew Canessa, 2012-11-26 Analyzing the nuances of identity formation in rural Andean culture, Andrew Canessa draws on two decades of ethnographic research in a remote indigenous community in Bolivia's highlands.

Cultural Heritage in Transit Deborah Kapchan, 2014-04-03 Are human rights universal? The immediate response is yes, of course. However, that simple affirmation assumes agreement about definitions of the human as well as what a human is entitled to under law, bringing us quickly to concepts such as freedom, property, and the inalienability of both. The assumption that we all mean the same things by these terms carries much political import, especially given that different communities (national, ethnic, religious, gendered) enact some of the most basic categories of human experience (self, home, freedom, sovereignty) differently. But whereas legal definitions often seek to eliminate ambiguity in order to define and protect the rights of humanity, ambiguity is in fact inherently human, especially in performances of heritage where the rights to sense, to imagine, and to claim cultural identities that resist circumscription are at play. *Cultural Heritage in Transit* examines the intangibilities of human rights in the realm of heritage production, focusing not only on the ephemeral culture of those who perform it but also on the ambiguities present in the idea of cultural property in general—who claims it? who may use it? who should not but does? In this volume, folklorists, ethnologists, and anthropologists analyze the practice and performance of culture in particular contexts—including Roma wedding music, Trinidadian wining, Moroccan verbal art, and Neopagan rituals—in order to draw apart the social, political, and aesthetic materialities of heritage production, including inequities and hierarchies that did not exist before. The authors collectively craft theoretical frameworks to make sense of the ways the rights of nations interact with the rights of individuals and communities when the public value of artistic creations is constituted through international law. Contributors: Valdimar Tr. Hafstein, Deborah Kapchan, Barbro Klein, Sabina Magliocco, Dorothy Noyes, Philip W. Scher, Carol Silverman.

World Anthropologies Gustavo Lins Ribeiro, Arturo Escobar, 2020-07-13 Since its inception, anthropology's authority has been based on the assumption that it is a unified discipline emanating

from the West. In an age of heightened globalization, anthropologists have failed to discuss consistently the current status of their practice and its mutations across the globe. *World Anthropologies* is the first book to provoke this conversation from various regions of the world in order to assess the diversity of relations between regional or national anthropologies and a contested, power-laden Western discourse. Can a planetary anthropology cope with both the 'provincial cosmopolitanism' of alternative anthropologies and the 'metropolitan provincialism' of hegemonic schools? How might the resulting 'world anthropologies' challenge the current panorama in which certain allegedly national anthropological traditions have more paradigmatic weight - and hence more power - than others? Critically examining the international dissemination of anthropology within and across national power fields, contributors address these questions and provide the outline for a veritable world anthropologies project.

Natives Making Nation Andrew Canessa, 2011-08-01 In Bolivia today, the ability to speak an indigenous language is highly valued among educated urbanites as a useful job skill, but a rural person who speaks a native language is branded with lower social status. Likewise, chewing coca in the countryside spells "inferior indian," but in La Paz jazz bars it's decidedly cool. In the Andes and elsewhere, the commodification of indianness has impacted urban lifestyles as people co-opt indigenous cultures for qualities that emphasize the uniqueness of their national culture. This volume looks at how metropolitan ideas of nation employed by politicians, the media and education are produced, reproduced, and contested by people of the rural Andes—people who have long been regarded as ethnically and racially distinct from more culturally European urban citizens. Yet these peripheral "natives" are shown to be actively engaged with the idea of the nation in their own communities, forcing us to re-think the ways in which indigeneity is defined by its marginality. The contributors examine the ways in which numerous identities—racial, generational, ethnic, regional, national, gender, and sexual—are both mutually informing and contradictory among subaltern Andean people who are more likely now to claim an allegiance to a nation than ever before. Although indians are less often confronted with crude assimilationist policies, they continue to face racism and discrimination as they struggle to assert an identity that is more than a mere refraction of the dominant culture. Yet despite the language of multiculturalism employed even in constitutional reform, any assertion of indian identity is likely to be resisted. By exploring topics as varied as nation-building in the 1930s or the chuqila dance, these authors expose a paradox in the relation between indians and the nation: that the nation can be claimed as a source of power and distinct identity while simultaneously making some types of national imaginings unattainable. Whether dancing together or simply talking to one another, the people described in these essays are shown creating identity through processes that are inherently social and interactive. To sing, to eat, to weave . . . In the performance of these simple acts, bodies move in particular spaces and contexts and do so within certain understandings of gender, race and nation. Through its presentation of this rich variety of ethnographic and historical contexts, *Natives Making Nation* provides a finely nuanced view of contemporary Andean life.

Frostgrave: Thaw of the Lich Lord Joseph A. McCullough, 2015-11-20 *Thaw of the Lich Lord* is a complete campaign for Frostgrave that will challenge both new and veteran players. Through a series of linked scenarios, players discover the existence of a new power in the Frozen City, one who was old when the great city was still young, and who saw both its rise and its disastrous fall. Warbands will confront the Lich Lord's minions, race against his agents to seize possession of mysterious artefacts, and brave the perils of Frostgrave in search of his lair. Eventually, they will need to muster all their courage to venture into the depths of the city and face the Lich Lord himself. Not all wizards will seek to stop the Lich Lord, however, and full rules for giving into his corruption and following the dark road to becoming an undead lich are presented for those who crave power and immortality above all else. While the campaign presents many new threats against which wizards and their warbands must test themselves, including an expanded bestiary, it also offers additional resources, such as new henchmen that can be recruited and unique magical treasures that can spell the difference between survival and oblivion.

New Languages of the State Bret Gustafson, 2009-07-10 During the mid-1990s, a bilingual intercultural education initiative was launched to promote the introduction of indigenous languages alongside Spanish in public elementary schools in Bolivia's indigenous regions. Bret Gustafson spent fourteen years studying and working in southeastern Bolivia with the Guarani, who were at the vanguard of the movement for bilingual education. Drawing on his collaborative work with indigenous organizations and bilingual-education activists as well as more traditional ethnographic research, Gustafson traces two decades of indigenous resurgence and education politics in Bolivia, from the 1980s through the election of Evo Morales in 2005. Bilingual education was a component of education reform linked to foreign-aid development mandates, and foreign aid workers figure in *New Languages of the State*, as do teachers and their unions, transnational intellectual networks, and assertive indigenous political and intellectual movements across the Andes. Gustafson shows that bilingual education is an issue that extends far beyond the classroom. Public schools are at the center of a broader battle over territory, power, and knowledge as indigenous movements across Latin America actively defend their languages and knowledge systems. In attempting to decolonize nation-states, the indigenous movements are challenging deep-rooted colonial racism and neoliberal reforms intended to mold public education to serve the market. Meanwhile, market reformers nominally embrace cultural pluralism while implementing political and economic policies that exacerbate inequality. Juxtaposing Guarani life, language, and activism with intimate portraits of reform politics among academics, bureaucrats, and others in and beyond La Paz, Gustafson illuminates the issues, strategic dilemmas, and imperfect alliances behind bilingual intercultural education.
