📖 **PERVASIVE COMPUTING DESIGN FOR SUSTAINABILITY** Håkan Gulliksson, This book contains the knowledge an interaction designer should know about pervasive design for sustainability. Relevant design research is discussed and framed in a story and value based participatory approach. Sustainability is the most important design goal. This is the first message. A second message is that information technologies, and in particular pervasive computing are invaluable keys in the quest for sustainability. Thirdly there is a lack of knowledge on sustainability issues in the interaction design community. In this book a unique meta-level framework structures an extensive discussion of design for sustainability. The framework is based on a principle of justice that is complemented by circumstances for sustainability chosen from the perspective of interaction design. We suggest and present the following circumstances: limited shared resources, socio-technical components and structures, technology development, vision and reflection, cognitive and behavioural support, joint ventures and political action. Topics discussed within the circumstances include experience design, ethics, Latours's modes of existence, design fiction, computer games, futures studies, theories for reflection and behavioural change, personal informatics, and practice theory. The convolute concludes with a number of case studies where interaction design research is summarized and studied from the perspective of sustainability. We start out with thoughts on sustainable consumption, sustainable character, and the sustainable family that gets a section each. Adding to them are annotated case studies from research on design fiction, game and performance, value based design, practice theory, multi-level perspective design and design for a sustainable society. The book is a polyphonic convolute which means that there will be some overlap in the reports from the different discourses. Development in the areas related to interaction design can be sensed by identifying the surfacing themes. In total the e-book consists of the equivalence of 530 pages excluding references and index. Håkan Gulliksson is a lecturer on interaction technology and sustainable design at Umeå University for more than ten years.

📖 **CONFLICT** NEIL D. SHORTLAND, LAURENCE J. ALISON, JOSEPH M. MORAN, 2019-01-02 Conflict: How Soldiers Make Impossible Decisions is about making hard choices--where all outcomes are potentially negative. The authors draw on interviews conducted with soldiers about the situations they faced and the decisions they made at war. These are vivid and sometimes distressing stories. They form the data from which the authors explore the cognitive processes associated with choice, commitment to action and (sometimes) error, as well as goal directed thinking, innovation and courage. By referring to real cases, Conflict invites readers to consider their own responses under extreme circumstances and ask themselves how they would choose between difficult options. In doing so this book will go some way to helping readers understand what it feels like when choosing between least-worst decisions.

📖 **THE CHINA MISSION: GEORGE MARSHALL'S UNFINISHED WAR, 1945-1947** DANIEL KURTZ-PHELAN,2018-04-10 An Economist Best Book of 2018 A spellbinding narrative of the high-stakes mission that changed the course of America, China, and global politics—and a rich portrait of the towering, complex figure who carried it out. As World War II came to an end, General George Marshall was renowned as the architect of Allied victory. Set to retire, he instead accepted what he thought was a final mission—this time not to win a war, but to stop one. Across the Pacific, conflict between Chinese nationalists and communists threatened to suck in the United States and escalate into revolution. His assignment was to broker a peace, build a Chinese democracy, and prevent a communist takeover, all while staving off World War III. In his thirteen months in China, Marshall journeyed across battle-scarred landscapes, grappled with Mao Zedong and Zhou Enlai, and plotted and argued with Generalissimo Chiang Kai-shek and his brilliant wife, often over card games or cocktails. The results at first seemed miraculous. But as they started to come apart, Marshall was faced with a wrenching choice. Its consequences would define the rest of his career, as the secretary of state who launched the Marshall Plan and set the standard for American leadership, and the shape of the Cold War and the US-China relationship for decades to come. It would also help spark one of the darkest turns in American civic life, as Marshall and the mission became a first prominent target of McCarthyism, and the question of “who lost China” roiled American politics. The China Mission traces this neglected turning point and forgotten interlude in a heroic career—a story of not just diplomatic wrangling and guerrilla warfare, but also intricate spycraft and charismatic personalities. Drawing on eyewitness accounts both personal and official, it offers a richly detailed, gripping, close-up, and often surprising view of the central figures of the time—from Marshall, Mao, and Chiang to Eisenhower, Truman, and MacArthur—as they stood face-to-face and struggled to make history, with consequences and lessons that echo today.

📖 **JURISPRUDENCE OF NATIONAL IDENTITY** Nan Seuffert,2018-02-06 Presenting a unique blend of historical and contemporary research from a range of interdisciplinary and theoretical analysis, this book examines the intersection of ‘race’, gender and national identity. Focusing on New Zealand, the book highlights the ways in which shifts in national identity shape and limit legal claims for redress for historical racial injustices internationally. Key features: * Analyzes the identity configurations produced by New Zealand's process of ‘settling’ colonial injustices and highlights the wider relevance for other groups such as Australian aborigines and Native Americans. * Traces the connections and discontinuities between the free trade imperialism of the mid-19th century and the free trade globalization of the late 20th century. * Rich, rigorous interdisciplinarity and use of a range of theoretical perspectives provides insights relevant to legal theorists, feminists and legal scholars internationally.

📖 **FINDING YOUR LEADERSHIP FOCUS** DOUGLAS B. REEVES,2015-04-18 In his new book, author and international keynoter Douglas Reeves addresses a major challenge faced by today's school leaders: an ever-growing load of programs and initiatives. Reeves contends that program overload not only taxes leadership resources, but actually hurts rather than improves student performance. Drawing on recent research findings, this book shows how leaders can pare down from a proliferation of initiatives to determine what is truly most important based on their local concerns, challenges, populations, and other school factors. Identifying a specific set of leadership practices that are more strongly associated with improvements in student achievement, Reeves provides explicit guidelines for how school leaders can improve their most critical leadership decisions by simultaneously engaging in three essential strategies: monitoring teaching and leadership practices, building high degrees of efficacy among staff members, and focusing on a smaller number of priorities. FINDING YOUR LEADERSHIP FOCUS is essential reading for new and veteran principals, teacher leaders, and PLC book study groups. Book features: Practical guidance to help school leaders at every level to focus on what is most important and to assess their progress. Analysis correlating three years of student achievement data and specific school leadership practices. Online video conference support by Douglas Reeves for book study groups and graduate classes who use this book. Online downloads. Douglas B. Reeves is the founder of The Leadership and Learning Center, Englewood, Colorado. He was named the Brock International Laureate for his contributions to education and received the Distinguished Service Award from the National Association of Secondary School Principals. “Finding Your Leadership Focus could not have arrived at a more timely moment in the history of reform.... Doug Reeves' conclusions and agenda for action are exactly what is needed.” —From the Foreword by Michael Fullan, Professor Emeritus, University of Toronto “If schools and districts model their improvement efforts on Doug Reeves' sage advice, voluminous strategic plans will be scrapped, trees will be saved, educators will avoid the law of initiative fatigue, and most importantly, students will learn at higher levels.” —Richard DuFour, Educational Author and Consultant “This book is a masterful combination of research and practice, and Doug Reeves is one of the few people in the country who could have written it. He has added much-needed clarity to the process of leading in a way that directly results in enhanced student achievement.” —Robert J. Marzano, CEO, Marzano Research Laboratory

📖 **BORDERLINE CASE** NATIONAL RESEARCH COUNCIL,BOARD ON SCIENCE, TECHNOLOGY, AND ECONOMIC POLICY,1998-02-05 The growing integration of world markets for capital and goods, coupled with the rise of instantaneous worldwide communication, has made identification of corporations as American, Dutch, or Japanese extremely difficult. Yet tax treatment does depend of where a firm is chartered. And, as Borderline Case documents, there is little doubt that tax rules for firms doing business in several nations📖 €firms that account for more than three-quarters of corporate R&D spending in the United States📖 €have substantial effects on corporate decisionmaking and, ultimately, U.S. competitiveness. This book explores the impact of the U.S. tax code and its incentives on the international activities of U.S.- and foreign-based firms: basic research outlays, expenditures on product and process development, and plant and equipment investment. The authors include industry experts from large multinational firms in technology and pharmaceuticals, academic researchers who have explored the quantitative impact of tax provisions on R&D, and tax policy analysts who have examined international tax rules in the broader context of tax reform. These experts look at how corporate investment and R&D are shaped by specific tax provisions, such as the definition of taxable income, relative tax burdens on domestic and foreign business, taxation of earnings repatriated to the United States, deductibility of expenses of worldwide operations, and U.S. corporate taxes relative to other countries. The volume explores prescriptions and prospects for tax reform and reviews major reform proposals and their implications for the behavior of multinational business.

📖 **MANAGING TO CARE** ANN E. P. DILL, The point of departure for Managing to Care is widespread concern that the present delivery of health and social welfare services is fragmented, uncoordinated, inefficient, costly, wasteful, and ultimately detrimental to clients' health and wellbeing. Dill traces the evolution of case management from its start as a tool for integrating services on the level of the individual client to its current role as a force behind the most significant trends in health care. Those trends include the entrenchment of bureaucracy, the challenges of once dominant professions, and the rise of corporate control. The author's purpose in adopting this analysis is to invite further scrutiny of the case management profession, and at the same time to identify new possibilities for its application. This volume brings together thoughts developed over many years of observing and participating in case management programs. It provides a multilayered perspective of case management, showing linkages among its social and historical contexts and the ways it is practiced today in diverse service settings. The author emerged convinced about the essential need for care coordination, and that present ways of providing care can work against our highest objectives in doing so. The paradoxes and contraindications embedded in case management practice became a major theme of the book. Managing to Care is highly critical of the ways case management has come to absorb and reflect the organizational flaws of the very service systems it was intended to reform. Too often management of the case comes to dominate care. The author does not call for a rejection of professional systems in favor of a resurrected informal community. While much can and should be done to strengthen our ties to one another, there will always be people whose problems require more expert help. Dill argues here that case management can provide such help, and provide it well, but only if it is grounded in the human dimension of a caring relationship. Ann E. P. Dill, Associate Professor of Sociology and Gender Studies at Brown University, is a medical sociologist and social gerontologist. Her research examines issues affecting the long-term provision of health care and social services, both in the United States and in countries formerly part of Yugoslavia.
