Zahid Shah Autobiography Syed Zahid Hussain Shah,2021-04-17 An autobiography and observations of human life, written by Dr Syed Zahid Hussain Shah

Frontline Pakistan Zahid Hussain,2008 Veteran Pakistani journalist and commentator Zahid Hussain explores Pakistan's complex political power web and the consequences of Musharraf's decision to support America's drive against jihadism, which essentially took Pakistan to war with itself. Conducting exclusive interviews with key players and grassroots radicals, Hussain pinpoints the origin of the jihadi movement in Pakistan and Afghanistan, the long-standing and often denied links between militants and Pakistani authorities, the weaknesses of successive elected governments, and the challenges to Musharraf's authority posed by politico-religious, sectarian, and civil society elements within the country. The jihadi madrassas of Pakistan are incubators of the most feared terrorists in the world. Although the country's war on terror has so far been a stage show, a very real battle is looming, the outcome of which will have grave implications for the future security of the world.

Informal Social Protection and Poverty Zahid Mumtaz,2022-10-04 This book analyzes the importance of informal social protection provided by religious institutions such as madrassas in a low-income country such as Pakistan. This book explains that Madrassas are religious schools that have existed in many Muslim countries for centuries and contributed significantly to preserving, forming, and extending human knowledge in medieval times. Further, madrassas are now more commonly viewed as the providers of a narrow education, supporting religious fundamentalism, that may lead to terrorism. However, this book asserts that education is not the only function performed by madrassas. They are a significant source of welfare support for the vulnerable and marginalized households in many low-income countries. This book helps the readers to understand the concept of informal social protection not conceptualized previously. In addition, its various attributes and institutions providing such a form of welfare worldwide are explained in detail; analyzing the usefulness of such a form of social protection would benefit readers of social policy, national governments, and international donor/aid agencies. This book also provides a prescriptive framework for integrating formal and informal social protection. This book provides a new Multiple Regime Framework, for identifying various regimes in one country at one point in time by applying a novel data collection and analysis methodology. The application of this framework would be of particular interest to social policy scholars, national governments, and donor/aid agencies because it will result in better targeting of social protection policies in the wake of fiscal constraints. Lastly, this book provides a novel data collection and analysis strategy that will benefit the reader of research methodology, development consultants, donor agencies, and policy practitioners interested in using artificial intelligence to make informed and targeted policy decisions.

Observing the Observer Zahid Bukhari,Sulayman Nyang,2012-01-01 THE collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an “Islam industry” run primarily by fly-by journalists, think tank pundits, and cut-and-paste “experts.”

The Muslim Brotherhood and Egypt's Succession Crisis Mohammed Zahid,2012-04-15 The relentless rise of the Muslim Brotherhood has secured them a leading role in the unsettled and uncertain landscapes of Egypt, a country shaken by revolution and revolt. A decisive victory in the first post-Mubarak elections cemented their standing, but how have they reached this position of dominance? Mohammed Zahid's analysis of the Brothers' conflict-filled history and steadily expanding presence throughout Egyptian society lays the groundwork for their place in today's Egypt, and sheds light on the complex currents of Islamist politics and authoritarian rule that have coloured Egypt and the Arab world. Delving into the tangle of Egyptian politics from Nasser to Mubarak, the increasing pressures for reform amid mounting socio-economic crisis and the fractured processes of liberalisation, Zahid unpicks the troubled relationship between the Muslim Brotherhood and the state.

Report of the Zahid Mubarek Inquiry (Vols. 1 and 2) Zahid Mubarek Inquiry,2006-06-29 This report sets out the findings of the public inquiry into the murder in March 2000 at Feltham Young Offender Institution of Zahid Mubarek, an Asian teenager. Mubarek died after being attacked by another young prisoner, his cellmate Robert Stewart, who had a history of violence and racist behaviour. The report identifies the systemic shortcomings which the attack exposed and makes 88 recommendations to reduce the risk of such an attack in the future. Issues discussed include: the events leading up to the public inquiry, including previous investigations by the Prison Service and the Commission for Racial Equality; the mental health background and custodial history of Stewart; the events on the night of the attack; and the wider ongoing problems at Feltham of staff shortages and low staff morale, lack of resources and overcrowding; poor working practices and evidence of racism by staff and prisoners. Recommendations made include: the elimination of enforced cell-sharing should be a high priority for the Prison Service and it should publish guidelines to assist officers in the allocation of prisoners who have to share a cell, taking into account issues of ethnic and religious background; there should be a general rule that an unconvicted prisoner should not share a cell with a convicted prisoner; full cell searches should be carried out at least once every three months; prisoner councils should be set up as part of violence reduction strategies in prisons; improved diversity training for prison staff; and the need for a national database for security information on prisoners to improve the flow of information between and within establishments to help prisoner risk assessment procedures.

Introduction to Islam Zahid Aziz,2015-04-16 There has been a great demand for a booklet to introduce younger people to the teachings of Islam in fairly simple language. The Ahmadiyya Anjuman Isha'at Islam Lahore has, over the past decades, produced a range of excellent works dealing with all aspects of Islam. This literature has been widely appreciated and acclaimed as meeting the needs of the present times, both for teaching Muslims and for presenting Islam to the world generally. It has been felt for sometime that the wonderful knowledge contained in these comprehensive works must be made more readily accessible to younger people by presenting it at an introductory level in simpler language. This booklet has therefore been prepared to satisfy these requirements. All the basic doctrines and practices of Islam have been covered, supplemented by information about the Holy Quran, Hadith, and the moral teachings of Islam. No prior knowledge is assumed. The question-answer format used, it is hoped, will make the booklet more interesting than would be the case with a descriptive approach. There are abundant, direct quotations from the Holy Quran throughout with full references. In some places the teachings of Islam are elaborated in general words, without direct quotations or specific references, as this was not considered necessary in those cases in an introductory booklet of this kind. For further reading on any point, or fuller explanation, the writings of Maulana Muhammad Ali should be consulted. In any case, as younger readers advance in their knowledge, they would be expected to move on to these standard books.

The Scorpion's Tail Zahid Hussain,2010-11-16 A deeply reported account of the war against Islamic extremists in Pakistan and battles being fought in the remote tribal regions. The war in Afghanistan has raged on longer than any war in US history, and far from suppressing the insurgency being waged by radical Islamic militants, it has led to stronger alliances among al Qaeda, the Taliban, and a host of once-autonomous militant groups and has inspired a flood of new recruits. In addition to reclaiming control of substantial territory in Afghanistan, the militants have now taken the fight deep within Pakistan—threatening to totally destabilize that nuclear-armed state—and are launching attacks on the US homeland. Why has the insurgency been so irrepressible? Is this a war that can be won? Can we expect a wave of attacks within the United States more sophisticated than the attempted bombing

in Times Square? Nothing can be understood about the prospects for the war and the threat to the US homeland without understanding how Pakistan has become the epicenter of the insurgency and why the rise of militant groups there has escalated out of control despite major offensives by the Pakistani military and an intensive secret US Predator drone war against them. Based on extensive reporting inside Pakistan’s dangerous lawless regions and exclusive interviews with militant leaders as well as high-level military and intelligence sources, Zahid Hussain, one of the most respected reporters working out of Pakistan, chronicles how and why the Islamic extremist groups based in Pakistan’s remote tribal territories have greatly increased their power since the start of the war and unleashed a reign of terror on US forces in Afghanistan and on both the military and civilian population within Pakistan. He is the first to reveal how a loose constellation of tribal groups has now come together to form a distinctive Pakistani Taliban, working closely with al Qaeda and the Afghani Taliban to launch increasingly sophisticated and deadly attacks on both sides of the Af-Pak border. He discloses how they draw support and a steady flood of recruits from deeply entrenched support networks in major Pakistani cities, and how they have recruited would-be US attackers, including Faisal Shahzad and Adnan Shukrijumah, accused of plotting to bomb the New York City subway. He is also the first to chronicle in detail the still unacknowledged US war carried out in Pakistan by remote Predator drones, and, reporting from the scenes of a number of drone missile strikes and interviewing a number of attempted suicide bombers, he reveals the shocking extent of anti-Americanism the strikes have stoked in Pakistan, across the range of the population, due to civilian deaths, driving a new breed of highly educated, professional, and middle-class Pakistanis into the militant groups. His gripping and revelatory account is an urgent wake-up call about the blowback effects of the US war in Afghanistan and the drone campaign in Pakistan, about how volatile the situation in the Af-Pak region has become, and about the deeply troubling limitations of the current military strategy in ever gaining decisive ground against the insurgents.

What bearing should the social context have on strategies and methods?
