Notes For Creatives Daniel Triunfo Dani,2023-05-02 It is an essay book where you can find what it is like to live in the south and the consequences of poor markets that we give ourselves in the obligation to work for little or live from the government. This is explained by a predominance of cultures that were socializing and we had no choice but to channel a new culture into works, whether they be theater movies or musicals, to be on par with our competitors, the large friendly companies that they put together with writers protest this great simulation of entertainment in peace. It is an opportunity for them to really get to know us.

Search-Based Applications Gregory Grefenstette,Laura Wilber,2022-05-31 We are poised at a major turning point in the history of information management via computers. Recent evolutions in computing, communications, and commerce are fundamentally reshaping the ways in which we humans interact with information, and generating enormous volumes of electronic data along the way. As a result of these forces, what will data management technologies, and their supporting software and system architectures, look like in ten years? It is difficult to say, but we can see the future taking shape now in a new generation of information access platforms that combine strategies and structures of two familiar -- and previously quite distinct -- technologies, search engines and databases, and in a new model for software applications, the Search-Based Application (SBA), which offers a pragmatic way to solve both well-known and emerging information management challenges as of now. Search engines are the world's most familiar and widely deployed information access tool, used by hundreds of millions of people every day to locate information on the Web, but few are aware they can now also be used to provide precise, multidimensional information access and analysis that is hard to distinguish from current database applications, yet endowed with the usability and massive scalability of Web search. In this book, we hope to introduce Search Based Applications to a wider audience, using real case studies to show how this flexible technology can be used to intelligently aggregate large volumes of unstructured data (like Web pages) and structured data (like database content), and to make that data available in a highly contextual, quasi real-time manner to a wide base of users for a varied range of purposes. We also hope to shed light on the general convergences underway in search and database disciplines, convergences that make SBAs possible, and which serve as harbingers of information management paradigms and technologies to come. Sangre de Llaguno. La razón de ser del toro bravo mexicano Luis Niño de Rivera,2013-11-28 La crónica imprescindible para todos aquellos que aman la Fiesta Brava en México En esta nueva edición, corregida y aumentada, Luis Niño de la Rivera se basa en una extensa documentación para contar la historia de los hermanos Llaguno, quienes hace poco más de un siglo fundaron la ganadería emblemática de la fiesta brava en nuestro país. A partir de unas cuantas reses bravas traídas de España, los hermanos Llaguno se empeñaron en lograr en su crianza la bravura y el trapío necesarios para la buena lidia. Con ello lograron desarrollar el toro que ha sostenido la tauromaquia mexicana durante los últimos cien años. Varios de los más famosos toreros y ganaderos constataron los resultados logrados a partir de muchos años de empeño indomable, de intuición y trabajo, no exento de fallas y sinsabores pero siempre tenaz. Luis Niño de Rivera cuenta las andanzas, logros y tropiezos de Antonio y Julián Llaguno, los colores de sus épocas y los minuciosos registros de crianza que les permitieron convertirse en éxitos ganaderos y personajes de leyenda.

Sobras Eladio Orta,2018-12-21 Este librito que tenéis entre las manos es una pequeña cajita de recuerdos donde se guarda el botón que se zafó del abrigo una noche canalla, la carta sin remite que hablaba de cabezos azules y arena en los bolsillos del alma laica, el bolígrafo prehistórico que dormía placenteramente en las hendiduras del sofá y fue recuperado por obra de magia, la piedra pequeña de nácar que te regaló un sueño de luna llena en Rabat, el poema tonto que dabas por perdido y una mano cercana te lo mandó por correo, la inesperada dedicatoria que brota de la luz del fango sin previo aviso, la foto despampanantemente elegante de una novia en desfogue sombreril, un bolso de tela descolorido por el peso de la humedad, huellas de pájaros en el fango... cosas que ya sólo creía que existían en el recuerdo desgajado de la memoria... las pequeñas cosas que encontramos cuando hacemos una limpieza general y no estamos por la labor de que desaparezcan de nuestras vidas. Pequeños milagros que llevamos a cuestas y nos ayudan a seguir alerta.
