Healing Capitalism Jem Bendell,Ian Doyle,2017-09-08 The global response from business to social and environmental issues during the past decade has created a corporate responsibility movement. But what has been the impact of this movement? The financial crisis that began in 2007 has led more and more people to question the fundamentals of our economic system. Now, some within the corporate responsibility movement are developing a vision and practice of a new form of capitalism, one that will require collective action to achieve. Bendell and Doyle draw on Lifeworth's annual reviews of corporate responsibility and explain how business leaders, stakeholders and related academe now need to experiment with new models that address the fundamental flaws of contemporary capitalism, including monetary systems, enterprise ownership, and regulation. This book will be a fantastic resource for business libraries, as it records and analyses key events, issues and trends in corporate responsibility during the first decade of the 21st century. It is a sequel and companion to Bendell's previous work, The Corporate Responsibility Movement.

Why the Middle Ages Matter Celia Chazelle,Simon Doubleday,Felice Lifshitz,Amy G. Remensnyder,2012-02-20 The word medieval is often used in a negative way when talking about contemporary issues; Why the Middle Ages Matter refreshes our thinking about this historical era, and our own, by looking at some pressing concerns from today's world, asking how these issues were really handled in the medieval period, and showing why the past matters now. The contributors here cover topics such as torture, animal rights, marriage, sexuality, imprisonment, refugees, poverty and end of life care. They shed light on relations between Christians and Muslims and on political leadership. This collection challenges many negative stereotypes of medieval people, revealing a world from which, for instance, much could be learned about looking after the spiritual needs of the dying, and about integrating prisoners into the wider community with the emphasis on reconciliation between victim and criminal. It represents a new level of engagement with issues of social justice by medievalists and provides a highly engaging way into studying the middle ages for students--

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
