Heart-life in Song Frances Harrison Marr, 1883

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The Dare Harley Laroux, 2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? *The Dare* is an 18+ erotic romance novella and a prequel to the *Losers Duet*. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong

language. A full content note can be found in the front matter of the book.

The Mathematical Sciences in 2025 National Research Council, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Committee on the Mathematical Sciences in 2025, 2013-06-13 The mathematical sciences are part of nearly all aspects of everyday life-the discipline has underpinned such beneficial modern capabilities as Internet search, medical imaging, computer animation, numerical weather predictions, and all types of digital communications. The Mathematical Sciences in 2025 examines the current state of the mathematical sciences and explores the changes needed for the discipline to be in a strong position and able to maximize its contribution to the nation in 2025. It finds the vitality of the discipline excellent and that it contributes in expanding ways to most areas of science and engineering, as well as to the nation as a whole, and recommends that training for future generations of mathematical scientists should be re-assessed in light of the increasingly cross-disciplinary nature of the mathematical sciences. In addition, because of the valuable interplay between ideas and people from all parts of the mathematical sciences, the report emphasizes that universities and the government need to continue to invest in the full spectrum of the mathematical sciences in order for the whole enterprise to continue to flourish long-term.

Advanced Magick for Beginners Alan Chapman, 2008-12-31 A new paradigm that delivers a genuine transformation of occultism. The author assumes no previous knowledge, only a willingness to explore what magick offers, yet it is apparent to anyone with a background in the subject that Alan Chapman is drawing on a wide range of experience, from classical Crowleyean Magick, to eastern metaphysics, and back again to Discordianism and Chaos Magick. Chapman's writing-style is humorous, direct, seductively logical, and his enthusiasm for the benefits of magick is both tangible and infectious. The novice magician will indeed find themselves equipped to commence all sorts of magickal operations: trance work, enchantment, divination, and even some of the higher forms of spiritual development. To experienced magicians, Chapman offers a subtler challenge: he revitalises magick by cutting it free from the extreme relativism Chaos Magick bequeathed, provocatively redefining it as: the art, science and culture of experiencing truth.

Pillars of Tubal Cain Nigel Jackson, 2000 At the secret heart of the Western Mystery Tradition lies the angelic wisdom that forms the teachings of true magick. Drawing from a wide range of sources, this book presents a new and unique overview of Western magick and occultism, exploring how this secret tradition has been inherited from Persian, Chaldean, Canaanite, Egyptian, Arabic, Hebrew and Greco-Roman sources. It also records how this tradition was preserved in the symbols and beliefs of Esoteric Christianity, Gnosticism, Hermeticism, alchemy, medieval magick, the Cabbala, the Tarot, the Grail mythos, the Arthurian legends, Freemasonry, Rosicrucianism and some forms of traditional witchcraft. Topics include the origins of angelology; the gnostic myth of the Grigori or fallen angels; the forgotten civilisations of the giant races; the esoteric symbols within Hermeticism and Masonry that reveal the key to understanding the mythic theme of the Luciferian gnosis; the inner mysteries of the Grail; King Solomon's temple as a Goddess shrine; the real identity of the Queen of Sheba; the truth behind the myth of the Garden of Eden and the Fall; the place of the dark moon goddess Lilith in the Luciferian tradition; the symbolism and meaning of the previously forbidden Luciferian occult tradition concerning the Watchers, or fallen angels, and the so-called Prince of Darkness' - revealed to be really the Lord of Light; arcane lore that illuminates several mysterious figures in the Bible whose real significance and identities have been hidden from us for centuries; the real occult secrets of the sacred bloodline of Jesus and Mary Magdalene and the spiritual reality behind the worship of the goat-god Baphomet by the heretical Knights Templar. This is a major work on a subject little known or discussed outside the inner circles of secret societies, occult orders and traditional witch covens. As we enter the 21st century, the information here may prove essential to understanding what is happening in the world today and the future destiny of the human race. It reveals that our modern civilisation is not the product of haphazard cultural phenomena, but its development has

been guided and influenced by celestial intelligences who first made contact with humans in prehistory. These teaching angels', as they are called, are still there ready to teach and guide those who recognise their presence. This book contains several appendices that offer ritual practices for those interested in contacting the angelic forces. This is the first book to be written exclusively on the Luciferian gnosis and angelic magick which reveals the real secrets within the Western magical tradition. It provides an important and essential starting point for the reader to delve further into the numinous realm of the angels. The voice of the angels shalt speak unto you and by their signs shall ye know them.

Prime Chaos Phil Hine, 2009-11 Prime Chaos presents an overview of the fastest-growing school of modern occultism -- Chaos Magic. The author of Condensed Chaos presents simple, yet effective techniques for becoming proficient in practical magic, including an exhaustive breakdown of the possibilities offered by ritual magic, sorcery, invocation, possession and evocation. The resurgence of interest in magic has led to a new interest in magical groups, and Phil Hine brings a wealth of experience in groups to an exploration of the advantages -- and disadvantages -- of working magic with other people. Prime Chaos also explores some of the lighter and darker -- aspects of modern occultism, and presents new ideas for developing magical techniques for the 21st Century. In addition, you have on this book a unique piece of history: a cover by William S Burroughs, author of Naked Lunch and many other famous works.
