**Lagoa Santa Karst: Brazil's Iconic Karst Region** Augusto S. Auler, Paulo Pessoa, 2020-01-22 This book discusses the Lagoa Santa Karst, which has been internationally known since the pioneering studies of the Danish naturalist Peter Lund in the early 1800s. It covers the speleogenesis, geology, vegetation, fauna, hydrogeology, geomorphology, and anthropogenic use of the Lagoa Santa Karst and is the first English-language book on this major karst area. The area, which has been at the heart of the debate on the origin and age of human colonization in the Americas, is characterized by a classical and scenic karst landscape with limestone cliffs, karst lakes and karst plains, in addition to numerous solution dolines. More than 1,000 caves have been documented in the area, many with significant archeological and paleontological value. Despite its great importance, the Lagoa Santa Karst faces severe environmental threats due to limestone mining and the expansion of the metropolis of Belo Horizonte and its surrounding towns. The growing recognition of the area's remarkable significance has led to increasing concern, and a number of protected areas have now been established, improving the conservation status of this landmark karst area.

**Information Economy Report 2005** United Nations Conference on Trade and Development (UNCTAD), 2005-12-16 This Report illustrates the vigorous efforts being undertaken by many developing countries to catch up with their more developed partners in the dissemination and use of ICT. However, it also shows that the gaps are still far too wide and the catching-up far too uneven for the promise of a truly global information society, with its attendant benefits for sustainable social and economic development, to materialize without the sustained engagement of national Governments, the business sector and civil society, and the tangible solidarity of the international community.

**Light Alloys** Robert John Hussey, Josephine Wilson, 2013-04-17 Light Alloys Directory and Databook is a world-wide directory of the properties and suppliers of light alloys used in, or proposed for, numerous engineering applications. Alloys covered will include aluminium alloys, magnesium alloys, titanium alloys, beryllium. For the metals considered each section will consist of: a short introduction; a table comparing basic data and a series of comparison sheets. The book will adopt standardised data in order to help the reader in finding and comparing different materials and identifying the required information. All comparison sheets are cross-referenced, so that the user will be able to locate data on a specific product or compare properties easily. The book is designed to complement the existing publications on high performance materials.

**Hypochondriasis and Health Anxiety** Jonathan S Abramowitz, Autumn Braddock, 2010-01-01 Cognitive-behavioral therapy is now the treatment of choice for individuals with health anxiety and related problems. The latest research shows that it results in reductions in health-related worries, reassurance-seeking behavior, and phobic avoidance, as well as increases in life satisfaction and everyday functioning. This compact, easy to understand book by experts Jonathan S. Abramowitz and Autumn E. Braddock opens with an overview of the diagnostic issues and assessment of health anxiety, and delineates a research-based conceptual framework for understanding the development, maintenance, and treatment of this problem. The focus of the book is a highly practical guide to implementing treatment, packed with helpful clinical pearls, therapist-patient dialogues, illustrative case vignettes, and sample forms and handouts. Readers are equipped with skills for engaging reluctant patients in treatment and tailoring educational, cognitive, and behavioral techniques for health-related anxiety. The book, which also addresses common obstacles in treatment, represents an essential resource for anyone providing services for individuals with somatoform or anxiety disorders.

*Internationalization of Business* Stefan Schmid, 2018-12-30 This book illustrates the various facets of internationalization in managerial practice, starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries, such as sporting goods, aviation, grocery discount, motorcycle, computer and IT, and fast-food. The cases present a variety of ways of entering and operating in foreign markets, such as export, franchising, joint ventures, strategic alliances, greenfield-investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well-known companies.

How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Alan Wang, 2020-11-13 This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more. Integrity.... When No One's Looking Marvin Soskil, 2022-05-04 We all have freedom of choice. Nobody is telling you what you must

do. It is your conscience that you have to live with! As we look around us these days, do you notice how the world has changed? We went from better to worse, worse to horrific and we're heading from horrific to dread? We can have the power to control situations, only if we raise the levels of our own consciousness and get back to basics. Remember when we wore white shirts and black ties for assembly? When your parents told you to do something you didn't ask why, you just did it? When No One is Looking is about bringing Integrity back into our lives and being more conscious of decisions we make and actions we take which can make this a better world. The most influential tool we have in your entire arsenal is your integrity. - Zig Zigler Only a person with integrity has the ability to command a long time respect and admiration, young or old, rich or poor. It doesn't matter what you have now, you can live with integrity and elegance and you can take utmost pride in that. That is because integrity is something you decide to have. It is a principle you chose to live by. Each of us will someday, be judged by our standard of life, not by the standard of living; by our measure of giving, not by our measure of wealth; by our simple goodness, not by seeming greatness - William Arthur Ward

**Pirates of Pensacola** Keith Thomson,2005-04 The Cooke and Hood families have been at each other's throats since the Spanish Main days. The latest chapter in their piratic rivalry takes place in 2004, when an old treasure map turns up. None of this seems to matter to Morgan Cooke, a cowardly, landlubbing accountant entirely ignorant of his heritage until his estranged father, Isaac, in need of crewmen, kidnaps him and thrusts him into the fray. When Morgan wakes up on a boat in the middle of the Caribbean, he learns that piracy still flourishes, albeit with far more discretion than in the old days--pirates disguise their fast boats as shrimpers or tugs--but with no less bloodshed. Judging even a shot at riches vastly preferable to a return to his lonely, fluorescent-lit work station existence, Morgan pierces his ear, dons the eye patch and peg leg, and set sail for glorious adventure.

**Bubble Head One Slick Chick** Cari D. Elmore,2017-10-20 Bubble Head is a Crested Polish Banty – One Slick Chick – and a strange-looking chicken that takes on a crafty fox in the first part of this children’s adventure book. “I happen to be a stunning chicken. I allow these humans to pet my lovely feathers and tell me I’m one hot chicken, but of course I know this. It’s obvious I’m a chicken worth pick-en.” Whether she’s strange-looking or lovely, this hip chick will delight young readers as she takes on some worthy adversaries, including a killer fox, and a large snapping spider that appears on Halloween (and if it bites, you become the spider). Does Bubble Head come out on top?

**Algebra** Saunders Mac Lane,Garrett Birkhoff,2023-10-10 This book presents modern algebra from first principles and is accessible to undergraduates or graduates. It combines standard materials and necessary algebraic manipulations with general concepts that clarify meaning and importance. This conceptual approach to algebra starts with a description of algebraic structures by means of axioms chosen to suit the examples, for instance, axioms for groups, rings, fields, lattices, and vector spaces. This axiomatic approach—emphasized by Hilbert and developed in Germany by Noether, Artin, Van der Waerden, et al., in the 1920s—was popularized for the graduate level in the 1940s and 1950s to some degree by the authors' publication of A Survey of Modern Algebra. The present book presents the developments from that time to the first printing of this book. This third edition includes corrections made by the authors.

**Appalachian Trail Thru-hikers' Companion** Robert Sylvester,2013 The leader for two decades in specialized guides for Appalachian Trail thru-hikers, section-hikers, and dreamers with the 2,186-mile national scenic trail in their eyes! Forty-some volunteers from the only organized A.T. users' group (the Appalachian Long Distance Hikers Association) each fall team up with the Appalachian Trail Conservancy to compile the latest information on Trail features and offerings in nearby towns. That provides the basic information would-be thru-hikers need to craft their own adventures to define their walks of a lifetime. The Companion, with mileage tables and town maps, is divided by state in south-to-north order, with a plethora of telephone numbers and Web sites to tap along the way.

**Advances in Carbon Management Technologies** Subhas K. Sikdar,Frank Princiotta,2021-02-01 Volume 2 of Advances in Carbon Management Technologies has 21 chapters. It presents the introductory chapter again, for framing the challenges that confront the proposed solutions discussed in this volume. Section 4 presents various ways biomass and biomass wastes can be manipulated to provide a low-carbon footprint of the generation of power, heat and co-products, and of recovery and reuse of biomass wastes for beneficial purposes. Section 5 provides potential carbon management solutions in urban and manufacturing environments. This section also provides state-of-the-art of battery technologies for the transportation sector. The chapters in section 6 deals with electricity and the grid, and how decarbonization can be practiced in the electricity sector. The overall topic of advances in carbon management is too broad to be covered in a book of this size. It was not intended to cover every possible aspect that is relevant to the topic. Attempts were made, however, to highlight the most important issues of decarbonization from technological viewpoints. Over the years carbon intensity of products and processes has decreased, but the proportion of energy derived from fossil fuels has been stubbornly stuck at about 80%. This has occurred despite very rapid development of renewable fuels, because at the same time the use of fossil fuels has also increased. Thus, the challenges are truly daunting. It is hoped that the technology choices provided here will show the myriad ways that solutions will evolve. While policy decisions are the driving forces for technology development, the book was not designed to cover policy solutions.

**Southwest USA** Lonely Planet,Amy C. Balfour,Michael Benanav,Sarah Chandler,Lisa Dunford,Carolyn McCarthy,2012 The Southwest is America's playground, luring adventurers and artists with the promise of red rock landscapes, the legends of shoot-'em-up cowboys and the kinky delights of a green chile stew.
