Genealogy of the Anglo-Norman Lynches Paul McNulty,2013 The pedigrees of the Anglo-Norman Lynches who settled in Galway are mostly derived from the descendants of James and William, the sons of Thomas Lynch, the first Provost of Galway in 1274. The progression of the family in Ireland was emphasised by the appointment of more than eighty mayors of Galway named Lynch between 1485 and 1654. When James I bestowed a baronetcy on Henry Lynch, a rich merchant, in 1622 their elevated status was confirmed. However, political controversy intervened when Henry Lynch, 3rd Bt, was attainted of high treason following the defeat of James II at the Battle of the Boyne. Personal controversy followed with the liaison of Henry Lynch-Blosse, 7th Bt with the alluring Sibella Cottle which scandalized the community. The story has been outlined by the author in his historical novel, *Spellbound by Sibella*. The Lynch-Blosses continued to serve in Ireland until the purchase of their estate of 18,566 acres by the Congested District's Board in 1909 for 154,000. Thereafter, the family settled in Wales and later in England. The current incumbent is Richard Hely Lynch-Blosse, 17th Bt, a general practitioner in Oxfordshire. The Anglo-Norman Lynches who settled in Galway have been connected to famous people and events including the Bodkin massacre, Che Guevara, James II, Richard 'Humanity Dick' Martin MP, Grace O'Malley, Patrick Sarsfield and Bram Stoker. These connections are illustrated in pedigree charts derived from a BrothersKeeper.com database of 2843 individuals. The database also includes members of the extended family of the author.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Seismic Behaviour and Design of Irregular and Complex Civil Structures Oren Lavan,Mario De Stefano,2014-07-08 Structural irregularities are one of the most frequent causes of severe damages in buildings, as evidenced by the numerous earthquakes in recent years. This issue is of particular importance, since real structures are almost all irregular. Furthermore, structural irregularities depend on several factors often very difficult to predict. This book is an essential tool for understanding the problem of structural irregularities and provides the most up-to-date review on this topic, covering the aspects of ground rotations, analysis, design, control and monitoring of irregular structures. It includes 24 contributions from authors of 13 countries, giving a complete and international view of the problem.

The Physical Geography of the Mediterranean Jamie Woodward,2009-05-07 This volume explores the climates, landscapes, ecosystems and hazards that comprise the Mediterranean world. It traces the development of the Mediterranean landscape over very long timescales and examines modern processes and key environmental issues in a wide range of settings. The Mediterranean is the only region on Earth where three continents meet and this interaction has produced a very distinctive Physical Geography. This book examines the landscapes and processes at the margins of these continents and the distinctive marine environment between them. Catastrophic earthquakes, explosive volcanic eruptions and devastating storms and floods are intimately bound up within the history and mythology of the Mediterranean world. This is a key region for the study of natural hazards because it offers unrivalled access to long records of hazard occurrence and impact through documentary, archaeological and geological archives. The Mediterranean is also a biodiversity hotspot; it has been a meeting place for plants, animals and humans from three continents throughout much of its history. The Quaternary records of these interactions are more varied and better preserved than in any other part of the world. These records have provided important new insights into the tempo of climate, landscape and ecosystem change in the Mediterranean region and beyond. The region is unique because of the very early and widespread impact of humans in landscape and ecosystem change - and the richness of the archaeological and geological archives that chronicle this impact. This book examines this history and these interactions and places current environmental issues in long term context. Chronometer Makers of the World Tony Mercer,2004 For many years, Tony Mercer, grandson of the most enduring English maker, has studied and collected a huge amount of information about marine chronometers, instruments which enabled explorers and the Royal Navy to map the world, the Navy to police it, and merchant venturers to sail in relative safety. The purpose of the chronometer is reviewed largely as a navigational aid for ocean-going vessels, but also for survey, medical, and other activities calling for precise time measurement. Representative examples of chronometers and deck watches by international makers--from the earliest known to contemporary instruments--are illustrated in both color and black and white. A comprehensive list of makers and craftsmen brings together details of men who worked in the industry, their places of work, and dates and serial numbers for their instruments.

Hello, Red (Stories) Kurt Vonnegut,2009-08-25 Look at the Birdie is a collection of fourteen previously unpublished short stories from one of the most original writers in all of American fiction. In this series of perfectly rendered vignettes, written just as he was starting to find his comic voice, Kurt Vonnegut paints a warm, wise, and often funny portrait of life in post—World War II America—a world where squabbling couples, high school geniuses, misfit office workers, and small-town lotharios struggle to adapt to changing technology, moral ambiguity, and unprecedented affluence. “Hello, Red” is a sharply observed homecoming tale in which embittered merchant sailor Red Mayo returns to his small town after nine years at sea. There he confronts the man who

ended up marrying the only woman Red ever loved—and stakes a claim on a certain something he left behind. “Hello, Red” and the thirteen other never-before-published pieces that comprise Look at the Birdie serve as an unexpected gift for devoted readers who thought that Kurt Vonnegut’s unique voice had been stilled forever—and provide a terrific introduction to his short fiction for anyone who has yet to experience his genius. Love in Plain Sight Susan Laine,2012-09-05 What does love look like? If you see it, will you give it the attention it deserves? Police volunteer Sebastian Sumner may be deaf, but he’s strong and capable. He’s been involved with Detective Jordan Waters for a year now. Their relationship hasn’t been smooth sailing, but their love is on solid ground. Too bad their work lives are on shakier soil—Jordan’s is, anyway, as he sets out with his partner to investigate Aldous Henley, a shady art dealer suspected of forgery and smuggling. But proving these crimes and bringing the man to justice is more challenging than Jordan expected. Before long, Henley isn’t just a work problem. The case consumes Jordan’s attention, and he’s struggling to balance his busy professional life and his equally important private life—especially with a significant anniversary approaching. Love may be in plain sight, but that doesn’t mean it should be taken for granted.
