Sustainable Development Policy Directory W. Alan Strong, Lesley Hemphill, 2008-04-15 This Directory means that a whole range of built environment professionals need never be caught out by the perversities of policy – in its formulation or on its journey into the real life of you and me. To have in one place the means of not only burrowing down into any one policy, but also of exploring the interconnections is a precious resource for any professional - ‘sustainability literate’ or not. Today, nobody who delivers our built environment can be excused from taking responsibility for the future. Armed with this Directory their contribution can only be made more effective. Sara Parkin OBE Forum for the Future This desk-top reference on sustainable development provides essential information for all who need to be up-to-date and familiar with the implications of the legal, fiscal and planning frameworks around the global and local sustainability agenda. It is relevant to a range of organisations and individuals - from national and local authorities, professional bodies, built environment professions, academia, environmental consultancies, non-governmental organisations and others. Carefully designed to facilitate access for a diverse range of stakeholders, it covers international, European, British and local policies in key built environment themes, and develops their inter-relationship to sustainable development. The Directory addresses each theme in a series of tables which summarise the policy purpose and also provide web-links to view the specific policy documents. The themes covered are: · Biodiversity · Climate Change · Construction · Energy · Environment · Planning · Pollution · Social Issues · Sustainable Development Policy and Practice · Transport · Urban Development · Waste Management · Water Other books of interest: The Green Guide to Specification Anderson ISBN: 1405119616 Smart & Sustainable Built Environments Yang Hardback ISBN: 1405124229 Sustainable Property Development Keeping Paperback ISBN: 0632058048 Previously Developed Land Syms Paperback 1405106972 Evaluating Sustainable Development Brandon 0632064862 Cover design by Garth Stewart www.thatconstructionsite.com

Framework for Equitable Allocation of COVID-19 Vaccine National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Equitable Allocation of Vaccine for the Novel Coronavirus, 2020-11-30 In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

Nuevos factores de desarrollo territorial Javier Esparcia Pérez, 2011-11-28 El análisis de los nuevos componentes que influyen en la generación y localización de actividad económica y de desarrollo territorial (los nuevos factores de desarrollo territorial o NFDT) es fundamental para comprender mejor su función y relevancia en la reducción o consolidación de la desventaja que muestran los territorios periféricos frente a los centros económicos. La diferencia principal entre los NFDT y los tradicionales de localización de actividad económica es que su existencia y «calidad» están en relación con factores sociales y culturales que forman parte de la idiosincrasia particular de un territorio, por lo que no son fácilmente trasladables a otros territorios. Las implicaciones de un mayor conocimiento de estos factores pueden ser determinantes para incrementar la eficacia y relevancia en el diseño de las futuras políticas de desarrollo regional.

Even Electron Mass Spectrometry with Biomolecule Applications Bryan M. Ham, 2008-04-11 In addition to the essential theoretical background and fundamental principles, this unique reference presents a detailed, step-by-step methodology for interpreting even electron mass spectrometry results. Specific chapters are devoted to: proteomics; biomolecule spectral interpretation of small molecules; biomolecule spectral interpretation of biological macromolecules; and MALDI-TOF-Postsource Decay (PSD). Chapters feature detailed examples, questions, and problems to help readers solidify their understanding of the concepts and techniques.

Irland - Eine Volkswirtschaft im Wandel Heike Klix, 2010-03-10 Inhaltsangabe: Einleitung: Das Schlagwort der Weltwirtschaft im 21. Jahrhundert ist nicht nur für viele Wirtschaftswissenschaftler, sondern auch für Medien und Konsumenten, Produzenten und Politiker gleichermaßen die Globalisierung. Von Kritikern verteufelt, von Befürwortern als die Heil bringende Lösung für marode Wirtschaftssysteme gepriesen, ist der Begriff in aller Munde. Es stellt sich die Frage, was ist Globalisierung und was bringt sie eigentlich mit sich? Kurz gefasst lässt sich Globalisierung als ein Veränderungsprozess [erläutern], der auf die Kombination von zunehmender grenzüberschreitender Aktivität und Informationstechnologie zurück zu führen ist. Sie ist gekennzeichnet durch die Mobilität des Kapitals möglicher Investoren, die globale Verfügbarkeit von Gütern und Dienstleistungen und der allgemeinen Öffnung von Märkten. Dass dieser Prozess nicht gänzlich unkritisch zu betrachten bleibt, steht außer Frage, soll aber hier nicht weiter diskutiert werden. Umfassende Informationen zur Globalisierungskritik, die sich in den letzten Jahren immer stärker manifestiert, findet man u.a. bei Chossudovsky, der vor allem die Verlagerung von Betriebsstätten industrieller Produktion aus den Industrieländern in die Entwicklungs- und Schwellenländer betrachtet und den Einfluss internationaler Finanz- und Bankunternehmen kritisiert. An dieser Stelle soll vielmehr die Globalisierung als grundsätzlicher Ausgangspunkt für die Betrachtung der Wirtschaftsentwicklung der Republik Irland als gegeben angenommen werden. Da Irlands Entwicklung abhängig ist von der globalisierten Weltwirtschaft, ist es in diesem Zusammenhang besonders interessant. Die Entwicklung dieser Volkswirtschaft, die innerhalb der Europäischen Union in ihrer Art zugleich ein einzigartiger Erfolg ist und unter Umständen ein exemplarisches Vorbild für andere Nationen in ihrer Wirtschaftspolitik sein kann, soll an dieser Stelle untersucht werden. Gründe und Wege der Entwicklung sollen analysiert werden, um herauszuarbeiten, inwiefern es

Möglichkeiten gibt, den irischen Weg auf andere Wirtschaftssysteme und Volkswirtschaften zu übertragen. Dabei sollen diese Entwicklung nicht unkritisch betrachtet, sondern auch Grenzen und Probleme des irischen Weges aufgezeigt werden und ein Ausblick gegeben werden, ob das irische Wirtschaftswunder zukunftsfähig ist und bleiben wird. Einen theoretischen Rahmen, in dem die irische Volkswirtschaft untersucht werden soll, bilden neben den bekannten Tendenzen [...]

Volkswirtschaft Irland: Ursachen und Folgen des Wirtschaftswachstums Heike Klix,2010 Irland - der Celtic Tiger. Diese Bezeichnung errang die Republik Irland dank ihrer rasanten und beispiellosen wirtschaftlichen Aufholjagd in den 1990ern und frühen 2000er Jahren. Das hier vorliegende Buch beschäftigt sich mit den Ursachen und Folgen dieses Wirtschaftswachstums. Sowohl die Steuer- und Finanzpolitik werden dabei beleuchtet, als auch die positiven Einflüsse, die der Staat durch die europäische Strukturformierung erfuhr. Welche Lehren im Nachhinein aus der Geschichte des Celtic Tigers gezogen werden können, finden dabei ebenso Anklang wie die Überlegungen, das Celtic Tiger Phänomen auf andere Wirtschaftssysteme übertragen zu können.

Ultra-Large Aircraft, 1940-1970 William Patrick Dean,2018-04-10 In 1962, a unique transport aircraft was built from the parts of 27 Boeing B-377 airliners to provide NASA a means of transporting rocket boosters. With an interior the size of a gymnasium, The Pregnant Guppy was the first of six enormous cargo planes built by Aero Spacelines and two built by Union de Transport Aériens. More than half a century later, the last Super Guppy is still in active service with NASA and the design concept has been applied to next-generation transports. This comprehensive history of expanded fuselage aircraft begins in the 1940s with the military's need for a long-range transport. The author examines the development of competing designs by Boeing, Convair and Douglas, and the many challenges and catastrophic failures. Behind-the-scenes maneuvers of financiers, corporate raiders, mobsters and other nefarious characters provide an inside look at aviation development from the drawing board to the scrap yard.

Local Content Requirements Gary Clyde Hufbauer ,Jeffrey J. Schott,2013-10-07 In the wake of the Great Recession of 2008–09, economists feared that protectionist policies might sweep the world economy, echoing the wave of tariff escalations during the Great Depression of the 1930s. To some surprise, officials were more restrained and largely avoided traditional forms of protection (tariffs and quotas), leading some observers to underestimate the incidence of new protectionism. In fact, policymakers increasingly turned to more opaque behind-the-border nontariff barriers (NTBs). Using a combination of statistical analysis and case studies, the authors show that local content requirements (LCRs), a form of NTB, have become increasingly popular. How much was global trade actually reduced on account of LCRs? A conservative estimate might be \$93 billion. Case studies featured cover the healthcare sector in Brazil, wind turbines in Canada, the automobile industry in China, solar cells and modules in India, oil and gas in Nigeria, and “Buy American” restrictions on government procurement in the United States.
