The House of Twenty Thousand Books Sasha Abramsky,2017-03-28 A tender and compelling memoir of the author's grandparents, their literary salon, and a way of life that is no more. The House of Twenty Thousand Books is the story of Chimen Abramsky, an extraordinary polymath and bibliophile who amassed a vast collection of socialist literature and Jewish history. For more than fifty years Chimen and his wife, Miriam, hosted epic gatherings in their house of books that brought together many of the age's greatest thinkers. The atheist son of one of the century's most important rabbis, Chimen was born in 1916 near Minsk, spent his early teenage years in Moscow while his father served time in a Siberian labor camp for religious proselytizing, and then immigrated to London, where he discovered the writings of Karl Marx and became involved in left-wing politics. He briefly attended the newly established Hebrew University in Jerusalem, until World War II interrupted his studies. Back in England, he married, and for many years he and Miriam ran a respected Jewish bookshop in London's East End. When the Nazis invaded Russia in June 1941, Chimen joined the Communist Party, becoming a leading figure in the party's National Jewish Committee. He remained a member until 1958, when, shockingly late in the day, he finally acknowledged the atrocities committed by Stalin. In middle age, Chimen reinvented himself once more, this time as a liberal thinker, humanist, professor, and manuscripts' expert for Sotheby's auction house. Journalist Sasha Abramsky re-creates here a lost world, bringing to life the people, the books, and the ideas that filled his grandparents' house, from gatherings that included Eric Hobsbawm and Isaiah Berlin to books with Marx's handwritten notes, William Morris manuscripts and woodcuts, an early sixteenth-century Bomberg Bible, and a first edition of Descartes's Meditations. The House of Twenty Thousand Books is a wondrous journey through our times, from the vanished worlds of Eastern European Jewry to the cacophonous politics of modernity. The House of Twenty Thousand Books includes 43 photos.

Macbeth John Drakakis,Dale Townshend,2013-09-12 The tragedy of Macbeth is filled with blood and darkness, and is a morally and politically complex study of ambition, power and guilt. This guide offers practical aids to study and fresh new ways of responding to the play's ever-expanding critical possibilities -- Back cover.

Law, Religion, Constitution W. Cole Durham,Silvio Ferrari,Cristiana Cianitto,Donlu Thayer,2016-04-29 What is the place assigned to religion in the constitutions of contemporary States? What role is religion expected to perform in the fields that are the object of constitutional regulation? Is separation of religion and politics a necessary precondition for democracy and the rule of law? These questions are addressed in this book through an analysis of the constitutional texts that are in force in different parts of the world. Constitutions are at the centre of almost all contemporary legal systems and provide the principles and values that inspire the action of the national law-makers. After a discussion of some topics that are central to the constitutional regulation of religion, the book considers a number of national systems covering countries with a variety of religious and cultural backgrounds. The final section of the book is devoted to the discussion of the constitutional regulation of some particularly controversial issues, such as religious education, the relation between freedom of speech and freedom of religion, abortion, and freedom of conscience.

Southeast Asia in Search of an ASEAN Community C. Rodolfo Severino,2006 Talking about ASEAN, this volume reappraises the organization from the inside, through controversial or perplexing issues such as the ASEAN Way, the accession of the new members, including Myanmar, the principle of non-interference, regional security, regional economic integration, the haze and SARS, and ASEAN's future.

Reading Harry Potter Again Giselle Liza Anatol,2009-05-19 Reading Harry Potter Again: New Critical Essays extends the discussion of the Harry Potter books by covering the entire series in one new and comprehensive volume. As was argued in Reading Harry Potter: Critical Essays (Praeger, 2003), interpreting the underlying messages and themes of the Harry Potter series is vital for understanding the ways in which we perceive and interact with each other in contemporary society. The novels and corresponding film adaptations have broken records with their astonishing sales and widespread acclaim. They have also generated a plethora of writing—by critics, academics, and fans. J.K. Rowling's Harry Potter books could easily be called this generation's most formative narratives, and thus certainly warrant critical attention. This new volume of essays covers the entire seven-book sequence. Contributors consider myriad themes from a variety of perspectives. Areas addressed include religion, morality, race, magic, and other themes popular in discussing the books. With this book in hand, fans of the series—indeed anyone interested in the Harry Potter phenomenon—will better appreciate and understand Rowling's work and the impact of her stories on our culture and on our times.

Antitrust Health Care Handbook ,2004 The most complete and up-to-date single-volume reference on health care antitrust law.

The Assault on Diversity Lee Cokorinos,2003 An essential handbook on the complex network of conservative foundations, think tanks, legal advocacy groups, and coordinating structures working to undermine the historic gains of the civil rights movement.

Sport and the Pursuit of War and Peace from the Nineteenth Century to the Present Martin Hurcombe,Philip Dine,2023-03-14 This volume of wide-ranging essays by sport historians and sociologists examines the complex relations of war, peace and sport through a series of case studies from South and North America, Europe, North Africa, Asia and New Zealand. From formal military training in the late nineteenth century to contemporary esports, the relationship between military and sporting cultures has endured across nations in times of conflict and peace. This collection contextualizes debates around the morality and desirability of continuing to play sport against the backdrop of war as others are dying for their nation. It also examines the legacy and memory of particular wars as expressed in a range of sporting practices in the immediate aftermath of conflicts such as the World Wars and wars of independence. At the same time, this book analyses the history of sport and peace by considering how sport can operate as a pacification in some contexts and a tool of reconciliation in others. Together, and through an introductory framing essay, these essays offer scholars of sport, conflict studies and cultural history more broadly a multinational analysis of the war-peace-sport nexus that has operated throughout the world since the late nineteenth century. Chapter 11 of this book is available for free in PDF format as Open Access from the individual product page at www.taylorfrancis.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. Funded by Tokyo University.

APAIS 1999: Australian public affairs information service ,

Handbook of Research on Students' Research Competence in Modern Educational Contexts Mkrttchian, Vardan,Belyanina, Lubov,2018-01-19 While there are many ways to collect information, students have trouble understanding how to employ various research methods effectively, since everyone learns and processes information differently. Instructing students on successfully using research methods is a continual challenge in education. The Handbook of Research on Students' Research Competence in Modern Educational Contexts is a scholarly resource that examines the critical analysis of the development of research competence in students. Featuring coverage on a broad range of topics, such as educational technologies, cognitive interest, and research capacity, this book is geared towards academicians, researchers, and students seeking current research on the development of research competence.

The Games Machines ,

Commentary on Aristotle's Nicomachean Ethics Saint Thomas (Aquinas),1993 The fine editions of the Aristotelian Commentary Series make available long out-of-print commentaries of St. Thomas on Aristotle. Each volume has the full text of Aristotle with Bekker numbers, followed by the commentary of St. Thomas, cross-referenced using an easily accessible mode of referring to Aristotle in the Commentary. Each volume is beautifully printed and bound using the finest materials. All copies are printed on acid-free paper and Smyth sewn. They will last.

Sixty Years of European Integration and Global Power Shifts Julien Chaisse,2020-02-06 This book focuses on a review of how sixty years of case-law and regulatory activity transformed the European continent and the world. It provides a critical analysis of the key features of EU integration and how this integration is perceived (internally and externally). In this context, this book also explores the EU's interactions with a number of other countries and organisations with the objective of assessing the EU's role in global governance.

Brigham Young University Law Review ,2002
Superpave Mix Design Asphalt Institute,2001-01-01

Priests of the Law Thomas J. McSweeney,2019-11-21 *Priests of the Law* tells the story of the first people in the history of the common law to think of themselves as legal professionals. In the middle decades of the thirteenth century, a group of justices working in the English royal courts spent a great deal of time thinking and writing about what it meant to be a person who worked in the law courts. This book examines the justices who wrote the treatise known as Bracton. Written and re-written between the 1220s and the 1260s, Bracton is considered one of the great treatises of the early common law and is still occasionally cited by judges and lawyers when they want to make the case that a particular rule goes back to the beginning of the common law. This book looks to Bracton less for what it can tell us about the law of the thirteenth century, however, than for what it can tell us about the judges who wrote it. The judges who wrote Bracton - Martin of Pattishall, William of Raleigh, and Henry of Bratton - were some of the first people to work full-time in England's royal courts, at a time when there was no recourse to an obvious model for the legal professional. They found one in an unexpected place: they sought to clothe themselves in the authority and prestige of the scholarly Roman-law tradition that was sweeping across Europe in the thirteenth century, modelling themselves on the jurists of Roman law who were teaching in European universities. In Bracton and other texts they produced, the justices of the royal courts worked hard to ensure that the nascent common-law tradition grew from Roman Law. Through their writing, this small group of people, working in the courts of an island realm, imagined themselves to be part of a broader European legal culture. They made the case that they were not merely servants of the king: they were priests of the law.

Law and Custom in Korea Marie Seong-Hak Kim,2012-08-27 Sets forth the evolution of Korea's law and legal system from the Chosŏn dynasty through the colonial and postcolonial modern periods.

Management Secrets of the New England Patriots: Building a high-performance organization James Lavin,2005 Volume 2 explains how Bill Belichick's New England Patriots have won three Super Bowls in four seasons, and includes quotations from Patriots players, coaches, owners, and executives as they describe the team's success factors.

Religious Intolerance and Discrimination in Selected European Countries Gerhard Besier,Hubert Seiwert,2011 The articles deal with the frameworks and causes for religious intolerance and discrimination in selected European countries. The methods of anti-cult groups and their supporters in governments and the mainline churches are described on the basis of specific case studies. Furthermore, the essays reflect about the threats for freedom of religion, which can arise on the one hand out of these anti-sect movements but on the other hand also out of the re-establishment of the religious in the post-secular era.

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

This Enthralling World of E-book Books: A Thorough Guide Revealing the Pros of E-book Books: A Realm of Ease and Versatility E-book books, with their inherent portability and simplicity of access, have freed readers from the constraints of hardcopy books. Gone are the days of lugging bulky novels or meticulously searching for specific titles in shops. Kindle devices, sleek and portable, seamlessly store an wide library of books, allowing readers to immerse in their preferred reads whenever, everywhere. Whether commuting on a bustling train, lounging on a sunny beach, or simply cozying up in bed, E-book books provide an exceptional level of convenience.
