Rebuilding the Education Sector in East Timor during UNTAET Trina Supit, 2020-10-07 This original volume examines the collaboration between East Timorese and international staff in the rebuilding of the education sector during the United Nations Transitional Administration in East Timor (UNTAET) 1999-2002. Using interviews, contemporary newspaper articles and reports from UN sources and the World Bank, the book enables a comprehensive analysis of Timorese agency. Examining choices made by the Timorese and drawing comparison with other former Portuguese colonies, the text considers the power of the Timorese elite, the role of nepotism and corruption, the preservation of the Indonesian curriculum and the selection of Portuguese as the medium of instruction and official language – together with Tetum. Concluding with a contemporary discussion on the educational achievements for East Timorese children during UNTAET compared with those of today, Rebuilding the Education Sector in East Timor during UNTAET will be of interest to academics, researchers and post-graduate students in the fields of post-conflict studies, post-colonial education and language policy as well as East Timor more specifically. This book will also benefit graduate students and scholars in teacher education. Trina Supit completed her PhD at the University of Sydney, Australia. She was a member of the UNTAET Division of Education.

Evil and International Relations R. Jeffery, 2007-12-25 This book seeks to determine what is meant by 'evil' when used to describe actors and events in international politics. Focusing on the history of evil in western secular and religious thought, it reintroduces a classical understanding of evil as the means to which we seek to understand otherwise meaningless human suffering.

The Quotable Augustine: Distinctively Catholic Elements in His Theology Dave Armstrong, 2012-09-01 Protestants

(especially Reformed Protestants, or Calvinists) often assert that St. Augustine's views were closer to theirs than to the present-day Catholic Church. My aim is to systematically document St. Augustine's advocacy of positions that historic Protestantism has expressly rejected, and (conversely) detail his opposition to some doctrines or beliefs that it has (generally speaking) espoused. Quotations are drawn from 44 separate works of St. Augustine, arranged under 157 topics, and also arranged chronologically within topics, insofar as that can be determined. This helps to clarify any development in Augustine's views. Editorial input is kept to an absolute minimum: confined to an occasional bracketed clarification (usually a contextual matter or reference) or briefly stated fact considered to be indispensable in understanding some aspect of the quotation. I'm delighted to pass along to readers a capsulized version of St. Augustine's wonderful and eloquent theological writing.

Democratization of Intelligence Peter Gill, Michael Andregg, 2017-10-02 This comparative analysis of the sometimes fraught process of achieving democratic governance of security intelligence agencies presents material from countries other than those normally featured in the Intelligence Studies literature of North America and Europe. Some of the countries examined are former Communist countries and several in Latin America are former military regimes. Others have been democratic for a long time but still experience widespread political violence. Through a mix of single-country and comparative studies, major aspects of intelligence are considered, including the legacy of, and transition from, authoritarianism; the difficulties of achieving genuine reform; and the apparent inevitability of periodic scandals. Authors consider a range of methodological approaches to the study of intelligence and the challenges of analysing the secret world. Finally, consideration is given to the success - or otherwise - of intelligence reform, and the effectiveness of democratic institutions of control and oversight. This book was originally published as a special issue of Intelligence and National Security.

Economic Rights in Canada and the United States Rhoda E. Howard-Hassmann, Claude E. Welch, Jr., 2011-01-01 Readers in Western developed countries are most familiar with abuses of political and civil rights, but the international human rights regime also embraces a set of laws regarding economic rights. These rights include the right to work and to just and favorable working conditions; the right to join and form trade unions; the right to social

security; specific rights for the family; the right to an adequate standard of living, including food, clothing, housing, and the continuous improvement of living conditions; and the right to the highest attainable standard of physical and mental health. In original essays by scholars senior and junior, this volume explains how these rights are realized—or violated—in Canada and the United States. Contributors analyze the philosophy, law, and politics of economic rights and discuss specific issues such as poverty, health care, and the rights of people with disabilities. Central to the problems of both countries are the human rights abuses evident in all contemporary capitalist societies. When the inequalities among citizens are not cushioned by a national commitment to economic rights, or when governments fail to maintain social safety nets for all citizens, economic rights are at risk. Contributors consider the problem from the perspective of their own countries: Canada, the United States, and, for contrast, the Netherlands. They do so in order to explore whether their own countries fall short of meeting international standards of economic rights. They also address the criticism often made by non-Western scholars of human rights—that their Western colleagues preach human rights abroad without regard to the human rights flaws at home.

**Zebedee and Sons Fishing Co.** Philip W. Struble,2017-05-22 One favorite story in the Bible is Jesus calling his first disciples along the Sea of Galilee. Unfortunately, when Jesus called James, John, Peter, and Andrew to a life of ministry, he called them away from their business partner Zebedee. Zebedee, a first-century fisherman, devoted Jew and entrepreneur, watched his partners choose to walk away from their business obligations and follow Jesus to become fishers of men. As Christians, we are taught to turn to the Bible when we are in need of guidance. When we are lost, confused, seeking growth or opportunity, Gods Word is our source of strength and understanding. And even though we may believe and practice Jesuss teachings we have unfortunately learned to separate our Christian values from our workplace. We turn to self-help books on management, workshops about accountability, or seminars on increasing our business traffic. We seek guidance from those successful in our industry or other experts in the secular world. As company leaders, we all too often forget that the most valuable source of information we have is from the Creator himself, and is found in His Word which is designed to guide us through all of lifes journeys. This includes even our businesses. This book is looking at our 21st-century business world through Zebedees eyes. It demonstrates that the biblical knowledge from the first-century is applicable to our business world today. Zebedee will show us how we can better understand how God wants us to run our businesses, even in the face of struggles, despair and confusion. He shows us how to establish sound business practices based on His Word, and how to lead our businesses in the way God has called us. The Bible is really the only book we need.

**Corruption in the Global Era** Lorenzo Pasculli, Nicholas Ryder,2019-04-01 Corruption is a globalising phenomenon. Not only is it rapidly expanding globally but, more significantly, its causes, its means and forms of perpetration and its effects are more and more rooted in the many developments of globalisation. The Panama Papers, the FIFA scandals and the Petrobras case in Brazil are just a few examples of the rapid and alarming globalisation of corrupt practices in recent years. The lack of empirical evidence on corrupt schemes and a still imperfect dialogue between different disciplinary areas and between academic and practitioners hinder our knowledge of corruption as a global phenomenon and slow down the adoption of appropriate policy responses. Corruption in the Global Era seeks to establish an interdisciplinary dialogue between theory and practice and between different

disciplines and to provide a better understanding of the multifaceted aspects of corruption as a global phenomenon. This book gathers top experts across various fields of both the academic and the professional world - including criminology, economics, finance, journalism, law, legal ethics and philosophy of law - to analyze the causes and the forms of manifestation of corruption in the global context and in various sectors (sports, health care, finance, the press etc.) from the most disparate perspectives. The theoretical frameworks elaborated by academics are here complemented by precious insider accounts on corruption in different areas, such as banking and finance and the press. The expanding links between corrupt practices and other global crimes, such as money laundering, fraud and human trafficking, are also explored. This book is an important resource to researchers, academics and students in the fields of law, criminology, sociology, economics and ethics, as well as professionals, particularly solicitors, barristers, businessmen and public servants.

*The Face of Social Suffering* Merrill Singer, 2005-11-16 This brief, compelling life story of a drug addict poses and answers questions of broad public concern about social responsibility, illicit drug use, hidden economies, and social inequality. Merrill Singer, a medical anthropologist involved in the public health impact of alcohol and illicit drug use, conducted interviews over a seven-year period with Tony, a street drug addict who grew up in the inner city. Tony learned the ways of using and selling drugs from his father, became an enforcer in a street gang, spent considerable time in prison, committed seemingly heartless, violent acts, and has had to struggle with the knowledge that he suffers from HIV infection. Tony's life story is an insider, personal view of a tumultuous, marginalized world that intertwines closely with the wider social milieu constructed and sustained by the U.S. political economy. Unique to this book is its attempt to understand the forces that contribute to the risky behavior of drug use, even at a time when drug users know about its deadly and damaging connection to diseases like HIV and hepatitis. Tony's story demonstrates that none of us make choices in a vacuum. Further, the book addresses important issues about how structures of social inequality in our society impact the lives and options of those at the bottom of the social ladder.

**Jihad in Palestine** Shaul Bartal, 2015-07-24 The 21st century exists in the shadow of the return of extremist Islam to the center of the world's political stage, a process that began at the end of the previous century. While researchers have focused on the rise of Hamas, this return has in fact manifested itself in a range of independent Islamic extremist groups with their own philosophies. *Jihad in Palestine* provides a comprehensive study of the variety of Islamic extremist groups operating inside Israel/Palestine today, examining their philosophies and views concerning martyrdom, as well as their attitudes to the Israeli-Palestinian conflict. These ideologies are presented in their own words, thanks to the author's extensive translations and commentary of primary sources in Arabic, including the writings of the Islamic Jihad, al-Jama'a al-Islamiya, Hizbal-Tahrir al-Islami, Hamas and the Islamic Movement. The book studies the attitudes of these organisations towards the fundamental issues surrounding Jihad, including the concept of personal obligation, the relationship of the movement to the peace agreements and attitudes towards Jews expressed in the movement's writings. Exploring the basic theories of sacrifice and analysing modern day Palestinian society, it promotes a greater understanding of the religious angle of the Israeli-Palestinian conflict. The book will be of interest to students and scholars of Middle East Studies, Jewish Studies, Political Islam and Terrorism & Political Violence.
