Nazis, Islamists, and the Making of the Modern Middle East Barry Rubin, Wolfgang G. Schwanitz, 2014-02-01

A groundbreaking account of the Nazi-Islamist alliance that changed the course of World War II and influences the Arab world to this day. During the 1930s and 1940s, a unique and lasting political alliance was forged among Third Reich leaders, Arab nationalists, and Muslim religious authorities. From this relationship sprang a series of dramatic events that, despite their profound impact on the course of World War II, remained secret until now. In this groundbreaking book, esteemed Middle East scholars Barry Rubin and Wolfgang G. Schwanitz uncover for the first time the complete story of this dangerous alliance and explore its continuing impact on Arab politics in the twenty-first century. Rubin and Schwanitz reveal, for example, the full scope of Palestinian leader Amin al-Husaini's support of Hitler's genocidal plans against European and Middle Eastern Jews. In addition, they expose the extent of Germany's long-term promotion of Islamism and jihad. Drawing on unprecedented research in European, American, and Middle East archives, many recently opened and never before written about, the authors offer new insight on the intertwined development of Nazism and Islamism and its impact on the modern Middle East. "[Nazis, Islamists] reinsert[s] racial ideology into the study of the desert conflict and thereby offer[s] new insights into the Nazis' relationships with their North African and Middle Eastern partners." —Mia Lee, Contemporary European

History “Thoroughly researched and closely argued.” –David Pryce-Jones, National Review “The odd-couple marriage between Nazis and Arab nationalists has come under increasingly revealing scrutiny over the last decade. Here, fresh research from previously unexamined archives explicitly ties that frightening nexus to today’s Middle East.”–Gene Santoro, World War II magazine “This book tells a remarkable and–to me at least–little known but very important story.” –Marshall Poe, New Books in History

The Inherent Right of Self-Defence in International Law Murray Colin Alder, 2012-09-22
Determining the earliest point in time at which international law authorises a state to exercise its inherent right of self-defence is an issue which has been debated, but unsatisfactorily reasoned, by scholars and states since the 1960’s. Yet it remains arguably the most pressing question of law that faces the international community. This book unravels the legal and factual complications which have obscured the answer to this question. In contrast to most other works, it takes an historic approach by tracing the evolution of the rights, rules and principles of international law which have governed the use of force by states since the 16th century. Its emphasis on self-defence provides the reader with a new and complete understanding of how and why the international legal framework limits defensive force to repelling an imminent threat or use of offensive force which is directed at the territory of a state. Taking an historic approach enables this book to resurrect an understanding of the

human defensive instinct which has guided the formation of the international law of self-defence. It also explains the true legal nature and scope of the inherent right of self-defence, of anticipatory self-defence and provides a definition of the legal commencement of an armed attack for the purpose of Article 51 of the Charter. Finally, the reader will receive a unique source of research materials and analysis of state practice and of scholarly works concerning self-defence and the use of force since the 16th century, which is suitable for all readers of international law around the world.

Kurdish Documentary Cinema in Turkey Suncem Kocer, Can Candan, 2016-12-14 Without a doubt, this decade's most discussed and developed documentary productions in Turkey come from Kurdistan, a name that provokes nationalist panic in Turkey, yet delineates distinct cultural, linguistic, and political boundaries nonetheless. Documentary film productions by Kurdish filmmakers from Turkey determine the major tendencies of this emergent genre, with such productions offering a unique opportunity for a nuanced understanding of national cinema. The larger body of films, fiction and non-fiction termed as Kurdish cinema complicates the category of national cinema, a concept discussed heatedly within the field of cinema studies. Documentary film is proving to be a particularly complex tool for the Kurdish social and political existence, as Kurds lack the official tools of history-writing and cultural preservation that are categorically associated with the capacities of a state. By delving into

Kurdish documentary films as products of complex societal, political, and historical processes, the articles in the volume highlight the intersections of media production, film text, and audience reception, and expand on vibrant debates in the field of film and media studies through situated case studies. Bringing these chapters together, this book will stimulate academic discussion around this emergent and lively genre of documentary film production, and encourage further research and publication.

The Craft of International History Marc Trachtenberg, 2009-02-09 This is a practical guide to the historical study of international politics. The focus is on the nuts and bolts of historical research--that is, on how to use original sources, analyze and interpret historical works, and actually write a work of history. Two appendixes provide sources sure to be indispensable for anyone doing research in this area. The book does not simply lay down precepts. It presents examples drawn from the author's more than forty years' experience as a working historian. One important chapter, dealing with America's road to war in 1941, shows in unprecedented detail how an interpretation of a major historical issue can be developed. The aim throughout is to throw open the doors of the workshop so that young scholars, both historians and political scientists, can see the sort of thought processes the historian goes through before he or she puts anything on paper. Filled with valuable examples, this is a book anyone serious about conducting historical research will want to have on the bookshelf.

Distorted Mirrors Donald E. Davis, Eugene P. Trani, 2009 Drawing on memoirs, archives, and interviews, Davis and Trani trace American prejudice toward Russia and China by focusing on the views of influential writers and politicians over the course of the twentieth century, showing where American images originated and how they evolved--Provided by publisher.

Remembering the Road to World War Two Patrick Finney, 2010-09-13 'This is comparative history on a grand scale, skilfully analysing complex national debates and drawing major conclusions without ever losing the necessary nuances of interpretation.' Stefan Berger, University of Manchester, UK *Remembering the Road to World War Two* is a broad and comparative international survey of the historiography of the origins of the Second World War. It explores how, in the case of each of the major combatant countries, historical writing on the origins of the Second World War has been inextricably entwined with debates over national identity and collective memory. Spanning seven case studies – the Soviet Union, Germany, Italy, France, Great Britain, the United States and Japan – Patrick Finney proposes a fresh approach to the politics of historiography. This provocative volume discusses the political, cultural, disciplinary and archival factors which have contributed to the evolving construction of historical interpretations. It analyses the complex and multi-faceted relationships between texts about the origins of the war, the negotiation of conceptions of national identity and unfolding processes of war remembrance.

Offering an innovative perspective on international history and enriching the literature on collective memory, this book will prove fascinating reading for all students of the Second World War.

The New Continentalism Kent E. Calder, 2012-04-24
In this groundbreaking book Kent E. Calder argues that a new transnational configuration is emerging in Asia, driven by economic growth, rising energy demand, and the erosion of longstanding geopolitical divisions. What Calder calls the New Silk Road—with a strengthening multi-faceted relationship between East Asia and the Middle East at its core—could eventually emerge as one of the world's most important multilateral configurations. Straddling the border between comparative politics and international relations theory, this important book will stimulate debate and discussion in both fields.

The Devil That Never Dies Daniel Jonah Goldhagen, 2013-09-03 A groundbreaking--and terrifying--examination of the widespread resurgence of antisemitism in the 21st century, by the prize-winning and #1 internationally bestselling author of *Hitler's Willing Executioners*. Antisemitism never went away, but since the turn of the century it has multiplied beyond what anyone would have predicted. It is openly spread by intellectuals, politicians and religious leaders in Europe, Asia, the Arab world, America and Africa and supported by hundreds of millions more. Indeed, today antisemitism is stronger than any time since the Holocaust. In *THE DEVIL THAT NEVER DIES*, Daniel Jonah Goldhagen

latest tools and technology. The material has been updated to reflect the latest changes to major transportation resources such as the HCM, MUTCD, HSM, and more, including the most current ADA accessibility regulations. Transportation planning has historically followed the rational planning model of defining objectives, identifying problems, generating and evaluating alternatives, and developing plans. Planners are increasingly expected to adopt a more multidisciplinary approach, especially in light of the rising importance of sustainability and environmental concerns. This book presents the fundamentals of transportation planning in a multidisciplinary context, giving readers a practical reference for day-to-day answers. Serve the needs of all users Incorporate safety into the planning process Examine the latest transportation planning software packages Get up to date on the latest standards, recommendations, and codes Developed by The Institute of Transportation Engineers, this book is the culmination of over seventy years of transportation planning solutions, fully updated to reflect the needs of a changing society. For a comprehensive guide with practical answers, *The Transportation Planning Handbook* is an essential reference.

Nutrition in Lifestyle Medicine James M. Rippe, 2016-12-29 This newest addition to the Nutrition and Health series focuses on nutrition's key role in lifestyle interventions to prevent and manage diseases. The book pays particular attention to nutritional considerations related to obesity, diabetes, and cardiovascular disease.

Edited by cardiologist, Dr. James Rippe, a well-known expert in the nascent specialty of Lifestyle Medicine, *Nutrition in Lifestyle Medicine* will also focus on a variety of specialized areas such as nutrition for athletes and physically active individuals, hydration, and nutrition throughout the life cycle (spanning from children to individuals over the age of 60). In addition, chapters will be included on controversies in nutrition, such as health effects of added sugars and saturated fatty acids in the diet. Finally, specialized chapters will be included in such areas as nutrition for women, nutrition for men, nutrition for latinos, the use of supplements, communication about nutrition, public policy issues, and the interface between nutrition and physical activity. Lifestyle Medicine, supported by the American Journal of Lifestyle Medicine, Dr. Rippe's textbook *Lifestyle Medicine* (CRC Press, 2013) and American College of Lifestyle Medicine (ACLM), is a new national medicine specialty that stresses the use of lifestyle interventions in the treatment and management of disease. Its practitioners effectively manage medical treatments alongside the lifestyle interventions, for example lowering insulin treatment for patients with diabetes, reducing the dose of anti-hypertension medications for people with hypertension, and prescribing certain medical interventions that aid in smoking cessation.

Die Nordatlantische Allianz und Finnland 1949-1961 Agilolf Keßelring, 2011-12-05 Basierend auf bislang unveröffentlichten Dokumenten aus den Brüsseler NATO-Archiven sowie amerikanischen, britischen, deutschen diplomatischen und militärisch-nachrichtendienstlichen Berichten untersucht der Autor die Haltung der Nordatlantischen Allianz gegenüber dem durch eine Defensivallianz mit der Sowjetunion verbundenen, neutralen Finnland. Die regionale Perspektive Finnlands kommt unter den Gesichtspunkten des globalen Konfliktes zwischen détente, containment und roll back in den Blick. Finnland war dabei keineswegs nur Paradebeispiel friedlicher

Koexistenz. Das Ringen um das ostwärts der NATO-Nordflanke gelegene Finnland war ein Kampf um dessen wahrgenommene Zugehörigkeit zwischen Ost und West.
