*China's Achilles' Heel* Srikanth Thaliyakkattil, 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt & Road Initiative (BRI), and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond. In doing so, it spans across the themes of the power struggle between China and US, China and India, the Chinese perception of India, China-South Asia relations, the China-US- India strategic triangle and the success and failures of BRI. The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower. Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI.

**Assessing the Impact of Russia's War against Ukraine on Eastern Partner Countries** OECD, 2023-01-21 Russia's war against Ukraine is causing a humanitarian, social and economic crisis for the Ukrainian people. The consequences of this full-scale military invasion are disrupting the global supply of commodities, sharply increasing food and energy prices, and threatening the recovery from the COVID-19 pandemic.

*The Fabric of Cultures* Eugenia Paulicelli, Hazel Clark, 2009-06-02 Fashion is both public and private, material and symbolic, always caught within the lived experience and providing an incredible tool to study culture and history. The Fabric of Cultures examines the impact of fashion as a manufacturing industry and as a culture industry that shapes the identities of nations and cities in a cross-cultural perspective, within a global framework. The collected essays investigate local and global economies, cultures and identities and the book offers for the first time, a wide spectrum of case studies which focus on a diversity of geographical spaces and places, from global capitals of fashion such as New York, to countries less known or identifiable for fashion such as contemporary Greece and soviet Russia. Highly illustrated and including essays from all over the world, The Fabric of Cultures provides a comprehensive survey of the latest interdisciplinary scholarship on fashion, identity and globalisation.

*Risk, Global Governance and Security* Yee-Kuang Heng, Ken McDonagh, 2009-03-26 This book applies risk society theory to the 'War on Terror', steering the discussion away from the militaristic discourse of the Bush era towards an emphasis on global cooperation and a new cosmopolitan agenda. The literature and rhetoric of the 'War on Terror' has been dominated by dramatic high-profile military campaigns and division in the international community. This overlooks the various multilateral practices and cooperative processes that are emerging to combat global terrorism. President Bush himself had initially been at pains to stress that his 'war' on terror would be like no other; it would involve not just military tools but financial, intelligence, police and diplomatic measures too. More than eight years later, the time is right for an in-depth evaluation of this 'other' war on terror. Yet these relatively mundane regulatory dimensions have received much less attention than the 'hot' wars in Afghanistan and Iraq, where ongoing difficulties suggest that military force alone is inadequate in controlling globalised terrorism. This book aims to redress this imbalance, by foregrounding these initiatives, tracing their

of the Chinese economy starting with the reforms of the 1980s. The second part notes some distinctive elements of China's positioning in the global economy, while the third describes the state of relations between the United States and China under the Trump presidency. The fourth part focuses on diplomatic and economic equilibria in East Asia, Central and Southern Asia, the Middle East, Africa and Latin America. In turn, the last part addresses relations between China and various European countries. Given its scope, the book is a must-read for economists, policymakers and professionals from around the globe, interested in a better understanding of China's economic prospects in the Xi Jinping era.

**Movimentos e lutas sociais pela terra no sul do Brasil** ,2018-01-01 A história dos movimentos e lutas sociais ganha novos atores, e novas demandas se configuram neste início de século XXI. O processo histórico que originou movimentos sociais de luta pela terra ainda contabiliza refluxos e conquistas que impõem desafios, criam esperanças e geram frustrações, mantendo esses movimentos sociais em constante atualização. Como forma de registro de parte desse processo, este livro contempla questões contemporâneas sob perspectivas de representações do mundo rural, conflitos pela terra e pautas e políticas para o campo, de forma a oferecer diferentes ângulos de discussão da questão rural na contemporaneidade e análises específicas relacionadas com contextos mais amplos que requerem análises multidisciplinares empreendidas de forma multiescalar. Eis o cenário de pesquisa vislumbrado nesta obra para o estudo do rural na contemporaneidade.

**Tracing Your Trade & Craftsman Ancestors** Adèle Emm,2015-04-30 Almost all of us have a tradesman or craftsman a butcher, baker or candlestick maker somewhere in our ancestry, and Adle Emm's handbook is the perfect guide to finding out about them about their lives, their work and the world they lived in. She introduces the many trades and crafts, looks at their practices and long traditions, and identifies and explains the many sources you can go to in order to discover more about them and their families. Chapters cover the guilds, the merchants, shopkeepers, builders, smiths and metalworkers, cordwainers and shoemakers, tailors and dressmakers, coopers, wheelwrights and

carriage-makers, and a long list of other trades and crafts. The training and apprenticeships of individuals who worked in these trades and crafts are described, as are their skills and working conditions and the genealogical resources that preserve their history and give an insight into their lives. A chapter covers the general sources that researchers can turn to the National Archives, the census, newspapers, wills, and websites and gives advice on how to use them. Adle Emm's introduction will be fascinating reading for anyone who is researching the social or family history of trades and crafts.

Human Evolutionary Genetics Mark Jobling,Edward Hollox,Toomas Kivisild,Chris Tyler-Smith,2013-06-25 Human Evolutionary Genetics is a groundbreaking text which for the first time brings together molecular genetics and genomics to the study of the origins and movements of human populations. Starting with an overview of molecular genomics for the non-specialist (which can be a useful review for those with a more genetic background), the book shows h

*The Rapture: Don't Be Deceived* Billy Crone,2016-10-31 If there's one thing you don't want to be deceived about in life, it's the Biblical truth concerning the Rapture. The Bible says that for those who are left behind after this next great event on God's end time prophetic calendar, they will be thrust into the 7-year Tribulation, which is not a party. Rather, it's an outpouring of God's wrath upon this wicked and rebellious planet which will soon turn into mankind's greatest nightmare! Unfortunately, there seems to be multitude of opinions out there concerning the purpose and timing of the Rapture which is starting to cause a lot of unnecessary confusion and division. Therefore, *The Rapture: Don't Be Deceived* takes a detective's approach towards the Biblical teaching of the Rapture and examines the many Scriptural facts surrounding it.
