(Un) Civil Society and Political Change in Indonesia Verena Beittinger-Lee, 2013-01-11

(Un) Civil Society and Political Change in Indonesia provides critical analysis of Indonesia's civil society and its impact on the country's democratization efforts that does not only take the classical, pro-democratic actors of civil society into account but also portrays uncivil groups and their growing influence on political processes. Beittinger-Lee offers a revised categorization of civil society, including a model to define the sphere of 'uncivil society' more closely and to identify several subcategories of uncivil society. This is the first book to portray various uncivil groups in Indonesia, ranging from vigilantes, militias, paramilitaries, youth groups, civil security task forces and militant Islamic (and other religious) groups, ethnonationalist groups to terrorist organizations and groups belonging to organized crime. Moreover, it provides the reader with an overview of Indonesia's history, its political developments after the democratic opening, main improvements under the various presidents since Suharto's fall, constitutional amendments and key reforms in human rights legislation. This book will be of interest to upper level undergraduates, postgraduates and academics in political science and Southeast Asian studies.

Does Torture Prevention Work? Richard Carver, Lisa Handley, 2016-07-01 The first systematic analysis of the effectiveness of torture prevention.

The European External Action Service and National Foreign Ministries Rosa Balfour, Caterina Carta, Kristi Raik, 2016-02-11 Based on extensive empirical work by a cross-European group of researchers, this book assesses the impact of the creation of the

European External Action Service (EEAS) on the national foreign policy-making processes and institutions of the EU member states. As such, the contributions cover both the involvement of the national diplomatic and foreign policy actors in shaping the outlook of the EEAS and its mission, as well as the changes (or not) it has produced for those actors of the member states. The analysis draws in theoretical frameworks from Europeanization and socialization, but also from intergovernmental frameworks of policy-making within the European Union. An introduction by the editors outlines the issues and trends examined in the book and establishes the theoretical and methodological framework. Split into 2 sections, Part I: EEAS and national diplomacies as part of global and European structures has contributions by Richard Whitman, Rosa Balfour, Christian Lequesne, Caterina Carta and Simon Duke. Part II: National diplomacies shaping and being shaped by the EEAS is covered by Daniel Fiott, Fabien Terpan, Cornelius Adebahr, Andrea Frontini, Ignacio Molina and Alicia Sorroza, Laura C. Ferreira-Pereira, Alena Vysotskaya G. Vieira and Louise van Schaik, Grzegorz Gromadzki, Mark Rhinard, Jakob Lewander and Sara Norrevik, Sabina Kajnc Lange, Ruby Gropas and George Tzogopoulos, Vit Beneš and Kristi Raik. This book is much needed, especially in an era when the EU is trying to pull its weight in the international sphere (e.g. Syria, Iran, the Arab Spring, Chinese relations and emerging powers) but also at a time when the EU is trying to recalibrate its institutional structure in light of the current financial predicaments and questions on the democratic legitimacy of the European project.

Supercinema William Brown, 2013-05-30 Drawing on a variety of popular films, including Avatar, Enter the Void, Fight Club, The Matrix, Speed Racer, X-Men and War of

the Worlds, Supercinema studies the ways in which digital special effects and editing techniques require a new theoretical framework in order to be properly understood. Here William Brown proposes that while analogue cinema often tried to hide the technological limitations of its creation through ingenious methods, digital cinema hides its technological omnipotence through the use of continued conventions more suited to analogue cinema, in a way that is analogous to that of Superman hiding his powers behind the persona of Clark Kent. Locating itself on the cusp of film theory, film-philosophy and cognitive approaches to cinema, Supercinema also looks at the relationship between the spectator and film that utilizes digital technology to maximum, 'supercinematic' effect.

Indonesia, Law and Society Timothy Lindsey, 2008 Since the first edition, Indonesia has undergone massive political and legal change as part of its post-Soeharto reform process and its dramatic transition to democracy. This work contains 25 new chapters and the 4 surviving chapters have all been revised, where necessary. Indonesia: Law and Society now covers a broad range of legal fields and includes both historical and very up-to-date analyses and views on Indonesian legal issues. It includes work by leading scholars from a wide range of countries. There is still no comparable, English language text in existence.

Deep Strike Rick Shelley, 2002 This second installment of the Spec Ops Squad saga

finds the First Combine Regiment recuperating on Earth. It's not long before they're back to basic training--and it's Sergeant Bart Dragon Drak's job to ensure that the varied alien races learn to function as a team. Now Drak must lead them on a new mission against the Ilion Federation. (July)

A Complete Guide to Rubrics Audrey M. Quinlan, 2012 This book takes a developmental perspective at the use of scoring rubrics to assess student work. Citing developmental characteristics of each age, the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult/college. After a presentation of foundation information on rubrics, separate chapters are devoted to each grade level from primary through adult. Written so that each chapter can be addressed independently, the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs. The final chapters provide practical information to help teachers to create their own rubrics and to covert rubric scores to letter grades. An updated annotated listing of recommended rubric websites is included.

Guideline for Isolation Precautions in Hospitals Julia S. Garner, 1983

Electronic Expectations Tony Stankus, 2019-12-06 This book, first published in 1999, analyses the convergence of financial, technical, and public policy considerations that turned what seemed like science fiction twenty years ago into a library fact of life today. It shows that while electronic publication greatly speeds issuance of important scientific results of enduring value, it also has the potential to lower the economic threshold at which crank papers and marginal publications can gain a wide, if sadly misled audience, in

the short run. It demonstrates that while scientists invented the web, they no longer control it, and that even the very largest research organizations, libraries, publishers, and journal aggregators, will, to a substantial degree, be at the technological and economic mercy of commercial users of the web.

The Brown Journal of World Affairs ,2002

Sucker Punch Rick Shelley,2011-09-09 The Spec Ops Squad is a group of elite soldiers from every alien race in the Alliance of Light. They're supposed to be the best of the best. It's been tough to forge them into a team; they didn't have much in common at the beginning. But commanding officer Sergeant Bart "Dragon" Drak has done a good job, and the Squad has achieved some important victories--at a heavy cost. Now they're facing their toughest test yet. The Alliance of Light has built a utopian community on the planet Unity, where people from all the various alien races live together. But Unity is threatened by an attack from the Ilion Federation. The Spec Ops Squad and the rest of their regiment are responsible for holding Ilion at bay until the Alliance can build up their supports. The Squad is up for the task. The only question is, can Unity hold itself together long enough? PRAISE FOR THE AUTHOR: Rick Shelley was a soldier at heart, and his books were written from the heart. They carry the real feel of the sweat, blood, and camaraderie of those on the front lines. --Jack Campbell, author of the bestselling Lost Fleet series

Government Finance Statistics Manual Sage De Clerck,Tobias Wickens,2015-03-10 The Government Finance Statistics Manual 2014 (GFSM 2014)—describes a specialized macroeconomic statistical framework--the government finance statistics (GFS) framework--designed to support fiscal analysis. The manual provides the economic and

statistical reporting principles to be used in compiling the statistics; describes guidelines for presenting fiscal statistics within an analytic framework that includes appropriate balancing items; and is harmonized with other macroeconomic statistical guidelines.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults, 2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Targeted Deepa Fernandes, 2007-01-07 The new immigrant experience of waking from the American dream to fortress America.

Oracles, Heroes or Villains George E. Shambaugh, 2019-09-19 IMF Managing Director Christine Lagarde declared central bankers and finance ministers to be the

heroes of recent economic crises for taking corrective action while national politicians squabbled. What enabled them to do so? In the wake of Brexit, chaotic trade policies in the United States, and resurgent nationalism around the world, national politicians are quarrelling again, meanwhile the markets are roiling. Can we again depend on economic technocrats to save the day for these national politicians and the rest of us? What happens if they fail or, perhaps worse, go too far? In this timely book, Shambaugh answers these questions using recent economic crises in Argentina, the United States and Europe as case studies for analysing the intersections of power, politics and markets. By specifying the interactions between political uncertainty, market intervention, and investor risk, Shambaugh predicts how economic technocrats manage market behaviour by shifting expectations regarding what national politicians will do and whether their policies will be effective.
