Ageing and COVID-19 Maria Łuszczynska, Marvin Formosa, 2021-11-29 The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. This volume presents a range of research approaches to the exploration of ageing during a pandemic situation. One of the first collections of its kind, it offers an array of studies employing research methodologies that lend themselves to replication in similar contexts by those seeking to understand the effects of epidemics on older people. Thematically organised, it shows how to reconcile qualitative and quantitative approaches, thus rendering them complementary, bringing together studies from around the world to offer an international perspective on ageing as it relates to an unprecedented epidemiological phenomenon. As such, it will appeal to researchers in the field of gerontology, as well as sociologists of medicine and clinicians seeking to understand the disruptive effects of the recent coronavirus outbreak on later life.

The New Utopian Politics of Ursula K. Le Guin's The Dispossessed Laurence Davis, Peter Stillman, 2005-11-22 The Dispossessed has been described by political thinker Andre Gorz as 'The most striking description I know of the seductions—and snares—of self-managed communist or, in other words, anarchist society.' To date, however, the radical social, cultural, and political ramifications of Le Guin's multiple award-winning novel remain woefully under explored. Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin's novel. Among the topics covered in this wide-ranging, international and interdisciplinary collection are the anarchist, ecological, post-consumerist, temporal, revolutionary, and open-ended utopian politics of The Dispossessed. The book concludes with an essay by Le Guin written specially for this volume, in which she reassesses the novel in light of the development of her own thinking over the past 30 years.

Heartstream Tom Pollock, 2019-07 I just wanted to see you. Before the end. A taut psychological thriller about obsession, fame and betrayal, for fans of Black Mirror. Cat is in love. Always the sensible one, she can't believe that she's actually dating, not to mention dating a star. But the fandom can't know. They would eat her alive. And first at the buffet would definitely be her best friend, Evie. Amy uses Heartstream, a social media app that allows others to feel your emotions. She broadcasted every moment of her mother's degenerative illness, and her grief following her death. It's the realest, rawest reality TV imaginable. But on the day of Amy's mother's funeral, Amy finds a strange woman in her kitchen. She's rigged herself and the house with explosives - and she's been waiting to talk to Amy for a long time. Who is she? A crazed fan? What

does she want? Amy and Cat are about to discover how far true obsession can go.

Vocabulary of the Greek Testament G. Milligan, J. H. Moulton, 1995-10-01 Beginning in the late nineteenth century, large numbers of Greek papyri dating to the early Christian period were discovered in Egypt. Some of these contain biblical texts or fragments of Hellenistic literature, but many others are nonliterary: private letters, records of business transactions and civil proceedings, etc. New Testament scholars soon recognized that this corpus of new material could in many cases illuminate usages in the Greek New Testament for which exact parallels had never been located in classical Greek literature. For the first time it was possible to recognize that New Testament Greek was not a peculiar Hebraic-Greek dialect but an expression of the Koine Greek commonly used in everyday life throughout the eastern Mediterranean world. In the first decade of the 1900s, James Hope Moulton asked George Milligan to join him in assembling data from the papyri regarding particular New Testament words. After Moulton's death in 1915, Milligan continued the work. The result was the publication of *The Vocabulary of the Greek Testament* in fascicles between 1914 and 1929 and in a single-volume edition in 1930. This work has been reprinted a number of times, and New Testament scholars still consider it a standard reference. Milligan's 14-page introduction describes the papyri and their significance for our understanding of the language of the New Testament. Then, after a table of abbreviations, follow 705 pages of entries in

alphabetical order. The entries are given in Greek script, but in this new reprint Strong's numbers have been added to make the work more accessible to those with limited knowledge of Greek. Another important new addition is an index of New Testament passages. This thorough index, meticulously prepared under the direction of Professor Daniel B. Wallace of Dallas Theological Seminary, will greatly enhance the usefulness of this classic work for scholars, pastors, and all who wish to delve more deeply into the meanings of New Testament words.

Decoded C M Kelshall, 2020-07-25 In early 2020, a focus group was conducted to examine some of the implications of the ongoing effects of long-term lockdowns and pandemic-related economic impacts. It became apparent that the analysis might also be relevant to other types of emergencies. The focus group was comprised military officers, police practitioners, social scientists, data scientists, linguists, cyber security, gang crime researchers and criminologists. The overarching security question being addressed in this report is the following: How might the security landscape change internationally experience change internationally following the COVID-19 pandemic? The term 'security landscape' refers to the broad spectrum of security problems which might be aggravated by the 'new normal'.

Human Dignity Edward Sieh, Judy

McGregor, 2017-04-17 This book examines the concept of dignity from a variety of global perspectives. It scrutinizes how dignity informs policy and practice, and is influenced by international and domestic law, human rights values, and domestic politics. An exciting collection of essays, this edited volume provides an analysis of human rights as they are experienced by real people who have in many cases been forced to take action to further their own interests. Readers will discover an extensive range of issues discussed, from the internet, climate change and disabilities, to globalization, old-age, and migrants' rights. The last section deals with the impact of various issues on indigenous and migrant populations, specifically violence in Columbia, border issues in Tijuana, women's and children's rights violations, and the complex problems experienced by refugees, particularly in regards to citizenship. The interdisciplinary nature of this work makes it an invaluable read for scholars of Health Studies, Law, Human Rights, Sociology and Politics.
